Business Week, 1970 **The New Class Society** Earl Wysong, Robert Perrucci, David Wright, 2013-07-11 The New Class Society introduces students to the sociology of class structure and inequalities as it asks whether or not the American dream has faded. The fourth edition of this powerful book demonstrates how and why class inequalities in the United States have been widened, hardened, and become more entrenched than ever. The fourth edition has been extensively revised and reorganized throughout, including a new introduction that offers an overview of key themes and shorter chapters that cover a wider range of topics. New material for the fourth edition includes a discussion of The Great Recession and its ongoing impact, the demise of the middle class, rising costs of college, and increasing student debt, the role of electronic media in shaping people's perceptions of class, and more.

Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition) Leo-paul Dana, 2014-06-13 In this book, Leo Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia, South East Asia, and East Asia. Through in-depth analyses and comprehensive reviews of many Asian countries, the profound differences both among and within countries of the region become vividly apparent. Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan, or the enlightened public policy leadership in Singapore against the crisis-driven developments in Korea. The range of factors identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process because they can be construed in more systematic and logical ways. Thus, the book uncovers the Chinese model of gradual transition, the Royal Cambodian model, and the Doi Moi model among many others. The reader is challenged to grasp these different models and identify their commonalities and differences.
