**Principles of Perinatal and Pediatric HIV/AIDS** Lala Mamatha M, 2011-10 Principles of Perinatal Pediatric HIV AIDS is a comprehensive guide to the treatment of children with HIV AIDS Beginning with an introduction to HIV infected children the book following sections consider clinical manifestations of the disease perinatal and newborn HIV HIV in adolescence and management of the disease Authored by international specialists from Europe Asia South Africa and the USA this text includes numerous images and illustrations to enhance learning Transnational Financial Regulation after the Crisis Tony Porter, 2014-02-05 The global financial crisis that began in 2007 was the most destructive since the 1930s The rapid spread of the crisis across borders and the complexity of these cross border linkages highlighted the importance for authorities of working together in responding to the crisis This book examines the transnational response that relied heavily on a set of relatively informal transnational regulatory groupings that had been constructed over previous decades During the crisis these arrangements were made stronger and more inclusive but they remain very complex Thousands of pages of new rules have been created by various transnational bodies and the implementation of these rules relies heavily on domestic law and regulation and private rules and practices This book analyses this complex response showing that its overly technical and incremental character the persistence of tensions between transnational processes and state centred politics and the ongoing power of private actors have made the regulatory response fall short of what is needed Transnational Financial Regulation
