*Slaves for Hire* John J. Zaborney, 2012-10-12 In *Slaves for Hire* John J. Zaborney overturns long standing beliefs about slave labor in the antebellum South. Previously scholars viewed slave hiring as an aberration, a modified form of slavery involving primarily urban male slaves that worked to the laborer's advantage and weakened slavery's institutional integrity. In the first in-depth examination of slave hiring in Virginia, Zaborney suggests that this endemic practice bolstered the institution of slavery in the decades leading up to the Civil War, all but assuring Virginia's secession from the Union to protect slavery. Moving beyond previous analyses, Zaborney examines slave hiring in rural and agricultural settings along with the renting of women, children, and elderly slaves. His research reveals that like non-hired-out slaves, these other workers' experiences varied in accordance with sex, location, occupation, economic climate, and crop prices, as well as owners' and renters' convictions and financial circumstances. Hired slaves in Virginia faced a full range of oppression, from nearly full autonomy to harsh exploitation. Whites of all economic, occupational, gender, ethnic, and age groups, including slave owners and non-slave owners, rented slaves regularly. Additionally, male owners and hirers often transported slaves to those who worked them and acted as agents for white women who wished to hire out their slaves. Ultimately, widespread white mastery of hired slaves allowed owners with superfluous slaves to offer them for rent locally rather than selling them to the Lower South, establishing the practice as an integral feature of Virginia slavery.

Tom Cotter has spent decades ferreting out lost, barn-find collector cars. The process has made him an ardent road tripper, logging thousands of miles every year on America's back roads. Previous journeys have traced Route 66 in his 1939 Ford Woody wagon and followed the Lincoln Highway coast to coast behind the wheel of a 1926 Model T. Cotter's journeys led him to wonder: What could be the most epic American road trip? The answer: Key West, Florida to Deadhorse, Alaska, its thousands of miles recounted in *America's Greatest Road Trip*. Cotter and Ross drove across the country through British Columbia and the Yukon and finally through Alaska to the literal end of the road. Ross documented their road time in thousands of photographs. Along the way, the pair met fellow road trippers, adventurers, small-town Americans, world travelers, and rolled through an ever-changing geography from the Gulf of Mexico to the Mississippi Delta to the Great Plains and Mountain states through the Northwest Passage and finally several hundred miles of Alaska's challenging ALCAN Highway. Cotter's observations of Two Lane America are complemented by Ross's beautiful photography capturing both the sweep and the detail of life off the beaten path. Join them on their once-in-a-lifetime journey; you'll be glad you came along for the ride.
