Managing for Results United States. General Accounting Office,1997 **Managing for results critical issues for improving federal agencies' strategic plans : report to congressional requesters ,** **Federal Management Reform in a World of Contradictions** Beryl A. Radin,2012-03-02 Proposals for reform have dotted the federal management landscape in the United States for more than 50 years Yet these efforts by public management professionals have frequently failed to produce lasting results In her new book *Federal Management Reform in a World of Contradictions* renowned public administration scholar Beryl A Radin reveals what may lie behind the failure of so many efforts at government management reform To spur new thinking about this problem Radin examines three basic sets of contradictions between the strategies of the reformers and the reality of the US federal system contradictions in the shared powers structure contradictions in values and contradictions between politics and administration She then explores six types of reform efforts and the core beliefs that guided them The six reform areas are contracting out personnel policy agency reorganization budgeting federalism policies and procedures and performance management The book shows how too often these prescriptions for reform have tried to apply techniques from the private sector or a parliamentary system that do not transfer well to the structure of the US federal system and its democratic and political traditions Mindful of the ineffectiveness of a one size fits all approach Radin does not propose a single path for reform but calls instead for a truly honest assessment of past efforts as today s reformers design a new conceptual and strategic roadmap for the future *Implementation of the Government Performance and Results Act of 1993* United States. Congress. Senate. Committee on Governmental Affairs,1997 *Measuring Performance and Demong Results of Information Technology Investments* Christopher W. Hoenig,2000 To assist agencies in understanding and devising effective IT measurement implementation approaches public and private org well known for their IT performance leadership and mgmt expertise were examined Chapters the demand for performance mgmt fundamental practices the foundation of IT performance mgmt follow an IT results chain follow a balanced scorecard approach target measures results and accountability at decision making tiers build a comprehensive measurement data collection and analysis capability strengthen IT processes to improve mission performance key lessons learned for effective implementation *Evaluation Forum* ,1993 *Youth and the Postindustrial Future* ,1997 Reports and Testimony ,1995 **Month in Review ...** ,1995-05 Executive Guide United States. General Accounting Office,1996 **Executive Guide** Michael Brostek,1997-02 In recent years an understanding has emerged that the Federal government needs to be run in a more businesslike manner that in the past The Federal government is accountable to the taxpayer and taxpayers are demanding as

never before that the dollars they invest in their government be managed and spent responsibly Federal agencies often fail to appropriately manage their finances identify clearly what they intend to accomplish or get the job done effectively and with minimum of waste Major statutes hold promise for creating a more accountable and effective Federal government

Performance Management, Benchmarking and Reengineering Within Government United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on Government Management, Information, and Technology, 1996 *Indexes for Abstracts of Reports and Testimony*, 1995 **Managing for results : emerging benefits from selected agencies' use of performance agreements : report to the Honorable Dan Burton, Chairman, Committee on Government Reform, House of Representatives , Executive Guide** United States. General Accounting Office. Accounting and Information Management Division, 1998 **Public Budgeting Systems** Robert D. Lee, Ronald Wayne Johnson, Philip G. Joyce, 2004 A complete and balanced reference this timely resource surveys the current state of budgeting throughout all levels of the United States government The text emphasizes methods by which financial decisions are reached within a system as well as ways in which different types of information are used in budgetary decision making It also stresses the use of program information since for decades budget reforms have sought to introduce greater program considerations into financial decisions Public Budgeting Systems Seventh Edition retains the structure of the sixth edition yet gives increased attention to topics such as program information and government s role in the economy and has been updated with all new tables and exhibits Using this text students will gain a first rate understanding of methods by which financial decisions are reached within a system and how different types of information are used in budgetary decision making Civil Service Reform Donald F. Kettl, Patricia W. Ingraham, Ronald P. Sanders, 2010-12-01 The authors of this book contend that the civil service system which was devised to create a uniform process for recruiting high quality workers to government is no longer uniform or a system Nor does it help government find and retain the workers it needs to build a government that works The current civil service system was designed for a government in which federal agencies directly delivered most public services But over the last generation privatization and devolution have increased the number and importance of government s partnerships with private companies nonprofit organizations and state and local governments Government workers today spend much of their time managing these partnerships not delivering services and this trend will only accelerate in the future The authors contend that the current system poorly develops government workers who can effectively manage these partnerships resulting too often in a gap between promise and performance This short lively and bipartisan volume authored by the nation s leading experts on government management describes what the government of the future will look like what it will need to work well and how in particular the nation can build the next generation of workers required to lead it *Assessing the Progress of Performance Management in the District of Columbia* United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Oversight of Government Management,

Restructuring, and the District of Columbia, 2000
