**The Accidental Alien Hunter** Aurelia Thornefield, Ethan never planned to save the galaxy he can barely keep his own apartment clean. But when a late night snack run goes horribly wrong he finds himself mistaken for an elite intergalactic bounty hunter. Suddenly armed with questionable gadgets and even more questionable allies Ethan is thrust into a chaotic mission to hunt aliens who may or may not actually need hunting. Between malfunctioning spaceships bureaucratic alien overlords and a coffee shortage that could spark universal war survival depends on one thing Ethan's ability to stumble forward without completely ruining everything. Packed with absurd adventures satirical twists and laugh out loud blunders this tale proves that sometimes the least qualified hero is exactly the one the universe didn't ask for.

*Alien Universe* Don Lincoln, 2013-10-15 Are alien civilizations really possible? If extraterrestrials exist where are they? How likely is it that somewhere in the universe an Earth like planet supports an advanced culture? Why do so many people claim to have encountered Aliens? In this gripping exploration scientist Don Lincoln exposes and explains the truths about the belief in and the search for life on other planets. In the first half of *Alien Universe* Lincoln looks to Western civilization's collective image of Aliens showing how our perceptions of extraterrestrials have evolved over time. The roots of this belief can be traced as far back as our earliest recognition of other planets in the universe the idea of them supporting life was a natural progression of thinking that has fascinated us ever since. Our captivation with Aliens has however led to mixed results. The world was fooled in the nineteenth century during the Great Moon Hoax of 1835 and many people misunderstood Orson Welles's 1938 radio broadcast *The War of the Worlds* leading to significant anxiety among some listeners. Our continuing interest in Aliens is reflected in entertainment successes such as *E T*, *The X Files* and *Star Trek*. The second half of the book explores the scientific possibility of whether advanced Alien civilizations do exist. For many years researchers have sought to answer Enrico Fermi's great paradox if there are so many planets in the universe and

there is a high probability that many of those can support life then why have we not actually encountered any Aliens Lincoln describes how modern science teaches us what is possible and what is not in our search for extraterrestrial civilizations Whether you are drawn to the psychological belief in Aliens the history of our interest in life on other planets or the scientific possibility of Alien existence Alien Universe is sure to hold you spellbound      **Oblivion II** Jeff Schmoke, 2009-08 Taking place in present day Jessica and Stake soon confronted with death one early morning realize their planet in space must be extremely vulnerable Aliens having known about the planet before even the appearance of the dinosaurs are out for blood Unknowing what was happening Stake and Jessica are abducted after a massive alien ship embeds itself into the planet for unknown reasons After being returned the planet had been decimated from orbit the human race left to a transforming disease called Tycostiforous mutations roamed Again they re picked up for placement forever somewhere else they believe It was the knowledge of their sun s nova soon immanent foretold they awaited a natural genocide Believing they would never feel the warmth of their birth sun their forced to accept it the Kriec Tik like a disease rule the entire universe and their only offspring Alyson had taken to outlandish deeds with her alien friends and being a natural linguist she quickly favored well and she left them Years pass as Jessica and Stake live lives amongst alien environments and having luckily fled one of the oldest worlds searching for Alyson they began to give up on until it was the Kriec Tik themselves that brought the three back together amongst the process of a massive planetary acquisition they all nearly die in but after the nova the chance to take in the warmth of a new sun sets their sights to new hopes      ALIEN JD Lovil, 2019-02-03 Ever want to just dig out the truth amidst all the confusion Occam s Razor is the tool you need The Occam s Razor Series is the series of books you want to read Occam s Razor is a filter for logical arguments It states that the simplest solution that fits all the facts is usually the correct one The Occam s Razor Series will attempt to apply the Razor to some of the arguments that plague our modern world In this book we will be taking a look at the most probable reality behind the whole alien visitation question For thousands of years people have reported being visited by alien creatures from the stars Our modern society loves to laugh at anyone who claims that they saw an alien but with all this smoke surely there is a fire somewhere right Read this and every book in this new series
