polyimides offer certain desirable traits inter alia high temperature stability Polyimides are used as organic insulators as adhesives as coat ings in composites just to name a few of their uses Even a casual search of the literature will underscore the importance of this class of materials and the high tempo of R D activity taking place in the area of polyimides So it was deemed that a conference on polyimides was both timely and needed This conference was designed to provide a forum for discussion of various ramifications of polyimides to bring together scientists and technologists interested in all aspects of polyimides and thus to provide an opportunity for cross pollination of ideas and to highlight areas which needed further and intensi fied R D efforts If the comments from the attendees are a baro meter of the success of a conference then this event was highly successful and fulfilled amply its stated objectives
