**Contraduction** Dan Barker, 2024-09-03

In a quiet and unassuming way Contraduction is utterly brilliant Every page has a thought so deep and unexpected that it stops you in your tracks as you not only realize That's a different really interesting way to think about the world exactly the opposite of how I normally view things but also And it is absolutely equally valid and enriching to adopt this opposite way of thinking I loved this book Robert Sapolsky author of Behave and Determined An ingenious word for an invaluable concept Sharp clear and timely Steven Pinker Johnstone Professor of Psychology Harvard University and the author of The Blank Slate and Rationality Both a delightful read and a penetrating argument Barker has invented an invaluable new concept and puts it to work with clarity wit and above all conclusiveness A must have book A C Grayling author of The History of Philosophy and The God Argument I am completely down with the concept of contradiction It fills a need False pattern recognitions pose a real danger to our survival Well done Ann Druyan author with Carl Sagan of Cosmos Contact and Demon Haunted World I love it when brilliant ideas are conveyed clearly and soundly That's why I love this book Dan Barker has provided a much needed explication of a common fallacy that needs to be understood and rebutted It is an engaging enlightening and insightful book Phil Zuckerman author of Society Without God and What it Means to be Moral With Contraduction Dan Barker gives us a new word and a new way of looking at things I thoroughly enjoyed this So much to think about and it made me laugh What else could I ask for Kate Cohen contributing columnist for the Washington Post and author of We of Little Faith I love how Dan Barker offers us a new word to help us understand how to think rationally in a fun simple way I will never look at my reflection in the mirror the same Bailey Harris author of My Name is Stardust Barker has really created something mega with this book WOW what an absolutely awesome mind bender mind fuck contradictions are while at the same time seeming very obvious I give Contraduction 50 hell yeahs fuck yeahs outta 50 Zeke Piestrup director of Apocalypse Later and Satan's Guide to the Bible Dan Barker's approach reminds me of Douglas Adams famous Intelligent Design analogy about the rain puddle that fits me rather neatly A simple shift of perspective can be invaluable in our

understanding and Dan's fresh angle gives us plenty to consider. Simply put, I've never read anything quite like *Contradiction* and that's a good thing. Seth Andrews, Author of *Deconverted: A Journey from Religion to Reason*, *Contradiction* is a delight and lights the way through complexity. Pound for pound, Dan Barker's best book. Ed Buckner, Author with Michael Buckner of *In Freedom We Trust: An Atheist Guide to Religious Liberty*, A clarifying vision of the most baffling aspects of reality from the simplest such as our reflection in a mirror to the most complex such as time, evolution, or the very existence of life. Manel Salido, founder of *Razón y fe* and the author of *Fascinaos*. Be Fascinated. Una respuesta a las grandes preguntas.

*CHRISTIANITY IS AN ARTIFICIAL RELIGION DEVELOPED IN THE LABORATORIES OF ROME* Mammadov, Jabbar Manaf oglu, 2023-01-23. The book claims that Christianity was a project of Rome and was invented in its laboratories like Qumran, Under the Achaemenids, and even earlier in the entire Middle East up to India, there lived Arameans, half of whom professed Judaism or were to some extent influenced by the Bible. In order to split their front and turn this force of theirs against themselves, Rome organized secret centers for the study of the Hebrew Bible in different parts of the empire where the predictions of the former Jewish prophets were analyzed. The remains of some of these centers are found today on the coast of the Dead Sea, for example at Qumran, Masada, etc. In these laboratories, they took the image of a new preacher, teacher of righteousness, named Jesus of Nazareth, was fabricated. Using the method of adjusting events and biography to the prophecies of the Hebrew prophets, Roman political technologists came up with a biography, demeanor, and texts of sermons for this fictional character corresponding to the predictions. After the harsh suppression of the Jews during the First Jewish War, 66-77, Rome was in dire need of agents of influence in order to curb the aggression of the people and reconcile them with defeat. It is at this stage that the image of the hitherto unknown Jesus enters the historical arena. This fictional Jewish character called his people to humility, patience, calmness, obedience to Rome. He offered not to blame Rome for anything and to look for the roots of all troubles in himself and in the Jewish Bible. Christian pacifism and Christian anti-Semitism. All the power of the propaganda machine of Rome was connected to the promotion of his ideas in the Middle East. It was at this time, after the First Jewish War, that the entire Middle East was enveloped in a boom of missionaries in the guise of prostitutes, merchants, artisans, travelers, teachers, mentors, apostles, philanthropists, etc., agents of influence propagating ideas of this fictitious prophet. As the ideas of Christianity spread, a split and confrontation began to grow in the Jewish community, which the Roman administrative bodies tried to do. Guided by its standard policy of Divide and Conquer, Rome used these methods to oppose different layers of the Aramaean Jewish society, weakened and very easily conquered the entire Middle East and the Black Sea region. Before the final rooting of a new artificial religion, Christianity, in the Middle East and the Black Sea region, Rome carefully camouflaged its participation in its formation so as not to extradite its agents abroad and not disclose their source of funding. It is worth emphasizing that, being a Muslim, the author does not belong to the Jewish religion. In this book, he approaches the problem from a purely scientific point of view and does not pursue any religious or

ethno political goal Sometimes the author s pronounced anti Roman inclination is connected with the cultural role of Rome in history due to which the entire pre Roman history culture science of the Middle East and Europe created over several thousand years was wiped off the face of the Earth      Human Rights Education for the Twenty-First Century George J.
