Seasonal Variations Of The Eskimo A Study In Social Morphology:

Seasonal Variations of the Eskimo Marcel Mauss, 2013-10-08 Seasonal Variations of the Eskimo is one of the first books in anthropology to adopt a sociological approach to the analysis of a single society Mauss links elements of anthropology and human geography arguing that geographical factors should be considered in relation to a social context in all its complexity The work is an illuminating source on the Eskimo and a proto type of what an anthropologist should do with ethnographic data and exerted considerable influence on the development of social anthropology English translation first published in 1979 □Mauss, Marcel, and Henri Beuchat 1979(1904-5), *Seasonal variations of the Eskimo* ,1991

Reintroducing Marcel Mauss Christian Papilloud, 2023-11-24 This reintroduction to the life and work of Marcel Mauss highlights his coherent and original thought both as an academic and an engaged intellectual of his time Since his work regained attention in social sciences in the later 20th century Reintroducing Marcel Mauss also emphasises the progression of research on Mauss s thought bringing to light various neglected aspects of his scientific project including his political commitment and writings With a review of the contemporary research on Mauss s legacy it offers a fuller understanding of the questions with which he was concerned questions which converged in the challenge of working out alternative ways for a social life that promotes a genuinely social society inspired by socialist and cooperative values It will therefore appeal to scholars of sociology and anthropology with interests in the history and development of sociology and the contemporary importance of classical social theory □The Social Life of Climate Change Models Kirsten Hastrup, Martin Skrydstrup, 2013 Drawing on a combination of perspectives from diverse fields this volume offers an anthropological study of climate change and the ways in which people attempt to predict its local implications showing how the processes of knowledge making among lay people and experts are not only comparable but also deeply entangled Through analysis of predictive practices in a diversity of regions affected by climate change including coastal India the Cook Islands Tibet and the High Arctic and various domains of scientific expertise and policy making such as ice core drilling flood risk modelling and coastal adaptation the book shows how all attempts at modelling nature s course are deeply social and how current research in climate contributes to a rethinking of nature as a multiplicity of modalities that impact social life **The New Blackwell**

Companion to the Sociology of Religion Bryan S. Turner, 2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches

Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry

Weaving Peace Samuel Kale Ewusi, 2012 Weaving Peace Essays on Peace Governance and Conflict Transformation in the Great Lakes Region of Africa provides a unique and interdisciplinary perspective on issues of peace governance and conflict transformation by academics and practitioners from eight partner institutions of the United Nations Mandated University for Peace in the Great Lakes region of Africa It is an essential tool for scholars and policymakers seeking contextual clarity behind the headlines about the nature and extent of conflicts in the region and how to go about transforming the region It provides a rather nuanced perspective of the complexity of the peace conflict dynamics of the region and underscores the inescapable truth of the need for a more indigenous and context based approach to understanding the Great Lakes region of Africa

Travelling Passions Gisli Pálsson, 2005-09-07 Vilhjalmur Stefansson has long been known for his groundbreaking work as an anthropologist and expert on Arctic peoples His three expeditions to the Canadian Arctic in the early 1900s as well as his expertise in northern anthropology helped create his public image as an heroic Hemingway esque figure in the annals of twentieth century exploration But the emotional and private life of Stefansson the man have remained hidden until now New evidence of this other life has recently been discovered a collection of love letters between Stefansson and his fiancée Orpha Cecil Smith were found in a New Hampshire flea market Stefansson s field diaries have revealed elegant essays and insightful commentary on Inupiat society baptismal records have revealed that Stefansson had a son Alex with his informant and guide Fanny Pannigabluk and through web searches and a private detective Pálsson has found and conducted interviews with the descendants of both Cecil Smith and Alex Stefansson *Travelling Passions* sheds new light on Stefansson s life and

work focusing on the tension between his private life and the theories that brought his name to the halls of fame Palsson draws a clear vivid and in many ways unexpected picture of the mythical figure of Stefansson **Environment,**

Subsistence and System R. F. Ellen, 1982-09-30 Human ecology is ultimately part of a general theory of society This is the argument developed here by Roy Ellen whose exploration of the interplay between social organization and ecology in small scale subsistence systems has direct bearings both on the investigation of human environmental relations in general and on contemporary social theory He argues that while ecological study of non industrial societies cannot be elevated to the status of theory domain or discipline it can be represented as a single problematic that historically has acquired some degree of autonomy and which continues to make a significant contribution to a wider anthropology Dr Ellen introduces his subject matter through an extended and systematic discussion of some major frameworks developed within the last hundred years to examine and explain facets of the relationship between culture social organization and the environment determinism possibilism cultural ecology systems theory and ideas derived from modern biology He follows this with a detailed review and appraisal of important recent research involving the use of ecological models methods and data This original and innovative study of the pre eminently social character of human ecological relations will be of considerable interest to all students and researchers concerned with understanding the nature of the relationship between human beings and their environments

The Social Origins of Thought Johannes F.M. Schick,Mario Schmidt,Martin Zillinger,2022-03-11 By studying how different societies understand categories such as time and causality the Durkheimians decentered Western epistemology With contributions from philosophy sociology anthropology media studies and sinology this volume illustrates the interdisciplinarity and intellectual rigor of the category project which did not only stir controversies among contemporary scholars but paved the way for other theories exploring how the thoughts of individuals are prefigured by society and vice versa

Missing Persons Mary Douglas,Steven Ney,1998-11-04 The Western cultural consensus based on the ideas of free markets and individualism has led many social scientists to consider poverty as a personal experience a deprivation of material things and a failure of just distribution Mary Douglas and Steven Ney find this dominant tradition of social thought about poverty and well being to be full of contradictions They argue that the root cause is the impoverished idea of the human person inherited through two centuries of intellectual history and that two principles the idea of the solipsist self and the idea of objectivity cause most of the contradictions Douglas and Ney state that Economic Man from its semitechnical niche in eighteenth century economic theory has taken over the realms of psychology consumption public assistance political science and philosophy They say that by distorting the statistical data presented for policy analysis the ideas of the solipsist self and objectivity indeed often protect a political bias The authors propose to correct this by revising the current model of the person Taking cultural bias into account and giving full play to political dissent they restore the persons who have been missing from the social science debates Drawing from anthropology economics political science and sociology the authors set forth a fundamental critique of the social sciences Their book will find a wide audience among social scientists and will also interest anyone engaged in current discussions of poverty This book is a copublication with the Russell Sage Foundation

Early Inuit Studies Igor Krupnik,2016-02-16 This collection of 15 chronologically arranged papers is the first ever definitive treatment of the intellectual history of Eskimology known today as Inuit studies the field of anthropology preoccupied with the origins history and culture of the Inuit people The authors trace the growth and change in scholarship on the Inuit Eskimo people from the 1850s to the 1980s via profiles of scientists who made major contributions to the field and via intellectual transitions themes that furthered such developments It presents an engaging story of advancement in social research including anthropology archaeology human geography and linguistics in the polar regions Essays written by American Canadian Danish French and Russian contributors provide for particular trajectories of research and academic tradition in the Arctic for over 130 years

Most of the essays originated as papers presented at the 18th Inuit Studies Conference hosted by the Smithsonian Institution in October 2012 Yet the book is an organized and integrated narrative its binding theme is the diffusion of knowledge across disciplinary and national boundaries A critical element to the story is the changing status of the Inuit people within each of the Arctic nations and the developments in national ideologies of governance identity and treatment of indigenous populations This multifaceted work will resonate with a broad audience of social scientists students of science history humanities and minority studies and readers of all stripes interested in the Arctic and its peoples *The Anthropology of Climate Change* Michael R.
