The Changing of the Guard Dana Rosenfeld, 2003 One of the first books to link identity age and gender *The Changing of the Guard* offers a significant meditation on the politics of older lesbians and gays Combining interviews and sustained critical thought Rosenfeld links the development of lesbian and gay elders' identity with the key moments in the 20th century reinvention of homosexuality In doing so she bridges the gap between history and interaction that has characterized and constrained previous studies of identity Rosenfeld first summarizes the meaning of homosexuality that prevailed when her subjects came of age and the radical changes it underwent during their middle years She uses these changes to trace the paths they took toward one of two homosexual identities a discreditable one adopted before the advent of gay liberation or an accredited one adopted during and through those momentous years She theorizes that there is the existence of two distinct identity cohorts shaped by a willingness or resistance to accept the historical forces at work on lesbian and gay identity Such decisions on identities Rosenfeld argues strongly shaped her subjects in later life specifically their understanding of the self

Gay Midlife and Maturity John Alan Lee, 1991 Aging is stressful for anyone in youth oriented Western societies Elderly people encounter difficulties and discrimination sometimes because of reduced income transportation and housing problems and failing health but often due to the persistent negative stereotypes that color others' attitudes and behavior toward old people Gay men and lesbians experience these stresses as well as the numerous additional problems associated with their sexual orientation *Gay Midlife and Maturity* is a dynamic and positive volume that challenges the long held stereotype of the sad and lonely old homosexual A growing body of international literature much of which is featured in this book rejects this myth and illustrates that older gay men and lesbians cope well with the aging process and are comparable to younger homosexuals in social and psychological adjustment A much needed and major contribution *Gay Midlife and Maturity* contains an enormous amount of information for readers interested in gerontology and homosexuality Experts for the first time examine the relationship between the adjustment of gay people to later life and the age and

sequence of the resolution of these typically early developmental processes raising many questions about traditional theories of gay development The existing contradictions and debates about gay men and accelerated aging are addressed Other valuable chapters focus on a theory of successful aging a comparison of the traditional gay community pre Stonewall versus the organized gay community the vital role of communication in gay relationships the sexual attitudes and behaviors of older gay men and much more Additional interesting and worthwhile chapters of this thought provoking new book include an in depth interview with Don Bachardy about his 33 year relationship Christopher Isherwood a renowned English writer who was 30 years his senior and a review of the growing literature on gay aging
