Maurice Nicoll A Portrait:

Maurice Nicoll Beryl Pogson,1961 **Maurice Nicoll, a portrait** Beryl Pogson,2000 *Maurice Nicoll* Gary Lachman,2024-06-18 Traces the life of Maurice Nicoll who left a successful career as a psychiatrist in 1922 to study with G I Gurdjieff and P D Ouspensky Explores newly uncovered diaries from Nicoll revealing his mystical sex practices his shadow self and new understandings of his unorthodox teachings Examines the influence of psychiatrist Carl Jung and Swedish scientist and philosopher Emanuel Swedenborg on Nicoll s work In 1922 Maurice Nicoll 1884 1953 abandoned his successful London psychiatry practice and his direct studies with Carl Jung to move his family just outside of Paris to the Institute for the Harmonious Development of Man a center recently opened by philosopher mystic and spiritual guru G I Gurdjieff the founder of the esoteric system that became known as the Fourth Way Nicoll went on to become one of the most passionate teachers of the Fourth Way committing the final three decades of his life to teaching The Work in his own unorthodox style In this revealing biography Gary Lachman draws on recently uncovered diaries to explore the unusual syncretic approach Nicoll brought to his teaching of the Fourth Way He shows how Nicoll is unique in having Jung Gurdjieff and Ouspensky as teachers and to have known each of these important figures in esoteric history personally yet as Lachman reveals Nicoll was not a blind devotee by any stretch Lachman shows how Nicoll incorporated elements of Jungian psychology and Emanuel Swedenborg inspired mysticism into his exploration and teaching of both Gurdjieff s and Ouspensky s ideas as well as into his own best known work Psychological Commentaries on the Teaching of Gurdjieff and Ouspensky Lachman reveals the unorthodox side of Nicoll in fuller detail than ever before through excerpts from recently shared diaries in which Nicoll included detailed accounts of his own solitary self sex erotic experimentations to reach visionary states along with recordings of his dreams and other personal and mystical reflections The social details of Nicoll s life are also examined including vivid portraits of the occult scene in the early to mid twentieth century and the communal living situations in which Nicoll sometimes resided Drawing on his familiarity with hermetic practices and his own experiences with The Work Lachman comprehensively explores the significance of Nicoll and the novelty of his thought offering a profound needed and sympathetic but critical study of this man so instrumental to the development and legacy of the Fourth Way

and spiritual communities in the U S Europe and beyond *The Bollingen Tower: Constructing a Jungian Sense of Place* Martin Gledhill, 2025-10-14 Offering a novel conceptual methodology where Jungian psychology is used to analyse Jung's own architecture this book offers an innovative reading of Jung's Bollingen Tower in order to explore a Jungian sense of place situating it within a wider examination of the psychic places that influenced his work Representing the first comprehensive study of Jung's building activities the chapters illuminate the wider purpose of architecture as a reflection of self and a means to belong in the world Using the author's own fieldwork interviews with descendants and detailed analysis of Jung's autobiography and copious writings drawn from his own imagination and psyche chapters explore themes such as the relationship between psyche and geometry the idea of psychic place and inner and outer in analytical psychology In discussing the legacy and the predominance of Bollingen Tower as the defining spatial motif of Jung's psychological system the chapters also cover comparisons with Marie Louise von Franz's Tower and Christiana Morgan's Tower The author's own background as an award winning architect alongside a lifelong study of analytical psychology makes him uniquely placed to shed light on this as yet underexplored area of study The book opens up interdisciplinary dialogues and provides a broader context for understanding the relationship between the environment and the psyche It will therefore be of interest to scholars and postgraduate students in the fields of Jungian and analytical psychology and architecture **The Jungian Strand in Transatlantic Modernism** Jay Sherry, 2018-06-27 In studies of psychology's role in modernism Carl Jung is usually relegated to a cameo appearance if he appears at all This book rethinks his place in modernist culture during its formative years mapping Jung's influence on a surprisingly vast transatlantic network of artists writers and thinkers Jay Sherry sheds light on how this network grew and how Jung applied his unique view of the image making capacity of the psyche to interpret such modernist icons as James Joyce and Pablo Picasso His ambition to bridge the divide between the natural and human sciences resulted in a body of work that attracted a cohort of feminists and progressives involved in modern art early childhood education dance and theater *The Utopians* Anna Neima, 2021-06-10 Fascinating and richly documented Few books manage to be so informative and so entertaining Sunday Times Santiniketan Sriniketan in India Dartington Hall in England Atarashiki Mura in Japan the Institute for the Harmonious Development of Man in France the Bruderhof in Germany and Trabuco College in America six experimental communities established in the aftermath of the First World War each aiming to change the world Anna Neima's *The Utopians* is an absorbing and vivid account of these collectives and their charismatic leaders and reveals them to be full of eccentric characters outlandish lifestyles and unchecked idealism Dismissed and even mocked in their time yet a century later their influence still resonates in progressive education environmentalism medical research and mindfulness training Without such inspirational experiments in how to live post war society would have been a poorer place Thanks to Neima's rigorous research each chapter offers something new Spectator Neima ranges with impressive confidence across the world Literary Review *Spiritual and Visionary*

The Western Esoteric Traditions Nicholas Goodrick-Clarke, 2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick-Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today's scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick-Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the

modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism **National Union Catalog** ,1956 Includes entries for maps and atlases *The Black Books* C. G. Jung,2020-10-13 Until now the single most important unpublished work by C G Jung The Black Books In 1913 C G Jung started a unique self experiment that he called his confrontation with the unconscious an engagement with his fantasies in a waking state which he charted in a series of notebooks referred to as The Black Books These intimate writings shed light on the further elaboration of Jung s personal cosmology and his attempts to embody insights from his self investigation into his life and personal relationships The Red Book drew on material recorded from 1913 to 1916 but Jung actively kept the notebooks for many more decades Presented in a magnificent seven volume boxed collection featuring a revelatory essay by noted Jung scholar Sonu Shamdasani illuminated by a selection of Jung s vibrant visual works and both translated and facsimile versions of each notebook The Black Books offer a unique portal into Jung s mind and the origins of analytical psychology Psychological Subjects Mathew Thomson,2006-05-25 This is a history of how twentieth century Britons came to view themselves and their world in psychological terms and how this changed over time It examines the extent to which psychological thought and practice could mediate not just understanding of the self but also a wide range of social and economic political and ethical issues that rested on assumptions about human nature In doing so it brings together high and low psychological cultures it focuses not just on health but also on education economic life and politics and it reaches from the start of the century right up to the 1970s Mathew Thomson highlights the intense excitement surrounding psychology at the start of the century and its often highly unorthodox expression in thought and practice He argues that the appeal of psychological thinking has been underestimated in the British context partly because its character has been misconstrued Psychology found a role because rather than shattering values it offered them new life The book considers the extent to which such an ethical and social psychologicalsubjectivity survived the challenges of an industrial civilization a crisis in confidence regarding human nature wrought by war and political extremism and finally the emergence of a permissive society It concludes that many of our own assumptions about the route to psychological modernity centred onthe rise of individualism and interiority and focusing on the liberation of emotion and on talk relationships and sex need substantial revision or at least setting alongside a rather different path when it comes to the Britain of 1900 70 *Freud in Cambridge* John Forrester,Laura Cameron,2017-03-09 The authors explore the influence of Freud s thinking on twentieth century intellectual and scientific life within Cambridge and beyond *Eranos* Hans Thomas Hakl,2014-09-11 Every year since 1933 many of the world s leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy history art and science and in particular to explore

the mystical and symbolic in religion The Eranos Meetings named after the Greek word for a banquet where the guests bring the food constitute one of the most important gatherings of scholars in the twentieth century The book presents a set of portraits of some of the century s most influential thinkers all participants at Eranos Carl Jung Erich Neumann Mircea Eliade Martin Buber Walter Otto Paul Tillich Gershom Scholem Herbert Read Joseph Campbell Erwin Schrodinger Karl Kereyni D T Suzuki and Adolph Portmann The volume presents a critical appraisal of the views of these men how the exchange of ideas encouraged by Eranos influenced each and examines the attraction of these esotericists towards authoritarian politics

Gurdjieff: The Key Concepts Sophia Wellbeloved, 2013-04-15 This unique book offers clear definitions of Gurdjieff s teaching terms placing him within the political geographic and cultural context of his time Entries look at diverse aspects of his Work including possible sources in religious Theosophical occult esoteric and literary traditions the integral relationships between different aspects of the teaching its internal contradictions and subversive aspects the derivation of Gurdjieff s cosmological laws and Enneagram the passive form of New Work teaching introduced by Jeanne de Salzmann *Biographical Books, 1950-1980* R.R. Bowker Company. Department of Bibliography, 1980 **Parabola**, 1976 *Gurdjieff* Joseph Azize, 2020 This is the first analysis of all of Gurdjieff s published internal exercises together with those taught by his students George and Helen Adie It includes a fresh biographical study of Gurdjieff with ground breaking observations on his relationships with P D Ouspensky and A R Orage especially why he wanted to collaborate with them and why that broke down It shows that Gurdjieff was fundamentally a mystic and that his contemplation like methods were probably drawn from Mt Athos and its hesychast tradition It shows the continuity in Gurdjieff s teaching but also development and change His original contribution to Western Esotericism lay in his use of tasks disciplines and contemplation like exercises to bring his pupils to a sense of their own presence which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation It contends that he had initially intended not to use contemplation like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post religious culture he found it necessary to introduce contemplation His development of the methods is demonstrated and the importance of the three exercises in the Third Series Life Is Real only then when I Am is shown together with their almost certain borrowing from the exercises of the Philokalia G I Gurdjieff P D Ouspensky A R Orage George Adie Mysticism Meditation Contemplation Fourth Way Hesychasm Western Esotericism
