Now in its seventh edition it is still the only textbook that covers all the key topics taught within contemporary sport and leisure management courses. This new edition includes expanded coverage of the practical managerial skills that students must develop if aiming for a career in the sport and leisure industry from planning and managing people to marketing entrepreneurship and the law. It includes four completely new chapters on the global sport and leisure economy, historical development, cross sector collaboration and management consultancy reflecting important developments in contemporary sport and leisure. This edition retains the hallmark strengths of previous editions including in depth discussion of the social and cultural context of sport and leisure, full analysis of the public, private and voluntary sectors and a review of key products and services. Richly illustrated throughout with up to date evidence, data, case studies and international examples, each chapter also contains a range of useful pedagogical features such as discussion questions, practical tasks and structured guides to further reading and resources. This is an important resource for students working in fields such as sport management, sport business, sport development, leisure management and events management. Dedicated online resources offer additional teaching and learning material for students and lecturers. *International Sport* Richard William Cox, 2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments. The annual number of publications has increased from around 250 to 1 000 a year over the last decade. This is due in part to the fact that during the late 1980s and 90s many clubs, leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements. It is also the result of the growing popularity and realisation of the importance of sport history research within academe. This international bibliography of books, articles, conference proceedings and essays in the English language is a one stop for the sports historian to know what is new. Tom Daley Chas Newkey-Burden, 2011-10-30 This highly anticipated biography tells the inspirational story of the World Champion diving ace Tom Daley.
