MEDIAEVAL RUSSIAN CHURCHES

By SAMUEL HAZZARD CROSS. Cambridge, Mass.: Mediaeval Academy of America, 1949. xiv-95 pages, 113 illustrations. \$7.50.

A sumptuously printed book, published as a tribute to the late Samuel Hazzard Cross, a distinguished Harvard Slavic scholar, it presents a study of Russian church architecture—the result of a year spent by the author in Russia with his colleague, Professor Kenneth John Conant, who edited the volume. The scholarly monograph traces the development of Russian architecture from the earliest times—late tenth century—to the end of the seventeenth. It is particularly interesting to note that the Kievan period (prior to 1240) is the most important architecturally—a fact which fits well with the growing awareness on the part of scholars of the great cultural significance of the pre-Tartar era. The standard Kievan style of the period was the six-column basilica with three apses, a style which influenced the Novgorod and Vladimir-Suzdal builders of churches. In the last-named region, there are to be found the best examples of mediaeval Russian architecture, which bear witness to a remarkable adaptation of the Romanesque features to the basic Byzantine style. The Tartar invasions brought about cultural stagnation. After the recovery from this blow, Russia returned to its native architectural tradition, but in a greatly simplified form. Moscow, at first, had to import Italians to train the natives in building skills. With the acceleration of Westernization begun by Peter the Great, the native architectural tradition was gradually abandoned.

The numerous illustrations are indispensable to the elucidation of the text.

Cyril of Alexandria belonged to the fifth (412-444), rather than the fourth, century (p. 21).

THE REINTERPRETATION OF LUTHER

By EDGAR M. CARLSON. Philadelphia: Westminster Press, 1949. Pp. 256, \$3.50.

The intention of the author of this volume is to delineate clearly and to analyze the findings of Swedish Luther research. He accomplishes his purpose to an admirable degree. With the appearance of Dr. Carlson's book, we now have a sympathetic analysis of the aims and results of forty years of Swedish theological research. The hope of the author is that these profound and stimulating Swedish Luther studies will be of relevance and interest in the present struggle of theological reconstruction and search for truth. His hopes are not in vain. Many will agree with the method, aim,

Mediaeval Russian Churches Samuel Hazzard Cross,1949 *The Reception of Byzantine Culture in Mediaeval Russia* Francis J. Thomson,2024-12-11 It is a truism that Russian culture is based upon the reception of Byzantine culture However the question of what was in fact received is the task that Professor Thomson has set in these studies by means of a detailed examination of the corpus of translations Down to the 17th century this corpus was essentially made up of works required for the liturgy and the monastic life Few works of dogmatic theology and virtually no classical or philosophical works were translated neither was a knowledge of Greek which would have provided access to the originals widespread The result was an unreasoning adherence to ritual forms Western ideas which began to penetrate into Muscovy in the 17th century were not absorbed by Russian culture but fundamentally reshaped it and the result led to a schism within the Church Russia today is Orthodox by religion but Byzantine culture disappeared with Byzantium A major section of addenda takes into account the advances in scholarship since the articles were first published *Historical Dictionary of Medieval Russia* Lawrence N. Langer,2021-09-15 The emergence of Russia or Rus as it was known from a group of scattered Slavic tribes into one of the most powerful states of medieval and modern European history is an extraordinary story It is a story filled with much struggle as there were historical periods when Russia almost ceased to exist as it underwent invasion and conquest Historical Dictionary of Medieval Russia Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 300 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about medieval Russia *Mediaeval Russian Churches* Samuel Hazzard Cross,1949

historical reasons This approach touches upon the very important questions of the typology and classification of the multiplicity of architectural forms The regional view entails giving clear definitions of the ambiguous terms architectural school and tradition explaining the origins and shaping impulses for the different regional clusters of objects Structurally the book presents a history of the development of wooden church architecture in the Russian North and then follows the key points of the mediaeval Russian expansion along the waterways from Novgorod into the North the Svir River Lake Onega the town of Kargopol and the River Onega the White Sea the Rivers Dvina Pinega and Mezen those areas that still retain the most splendid pieces of Russian regional wooden church architecture The study is based on field research and provides an up to date multi faceted view of Russian wooden architecture Medieval Russia, 980-1584 Janet Martin, 2007-12-06 A revised edition of the history of Russia from 980 1584 **Natural Light in Medieval Churches**, 2022-12-12 Inside Christian churches natural light has long been harnessed to underscore theological symbolic and ideological statements In this volume twenty four international scholars with various specialties explore how the study of sunlight can reveal essential aspects of the design decoration and function of medieval sacred spaces Themes covered include the interaction between patrons advisors architects and artists as well as local negotiations among competing traditions that yielded new visual and spatial constructs for which natural light served as a defining and unifying factor The study of natural light in medieval churches reveals cultural relations knowledge transfer patterns processes of translation and adaptation as well as experiential aspects of sacred spaces in the Middle Ages Contributors are Anna Adashinskaya Jelena Bogdanovi Debanjana Chatterjee Ljiljana avij Aleksandar u akovi Du an Danilovi Magdalena Dragovi Natalia Figueiras Pimentel Leslie Forehand Jacob Gasper Vera Henkelmann Gabriel Dinu Herea Vladimir Ivanovici Charles Kerton Jorge L pez Quiroga Anastasija Martinenko Andrea Mattiello Rub n G Mendoza Dimitris Minasidis Maria Paschali Marko Peji Iakovos Potamianos Maria Shevelkina Alice Isabella Sullivan Travis Yeager and Olga Yunak The Art and Architecture of Russia George Heard Hamilton, 1983-01-01 Offers a survey of the painting and architecture of Russia **Russia in the Making** John Lawrence, 2025-07-01 In Russia in the Making originally published in 1957 John Lawrence presents the long and complicated history of Russia as a living and intelligible whole from the very beginning Based on a wide knowledge of Russian history and a considerable experience of Soviet ways his book provides an admirable starting point for wider reading The author gives a clear outline which demonstrates how authoritarianism is in the tradition of Russian history Full value is given to the immense changes brought about by the revolution and the book ends with an analysis of the changes in social structure that forced Stalin s work into another mould This book demands no previous knowledge of its subject The author has used his knowledge of Soviet ways to produce from a complicated and confusing record a most readable and easily digestible narrative **The History of the Discovery and Study of Russian Medieval Painting** Gerol'd I.
