**Sebastian Castello, 1515-1563** Hans R. Guggisberg, Bruce Gordon, 2017-07-05 Sebastian Castello linguist humanist and religious reformer is one of the most remarkable figures of the Reformation Attracted by Calvin s reforms Castellio moved to Geneva in the 1540s where he wrote his influential work on educational reform Ironically it was Castellio s work as a scholar in Geneva which was to lead to his falling out with Calvin and ultimately his forced departure from Geneva and his resettlement in Basle Exiled from Geneva Castellio soon attracted a circle of like minded reformers who opposed the intolerant attitude of Calvin exemplified by the execution of the heretical Michael Servetus It is Castellio s residence in Basle where he developed his liberal humanist approach to religious toleration in opposition to Calvin s dogmatic orthodoxy which forms the core of this study It explores what toleration meant and how both sides argued their case Much attention is paid to Castellio s most important work On Heretics in which he argues against the execution of those who err in the faith By telling the fascinating tale of Castellio s life this work illuminates the furious debate which he unleashed and how it marked a crucial stage in the development of Protestant thought

Zurich church and theologically conservative Italian exiles became the basis for close cooperation in subsequent decades. Drawing heavily on unpublished sources from Swiss archives, the volume sheds light on the processes by which the boundaries of Reformed orthodoxy came to be defined. In particular, it demonstrates the importance of theological controversy and polemic as catalysts for the systematisation of doctrine during this period.

*Refusing to Kiss the Slipper* Michael W. Bruening, 2021-03-19. History has long viewed French Protestants as Calvinists. *Refusing to Kiss the Slipper* re-examines the Reformation in francophone Europe, presenting for the first time the perspective of John Calvin's evangelical enemies and revealing that the French Reformation was more complex and colorful than previously recognized. Michael Bruening brings together a cast of Calvin's opponents from various French-speaking territories to show that opposition to Calvinism was stronger and better organized than has been recognized. He examines individual opponents such as Pierre Caroli, Jerome Bolsec, Sebastian Castellio, Charles Du Moulin, and Jean Morly, but more importantly, he explores the anti-Calvinist networks that developed around such individuals. Each group had its own origins and agenda, but all agreed that Calvin's claim to absolute religious authority too closely echoed the religious sovereignty of the pope. These oft-neglected opponents refused to offer such obeisance to "kiss the papal slipper," arguing instead for open discussion of controversial doctrines. They believed Calvin's self-appointed leadership undermined the bedrock principle of the Reformation: that the faithful be allowed to challenge religious authorities. This book shows that the challenge posed by these groups shaped the way the Calvinists themselves developed their reform strategies. Bruening's work demonstrates that the breadth and strength of the anti-Calvinist networks requires us to abandon the traditional assumption that Huguenots and other francophone Protestants were universally Calvinist.

Religious Tolerance from Renaissance to Enlightenment Eric MacPhail, 2019-11-22. This new study examines the relationship of atheism to religious tolerance from the Renaissance to the Enlightenment in a broad array of literary texts and political and religious controversies written in Latin and the vernacular, primarily in France, the Netherlands, and Switzerland. The main authors featured are Desiderius Erasmus, Sebastian Castellio, Jean Bodin, Michel de Montaigne, Dirck Coornhert, Justus Lipsius, Gisbertus Voetius, the anonymous Theophrastus redivivus, and Pierre Bayle. These authors reflect and inform changing attitudes to religious tolerance, inspired by a complete reconceptualization of atheism over the course of three centuries of literary and intellectual history. By integrating the history of tolerance in the history of atheism, *Religious Tolerance from Renaissance to Enlightenment* should prove stimulating to historians of philosophy as well as literary specialists and students of Reformation history.
