

LOOKING AFTER NIETZSCHE

Edited by
LAURENCE A. RICKELS

Looking After Nietzsche

Peter J. Burgard

Looking After Nietzsche:

Looking After Nietzsche Laurence A. Rickels, 1990-01-01 This book like the post Heideggerian reception of Nietzsche rides out the splits and frays of the text offering an up to date look at international Nietzsche scholarship Included are topics such as the collaboration of German thought with the rise of National Socialism and the alliance between Nietzschean genealogy and Freudian culture criticism in regard to technology and the unconscious the status of moral imperatives from Kant to Heidegger and Heidegger's alleged rediscovery of Nietzsche as the last metaphysician Looking After Nietzsche is nonexclusionary in the risks it takes every thread of Nietzsche is pursued throughout its labyrinthine entanglements

Nietzsche's Animal Philosophy Vanessa Lemm, 2009-08-25 Lemm consolidates her reputation as one of Nietzsche's most original attentive and lively readers The Journal of Nietzsche Studies This book explores the significance of human animality in the philosophy of Friedrich Nietzsche and provides the first systematic treatment of the animal theme in Nietzsche's body of work Vanessa Lemm argues that the animal is neither a random theme nor a metaphorical device in Nietzsche's thought Instead it stands at the center of his renewal of the practice and meaning of philosophy itself Lemm provides an original contribution to ongoing debates on the essence of humanism and its future At the center of this new interpretation stands Nietzsche's thesis that animal life and its potential for truth history and morality depends on a continuous antagonism between forgetfulness animality and memory humanity This relationship accounts for the emergence of humanity out of animality as a function of the antagonism between civilization and culture By taking the antagonism of culture and civilization to be fundamental for Nietzsche's conception of humanity and its becoming Lemm gives a new entry point into the political significance of Nietzsche's thought The opposition between civilization and culture allows for the possibility that politics is more than a set of civilizational techniques that seek to manipulate dominate and exclude the animality of the human animal By seeing the deep seated connections of politics with culture Nietzsche orients politics beyond the domination over life and instead offers the animality of the human being a positive creative role in the organization of life This book will appeal not only to those interested in Nietzsche but to anyone interested in the theme of the animal in philosophy literature cultural studies and the arts as well as those interested in the relation between biological life and politics

Nietzsche and the Feminine Peter J. Burgard, 1994 In this innovative and wide ranging volume Peter Burgard has brought together new studies by outstanding scholars in philosophy feminism comparative literature and German studies

Nietzsche's Corps/e Geoff Waite, 1996 Appearing between two historical touchstones the alleged end of communism and the 100th anniversary of Nietzsche's death this book offers a provocative hypothesis about the philosopher's afterlife and the fate of leftist thought and culture At issue is the relation of the dead Nietzsche corpse and his written work corpus to subsequent living Nietzscheanism across the political spectrum but primarily among a leftist corps that has been programmed and manipulated by concealed dimensions of the philosopher's thought If anyone is responsible for what Geoff

Waite maintains is the illusory death of communism it is Nietzsche the man and concept Waite advances his argument by bringing Marxist especially Gramscian and Althusserian theories to bear on the concept of Nietzscheanism But he also goes beyond ideological convictions to explore the vast Nietzschean influence that proliferates throughout the marketplace of contemporary philosophy political and literary theory and cultural and technocultural criticism In light of a philological reconstruction of Nietzsche's published and unpublished texts Nietzsche's *Corpus* e shuttles between philosophy and everyday popular culture and shows them to be equally significant in their having been influenced by Nietzsche in however distorted a form and in a way that compromises all of our best interests Controversial in its decelebration of Nietzsche this remarkable study asks whether the postcontemporary age already upon us will continue to be dominated and oriented by the haunting spectre of Nietzsche's *corpus* e Philosophers intellectual historians literary theorists and those interested in western Marxism popular culture Friedrich Nietzsche and the intersection of French and German thought will find this book both appealing and challenging

Historical Dictionary of Nietzscheanism Carol Diethe, 2013-12-19 Few philosophers have been as popular prolific and controversial as Friedrich Nietzsche who has left his imprint not only on philosophy but on all the arts Whether it is his concept of the *Übermensch* or his nihilistic view of the world Nietzsche's writings have aroused enormous interest as well as anathema in scholars for centuries This third edition of *Historical Dictionary of Nietzscheanism* covers the history of this philosophy through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on his major writings his contemporaries and his successors This book is an excellent access point for students researchers and anyone wanting to know more about Friedrich Nietzsche

Nietzsche's Noontide Friend Sheridan Hough, 2010-11-01

Nietzsche, Epistemology, and Philosophy of Science B.E. Babich, 2013-03-09 Nietzsche *Epistemology and Philosophy of Science* is the second volume of a collection on Nietzsche and the Sciences featuring essays addressing truth epistemology and the philosophy of science with a substantial representation of analytically schooled Nietzsche scholars This collection offers a dynamic articulation of the differing strengths of Anglo American analytic and contemporary European approaches to philosophy with translations from European specialists notably Carl Friedrich von Weizsäcker Paul Valadier and Walther Ch Zimmerli This broad collection also features a preface by Alasdair MacIntyre Contributions explore Nietzsche's contributions to the philosophy of language and epistemology and include essays on the social history of truth and the historical and cultural analyses of Serres and Baudrillard as well as new contributions to the philosophy of science including theological and hermeneutical approaches history of science the philosophy of medicine cognitive science and technology

Making Sense of Nietzsche Richard Schacht, 1995 In these essays by an acclaimed Nietzsche scholar Nietzsche emerges as no mere polemicist and iconoclast but rather as a genuine philosopher one of those rare thinkers whose thought opens the way to new understanding of things of great importance particularly with respect to human life and its enhancement Clearly explains some of the debates in Nietzsche scholarship

Schacht does much to avoid professional tunnel vision and invite nonprofessionals to think about Nietzsche Kathleen Higgins author of *Nietzsche's Zarathustra* An excellent summary and response to the current Nietzsche wars I like the way that Schacht personally attempts to expound and explain Nietzsche and take on various would be experts and mistaken commentators Robert C Solomon Quincy Lee Centennial Professor University of Texas

The Routledge Companion to Hermeneutics Jeff Malpas, Hans-Helmuth Gander, 2014-11-20 Hermeneutics is a major theoretical and practical form of intellectual enquiry central not only to philosophy but many other disciplines in the humanities and social sciences With phenomenology and existentialism it is also one of the twentieth century's most important philosophical movements and includes major thinkers such as Heidegger Gadamer and Ricoeur The Routledge Companion to Hermeneutics is an outstanding guide and reference source to the key philosophers topics and themes in this exciting subject and is the first volume of its kind Comprising over fifty chapters by a team of international contributors the Companion is divided into five parts main figures in the hermeneutical tradition movement including Heidegger Gadamer and Ricoeur main topics in hermeneutics such as language truth relativism and history the engagement of hermeneutics with central disciplines such as literature religion race and gender and art hermeneutics and world philosophies including Asian Islamic and Judaic thought hermeneutic challenges and debates such as critical theory structuralism and phenomenology

Nietzsche's Engagements with Kant and the Kantian Legacy Marco Brusotti, Herman Siemens, João Constâncio, Tom Bailey, 2017-02-23 Nietzsche has often been considered a thinker independent of the philosophy of his time and radically opposed to the concerns and concepts of modern and contemporary philosophy But there is an increasing awareness of his sophisticated engagements with his contemporaries and of his philosophy's rich potential for debates with modern and contemporary thinkers Nietzsche's Engagements with Kant and the Kantian Legacy explores a significant field for such engagements Kant and Kantianism Bringing together an international team of established Nietzsche scholars who have done extensive work in Kant contributors include both senior scholars and young upcoming researchers from a broad range of countries and traditions Working from the basis that Nietzsche is better understood as thinking with and against Kant and the Kantian legacy they examine Nietzsche's explicit and implicit treatments of Kant Kantians and Kantian concepts as well as the philosophical issues that they raise for both Nietzschean and Kantian philosophy Divided into three volumes the focus is on specific areas and texts of Kant's philosophy Nietzsche Kant and the Problem of Metaphysics Nietzsche and Kantian Ethics Nietzsche and Kant on Aesthetics and Anthropology Each volume draws extensively on the flourishing recent literature from both analytic and continental traditions in English German and other languages By responding to scholarly interest in the critical relations between Nietzsche and Kant this series of volumes presents the first systematic study of the pairing of two major European thinkers from the modern period

Discover tales of courage and bravery in Crafted by is empowering ebook, Stories of Fearlessness: **Looking After Nietzsche** . In a downloadable PDF format (PDF Size: *), this collection inspires and motivates. Download now to witness the indomitable spirit of those who dared to be brave.
