Hitman, 2025-08-01 Describes and analyzes the main divisions within Israel's heterogeneous society In November 2022 Israeli  
citizens went to the polls to elect their representatives to the legislature the Knesset for the fifth time in less than four years  
This was the culmination of a political crisis that began in November 2018 when Avigdor Lieberman resigned from his  
position as minister of defense after Prime Minister Benjamin Netanyahu refused to approve a significant military move in  
the Gaza Strip Since then Israel has been caught in a political whirlwind In Search of Identity seeks to find out the nature of  
the crisis in Israel by analyzing the main rifts in Israeli society It describes and analyzes the main splits within Israel's  
heterogeneous society arguing these divisions have social ideological and political consequences the most important being a  
lack of common national interests and vision The goal herein is to present a society and country that has long been searching  
for identity not only geographically but also in terms of moral values ethics and integrity *On Shame And The Search For  
Identity* Helen Merrell Lynd, 2013-08-21 First published in 1999 This is Volume XIII of twenty one of the Individual  
Differences Psychology series Written in 1958 this study looks at the areas of shame and guilt in the search for identity

*Seeking Identity* Nancy Mae Antrim, 2021-03-04 Seeking Identity Language in Society looks at how we define and create  
identity both as individuals and as a society through language Our language choices reflect not only how we view ourselves  
but how we are viewed by society An individual's identity is reflected in various language construed identities ethnicity  
gender and cross cultural counter cultural In turn these identities are projected by society on the individual ethnic group by  
the language choices society makes in describing and addressing these individuals In the first section Language and Identity  
an ethnolinguistic approach is used to address the areas of language identity loyalty gender and ethnic pride Section two  
Language and Advertising looks at how society in turn uses language to relate to different groups by appealing to ethnic  
pride language identity and the power prestige that using a particular language variety entails Section three Language and  
the Media explores how the media contributes to our construction of identity Section four Language and Discourse shows  
how written discourse can appropriate construct and parody identity **Collective Search for Identity** Orrin Edgar  
Klapp, 1969 From the Preface This book is about identity seeking movements of modern society It deals with such things as  
fashions fads poses ritual cultic movements recreation heroes and celebrities and crusades from the point of view of what  
they tell about the identity search of a mass society My view briefly is that a collective identity search is symptomatic of the  
fact that some modern social systems deprive people of psychological payoffs the lack of which expressed by terms such as  
alienation meaninglessness identity problem motivates a mass groping for activities and symbols with which to restore or  
find new identity People grope because they do not really know what is wrong especially when there is physical prosperity

yet a sense of being cheated When mass movements become concerned with identity they develop certain characteristics such as ego screaming concern with costume and self ornamentation style rebellion concern with emotional gestures rather than practical effects adulation of heroes cultism and the like with which I shall deal Such signs show that ordinary economic and political solutions are not what is wanted People feel the futility and irrelevance of such measures yet do not know quite what else to do

**Identity Search Struggles** Ocean Ecosoft,AI,2025-02-22 Identity Search Struggles examines how the digital age impacts identity formation in young people focusing on the complex interplay between online and offline experiences It explores how social media platforms like Instagram and TikTok influence self esteem and social comparison and how online communities provide spaces for experimenting with identity The book uniquely emphasizes the dynamic relationship between online and offline identities highlighting that digital spaces actively shape young people s self perception challenging simplistic views of social media as purely beneficial or detrimental Drawing upon established theories from psychology and sociology this book presents empirical data from large scale youth surveys and qualitative interviews to provide a nuanced understanding of digital identity It acknowledges the shift from predominantly offline identity formation to a blended reality where digital interactions hold considerable sway The book progresses logically starting with key concepts and theoretical frameworks then delves into the influence of social media and online communities culminating in practical implications for educators parents and policymakers The book s interdisciplinary approach connects psychology sociology and media studies to offer a holistic perspective It stresses that online spaces are not mere platforms but active environments shaping identities One intriguing insight is how digital interactions can both enhance and hinder social development and mental health particularly in relation to self esteem and body image By offering evidence based recommendations Identity Search Struggles helps readers support healthy youth development in an increasingly digital world

*Finding Identity Through Directing* Soseh Yekanians,2020-05-10 Finding Identity through Directing is a practice led autoethnographical monograph that provides an in depth exploration into the field of theatre directing and an individual s endless creative pursuit for belonging The book specifically examines how a culturally displaced individual may find a sense of identity through their directing and addresses the internal struggles of belonging acceptance and Self that are often experienced by those who have confronted cultural unhoming The first half of the story scrutinises Dr Yekanians own identity as an Iranian born Armenian Australian and how she struggled with belonging growing up in a world that for the most part was unaccepting of her differences The second half looks at how theatre directing aided her re discovery of Self While evidence shows that within the past decade there has been a growing interest in the vocation of theatre directing embarking on a career within this field while exciting can often be a daunting and experimental vocation Finding Identity through Directing questions this conundrum and specifically asks in a competitive artistic profession that is rapidly developing what attracts an individual to the authoritative role of the director and what are the underlying motivations of this attraction By

uncovering that there is more to the role of the director than the mere finality of a production we can observe that the theatre is a promising setting for cultural exchanges in dialogue and for personal development Theatre directing as the vehicle for these expansions and progressions of self can potentially address the internal struggles of identity often experienced by those who in some form have encountered cultural displacement *Seeking Identity* Raymond A.

Belliotti,1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism **Zhang Yijing (1871-1931) and the Search for a Chinese Christian Identity**

Jue Wang (王觉),2021-10-06 Can Christian identity and national identity be reconciled For Christians in China this question is particularly fraught While Sinicization offers the indigenous church one path forward it fails to provide a tenable solution for believers unwilling to submit their love of God under love of country Dr Jue Wang explores an alternative roadmap for Chinese Christian identity in the writings of Zhang Yijing The editor of True Light a Chinese Baptist publication Zhang was also a Chinese patriot Confucian and life long proponent of science and reason Utilizing the lens of identity studies Dr Wang examines Zhang s process of reconciling faith and culture in his quest to be both authentically Christian and authentically Chinese This study offers a fascinating glimpse into the modern history of the Chinese church while uncovering the significance of an often overlooked Chinese Christian apologist Zhang s example offers encouragement and hope for believers around the world seeking to integrate social cultural and national identities under the lordship of Christ

*Women in Search of Identity* Anthony J. Masala Nkhoma, 2006      **Identity and Capitalism** Marie Moran, 2014-11-13 This is a splendid book that dispels myths about identity and presents a cultural materialist case for the study of such keywords and their preoccupations under the hegemony of neoliberal capitalism Professor Jim McGuigan Loughborough University Identity particularly as it is elaborated in the associated categories of personal and social identity is a relatively novel concept in western thought politics and culture The explosion of interest in the notion of identity across popular political and academic domains of practice since the 1960s does not represent the simple popularisation of an older term as is widely assumed but rather the invention of an idea Identity and Capitalism explores the emergence and evolution of the idea of identity in the cultural political and social contexts of contemporary capitalist societies Against the common supposition that identity always mattered this book shows that what we now think of routinely as personal identity actually only emerged with the explosion of consumption in the late twentieth century It also makes the case that what we now think of as different social and political identities only came to be framed as such with the emergence of identity politics and new social movements in the political landscapes of capitalist societies in the 60s and 70s Marie Moran provides an important new exploration of the articulation of the idea of identity to the social logic of capitalism from the organised capitalism of the mid twentieth century up to and including the neoliberal capitalism that prevails today Drawing on the work of Raymond Williams the cultural materialist approach developed here provides an original means of addressing the political debates about the value of identity in contemporary capitalist societies

**Public Budgeting in Search for an Identity** Maria Francesca Sicilia, Ileana Steccolini, 2020-12-27 Public Budgeting in Search for an Identity State of the Art and Future Challenges provides a state of

the art reflection on current trends in international public budgeting representing an important pillar in the accumulation of knowledge on public sector budgeting processes contents evolutions and critical issues Budgeting is central in public sector organizations It performs a complex variety of functions being the arena where multiple actors cultures and professional identities interact making it an extremely fascinating field and topic of investigation There is a significant need and scope for exploring budgeting processes in the public sector today as a consequence of the managerial waves of reforms that have taken place over the last few decades and the implementation of austerity programmes as well as in light of current trends including emerging challenges related to community care and wellbeing rising inequality people flows climate change pandemics and the persistence of democratic deficits The chapters in this volume address critical issues on this broad topic offering new perspectives on current evolutions in public budgeting including among others participatory budgeting performance budgeting the budgetary slack resources and the need to ensure balance between budget control and flexibility These contributions show that public budgeting can and must remain the subject of enduring interest in our studies The chapters in this book were originally published as a special issue of Public Management Review

**In Search of an Identity** Edward Vickers,2003 This volume traces the influences that have shaped the secondary school history curriculum during Hong Kong s prolonged political transition between the 1960s and the early 21st century focusing especially on the relationship between history teaching and identity formation The author s experience as a local history teacher during the mid 1990s made him conscious of the of peculiarities of the history curriculum at this time in particular the neglect in both syllabuses and textbooks of Hong Kong s own history and the unique division between History and the entirely separate subject of Chinese History

The Oxford Handbook of Identity Development Kate C. McLean,Moin Syed,2014-10-27 Identity is defined in many different ways in various disciplines in the social sciences and sub disciplines within psychology The developmental psychological approach to identity is characterized by a focus on developing a sense of the self that is temporally continuous and unified across the different life spaces that individuals inhabit Erikson proposed that the task of adolescence and young adulthood was to define the self by answering the question Who Am I There have been many advances in theory and research

on identity development since Erikson's writing over fifty years ago and the time has come to consolidate our knowledge and set an agenda for future research. The Oxford Handbook of Identity Development represents a turning point in the field of identity development research. Various and disparate groups of researchers are brought together to debate, extend, and apply Erikson's theory to contemporary problems and empirical issues. The result is a comprehensive and state-of-the-art examination of identity development that pushes the field in provocative new directions. Scholars of identity development, adolescent and adult development, and related fields, as well as graduate students, advanced undergraduates, and practitioners will find this to be an innovative, unique, and exciting look at identity development.

**Taxes and Identity Theft: Status of IRS Initiatives to Help Victimized Taxpayers:** James R. White, 2011-03-05. Statement of James R. White, Dir. Strategic Issues, GAO. Identity theft is a serious and growing problem in the U.S. Taxpayers are harmed when identity thieves file fraudulent tax documents using stolen names and Social Security numbers. In 2010 alone, the Internal Revenue Service (IRS) identified over 245,000 identity theft incidents that affected the tax system. The hundreds of thousands of taxpayers with tax problems caused by identity theft represent a small percentage of the expected 140 million individual returns filed, but for those affected, the problems can be quite serious. GAO was asked to describe among other things: 1) when IRS detects identity theft, based refund and employment fraud; 2) the steps IRS has taken to resolve, detect, and prevent innocent taxpayers' identity theft-related problems; and 3) constraints that hinder IRS's ability to address these issues. This testimony is based on GAO's previous work on identity theft, which was updated by examining data on identity theft cases and interviewing IRS officials. Figures and tables. This is a print-on-demand report. Patent and Trade Mark Review, 1925

**Linguistic Identity Matching** Bertrand Lisbach, Victoria Meyer, 2013-06-05. Regulation, risk awareness, and technological advances are more and more drawing identity search requirements into business security and data management processes. Following years of struggling with computational techniques, the new linguistic identity matching approach finally offers an appropriate way for such processes to balance the risk of missing a personal match with the costs of overmatching. The new paradigm for identity searches focuses on understanding the influences that languages, writing systems, and cultural conventions have on person names. A must-read for anyone involved in the purchase, design, or study of identity matching systems, this book describes how linguistic and onomastic knowledge can be used to create a more reliable and precise identity search.
