Nine Pillars of Success George Mfula, 2022-03-14. Nine Pillars of Success is a worthy read. I believe everyone has a destiny but not every destiny will be successful. Even at the coming of our Lord Jesus Christ, there will be people who will have unfulfilled destinies. Hence, this book is written to hand over to you the keys you need to fulfill your destiny in a grand style with unparalleled results. What is destiny? Destiny is your fate, fortune, or future as designed by God in His wisdom before you were even born. You are a destiny carrier by virtue of your existence in God. You existed in the mind of God even before you were born physically. I believe that God has deposited in you an incomparable future which is locked up within you. What you have to understand is that destiny does not start here on earth. It started before you were even born into this world. You are not an accident by birth. Your destiny and life are a well pre-arranged agenda of God. That is why you don't have to create your own destiny but all you have to do is to discover or locate the details of your destiny in Christ Jesus. Thus, this book is written to rewrite, re-define, and unlock your destiny. Hence, you can't afford but to fulfill your God-ordained assignment on earth in Christ Jesus.

Psychomanagement Robert

Spillane,2017-04-28 The ultimate test of management is performance the achievement of actual results Why then do

Australian managers concern themselves with their colleagues personalities and motives Why have they become infatuated with emotional intelligence and in bizarre cases with spiritual intelligence Traditionally managers who performed earned the right to argue with their colleagues Nowadays individuals who argue are said to lack soft skills while a sad few are thought to be suffering from a personality disorder The popularity of soft skill management has created psychomanagers managers who have entered into a Faustian bargain with psychologists Some managers work with psychologists to master themselves others work with psychologists to master other people As psychomanagement requires specialised knowledge many Australian managers have yielded their authority to counsellors coaches and consultants many of whom believe that human behaviour is determined by internal and external forces over which individuals have little or no control Accordingly psychologists have laboured to absorb the idea of the free and responsible individual into a pseudo scientific framework that denies moral agency The result is that ideas of right and wrong have been replaced with healthy and sick In their pursuit of a therapeutic state psychologists have medicalised morality and managers have embraced powerful myths about minds motive forces personality traits social conditioning leadership occupational stress and mental illness Consequently the twin ideas of personal freedom and responsibility have been sabotaged Freud Maslow Eysenck Skinner and other influential psychologists have denied or minimised the importance of personal responsibility And insofar as managers have entered into an unholy alliance with them they too have minimised personal responsibility at the workplace This book is about Australian managers and their long standing love affair with psychologists For fifty years the author has studied taught and consulted with managers and waltzed with several famous psychologists and an infamous psychiatrist Fortunately they represented both sides of the debate about personal responsibility and human freedom This book is therefore a personal and selective account of a professional life spent studying the problematic relationship between managers and psychologists
