Maurice Sceve Poet Of Love:

Maurice Scève Poet of Love Dorothy Gabe Coleman, 2010-06-24 A study of Maurice Scève's sequence of love poems the *Dieu* is the first French canzoniere There are two main themes Scève's rendering of the intensity and complexity of the human experience of love and secondly his exploitation of the European tradition of love poetry Dr Coleman tackles broad issues concerning appreciation of poetry and more particularly difficult poetry Comparing individual poems by Horace Scève and Mallarmé she pinpoints the task of a serious reader to experience sensitively and intellectually human emotions couched in artistic form The book does not offer doctrines about Scève's love instead it looks at the contextual linguistic formulae which create love within the poems themselves the allusiveness the intellectual rigour the tautness the juxtaposition of words combine with the voluptuousness and simplicity of the images rhythm and sound to make out of the poems a timeless and intensely personal experience

The Shadow of Dante in French Renaissance Lyric Alison Baird Lovell, 2020-11-09 This book presents an interpretation of Maurice Scève's lyric sequence *Dieu* object de plus haute vertu Lyon 1544 in literary relation to the *Vita nuova* *Commedia* and other works of Dante Alighieri Dante's subtle influence on Scève is elucidated in depth for the first time augmenting the allusions in *Dieu* to the *Canzoniere* of Petrarch Francesco Petrarca Scève's sequence of dense epigrammatic dizains is considered to be an early example prior to the Pléiade poets of French Renaissance imitation of Petrarch's vernacular poetry in a time when imitatio was an established literary practice signifying the poet's participation in a tradition While the *Canzoniere* is an important source for Scève's *Dieu* both works are part of a poetic lineage that includes Occitan troubadours Guinizzelli Cavalcanti and Dante The book situates Dante as a relevant predecessor and source for Scève and examines anew the Petrarchan label for *Dieu* Compelling poetic affinities emerge between Dante and Scève that do not correlate with Petrarch

The Rhetoric of Sexuality and the Literature of the French Renaissance Lawrence D. Kritzman, 1993 Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940 President Franklin Roosevelt ominously warned that we know of other methods new methods of attack The Trojan horse The fifth column that betrays a nation unprepared for treachery Spies saboteurs and traitors are the actors in this new strategy Having identified a new type of war a shadow war being perpetrated by Hitler's Germany FDR decided to fight fire with fire authorizing the formation of the Office of Strategic Services OSS to organize and oversee covert operations Based on an extensive analysis of OSS records including the vast trove of records released by the CIA in the 1980s and 90s as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997 *The Shadow War Against Hitler* is the full story of America's far flung secret intelligence apparatus during World War II In addition to its responsibilities generating processing and interpreting intelligence information the OSS orchestrated all manner of dark operations including extending feelers to anti Hitler elements infiltrating spies and sabotage agents behind enemy lines and implementing propaganda programs Planned and directed from Washington the anti Hitler campaign was largely conducted

in Europe especially through the OSS's foreign outposts in Bern and London. A fascinating cast of characters made the OSS run. William J. Donovan, one of the most decorated individuals in the American military, who became the driving force behind the OSS's genesis. Allen Dulles, the future CIA chief, who ran the Bern office, which he called the big window onto the fascist world, a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services, and not least Roosevelt himself. A major contribution of the book is the story of how FDR employed Hitler's former propaganda chief Ernst Putzi Hanfstaengl as a private spy. More than a record of dramatic incidents and daring personalities, this book adds significantly to our understanding of how the United States fought World War II. It demonstrates that the extent and limitations of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows.

Nash, 1991-01-25 This book reassesses the love poetry of Maurice Scève from a phenomenological viewpoint It calls into question the traditional critical view of Scève as a poet consumed by the anguish and darkness of unrequited love and frustrated by poetic and erotic quests that lead him nowhere Professor Nash argues instead that the conflicting forces in Scève s poetic expression of love light and dark night and day heaven and hell lead ultimately to a sense of equilibrium and a transcendent paradisaic state and that the poet s struggle is actually directed toward this coming to terms with the meaning of ineffable love Contemplation and portrayal of the ineffable are shown to constitute the central and unifying concern of this compelling body of Renaissance love poetry

Women Writers of the Renaissance and Reformation Katharina M. Wilson,1987 The dawn of humanism in the Renaissance presented privileged women with great opportunities for personal and intellectual growth Sexual and social roles still determined the extent to which a woman could pursue education and intellectual accomplishment but it was possible through the composition of poetry or prose to temporarily offset hierarchies of gender to become equal to men in the act of creation Edited by Katharina M Wilson this anthology introduces the works of twenty five women writers of the Renaissance and Reformation among them Marie Denti re a Swiss evangelical reformer whose writings were so successful they were banned during her lifetime Gaspara Stampa a cultivated courtesan of Venetian aristocratic circles who wrote lyric poetry that has earned her comparisons to Michelangelo and Tasso H lisenne de Crenne a French aristocrat who embodied the true spirit of the Renaissance feminist writing both as novelist and as champion of her sex Helene Kottanner Austrian chambermaid to Queen Elizabeth of Hungary whose memoirs recall her daring theft of the Holy Crown of Saint Stephen for her esteemed mistress

and Lady Mary Sidney Wroth the first Englishwoman known to write a full length work of fiction and compose a significant body of secular poetry Offering a seldom seen counterpoint to literature written by men Women Writers of the Renaissance and Reformation presents prose and poetry that have never before appeared in English as well as writings that have rarely been available to the nonspecialist The women whose writings are included here are united by a keen awareness of the social limitations placed upon their creative potential of the strained relationship between their gender and their work This concern invests their writings with a distinctive voice one that carries the echoes of a male aesthetic while boldly declaring battle against it

Memory and Community in Sixteenth-Century France David P. LaGuardia, Cathy Yandell, 2016-03-03
Memory and Community in Sixteenth Century France engages the question of remembering from a number of different perspectives It examines the formation of communities within diverse cultural religious and geographical contexts especially in relation to the material conditions for producing texts and discourses that were the foundations for collective practices of memory The Wars of Religion in France gave rise to numerous narrative and graphic representations of bodies remembered as icons and signifiers of the religious troubles The multiple sites of these clashes were filled with sound language and diverse kinds of signs mediated by print writing and discourses that recalled past battles and opposed different factions The volume demonstrates that memory and community interacted constantly in sixteenth century France producing conceptual frames that defined the conflicting groups to which individuals belonged and from which they derived their identities The ongoing conflicts of the Wars hence made it necessary for people both to remember certain events and to forget others As such memory was one of the key ideas in a period defined by its continuous reformulations of the present as a forum in which contradictory accounts of the recent past competed with one another for hegemony One of the aims of Memory and Community in Sixteenth Century France is to remedy the lack of scholarship on this important memorial function which was one of the intellectual foundations of the late French Renaissance and its fractured communities

The Ten Commandments in Medieval and Early Modern Culture Walter Melion, Jürgen Pieters, Youri Desplenter, 2017-09-04 Over the course of the fourteenth and fifteenth centuries as more and more vernacular commentaries on the Decalogue were produced throughout Europe the moral system of the Ten Commandments gradually became more prominent The Ten Commandments proved to be a topic from which numerous proponents of pastoral and lay catechesis drew inspiration God's commands were discussed and illustrated in sermons and confessor's manuals and they spawned new theological and pastoral treatises both Catholic and Reformed But the Decalogue also served several authors including Dante Petrarch and Christine de Pizan Unlike the Seven Deadly Sins the Ten Commandments supported a more positive image of mankind one that embraced the human potential for introspection and the conscious choice to follow God's Law

Guide to French Poetry Explication Kathleen Coleman, 1993 [Sixteenth-Century French Poetry](#) Victor E Graham, 1964-12-15 In this anthology an effort has been made to include representative selections from the most significant sixteenth century French
