P. Carew,1964 **Thomas Hardy, The Mayor of Casterbridge** Hilda D.. Spear,1995 *Notes on 'The Mayor of Casterbridge by Thomas Hardy* G. G. Urwin,1964 *The Mayor of Casterbridge* ,1965 *Thomas Hardy, Towards a Materialist Criticism* George Wotton,1985-01-01 Challenging the generally accepted critical constructions of the novels of Thomas Hardy this book explores the historical social aesthetic and ideological determinants of Hardy s novels Analyzing the ways in which Hardy s writings have been variously reproduced in literary criticism to produce certain social and ideological effects Wotton also discusses the relation between Hardy s writing and Hardy criticism **Thomas Hardy and the Survivals of Time** Andrew Radford,2017-03-02 A systematic exploration of Thomas Hardy s imaginative assimilation of particular Victorian sciences this study draws on and swells the widening current of scholarly attention now being paid to the cultural meanings compacted and released by the nascent sciences of man in the nineteenth century Andrew Radford here situates Hardy s fiction and poetry in a context of

the new sciences of humankind that evolved during the Victorian age to accommodate an immense range of literal and figurative excavations then taking place Combining literary close readings with broad historical analyses he explores Hardy's artistic response to geological archaeological and anthropological findings In particular he analyzes Hardy's lifelong fascination with the doctrine of survivals a term coined by E B Tylor in *Primitive Culture* 1871 to denote customs beliefs and practices persisting in isolation from their original cultural context Radford reveals how Hardy's subtle reworking of Tylor's doctrine offers a valuable insight into the inter penetration of science and literature during this period An important aspect of Radford's research focuses on lesser known periodical literature that grew out of a British amateur antiquarian tradition of the nineteenth century His readings of Hardy's literary notebooks disclose the degree to which Hardy's own considerable scientific knowledge was shaped by the middlebrow periodical press Thus Thomas Hardy and the *Survivals of Time* raises questions not only about the reception of scientific ideas but also the creation of nonspecialist forms of scientific discourse This book represents a genuinely new perspective for Hardy studies
