the world especially in Indonesia      *Civic Engagement in Higher Education* Barbara Jacoby and Associates,2009-01-27 Numerous studies have chronicled students lack of trust in large social institutions declining interest in politics and decreasing civic skills This book is a comprehensive guide to developing high quality civic engagement experiences for college students The book defines civic engagement and explains why it is central to a college education It describes the state of the art of education for civic engagement and provides guidelines for designing programs that encourage desired learning outcomes In addition the book guides leaders in organizing their institutions to create a campus wide culture of civic engagement      **Research Anthology on Citizen Engagement and Activism for Social Change** Management Association, Information Resources,2021-11-26 Activism and the role everyday people play in making a change in society are increasingly popular topics in the world right now especially as younger generations begin to speak out From traditional protests to activities on college campuses to the use of social media more individuals are finding accessible platforms with which to share their views and become more actively involved in politics and social welfare With the emergence of new technologies and a spotlight on important social issues people are able to become more involved in society than ever before as they fight for what they believe It is essential to consider the recent trends technologies and movements in order to understand where society is headed in the future The Research Anthology on Citizen Engagement and Activism for Social Change examines a plethora of innovative research surrounding social change and the various ways citizens are involved in shaping society Covering topics such as accountability social media voter turnout and leadership it is an ideal work for activists sociologists social workers politicians public administrators sociologists journalists policymakers social media analysts government administrators academicians researchers practitioners and students      *Finding America in Leviticus* Michael J. Broyde,Reuven Travis,2023-10-20 It would seem that we have taken on an impossible task in this book trying to demonstrate to modern Americans be they secular or religious Jews or Christians that the sacrificial rites found in Leviticus have any germaneness to their lives After all to the extent that any modern reader turns to the pages of Leviticus at all the notion that they would be inspired by the text and pine for the restoration of animal sacrifices is ludicrous However Leviticus is more than laws of sacrifices As we demonstrate Leviticus sets forth a template for nation building via large regularly scheduled communal gatherings intended to foster national unity and identity among the Jewish people      *Faculty Service-Learning Guidebook* Christine M. Cress,Stephanie T. Stokamer,Thomas J. Van Cleave,Joyce P. Kaufman,2023-07-03 This is a practical guide to designing teaching and coordinating service learning courses and for developing reciprocal community partnerships and community based research through a lens of equity that addresses the endemic racial social economic and environmental disparities across society The text provides a comprehensive framework for developing both in person and on line service learning with a chapter on virtual delivery of courses that integrates the principles and practices described throughout the book The authors uniquely integrate the how to of conducting service learning with the theoretical

foundations to enact effective equitable and inclusive community engagement Given this moment of enormous social inequality and divisiveness the authors offer a new definition and set of educational principles that they characterize as Equity Centered Community Engagement Excellence These principles serve to guide academic and community engagement that is democratic recognizes the voice and expertise of community partners addresses the power imbalances between communities and academic institutions and develops an educational experience that is potentially transformative and promotes civic responsibility Informed by the literature of critical service learning critical race theory intercultural communication theory and social constructivism this book attempts to deconstruct the assumption of the preeminence of academic knowledge to reconstruct a new operational paradigm of equity centeredness that validates community capacity to guide faculty in their redesign of service learning curriculum activities collaborations and scholarship It is based on the principles of Student Agency demonstrated as enhanced skills knowledge and motivation Community Efficacy recognition of community assets and capacity building Scholarly Advocacy leveraging evidence based research based for equity centered learning serving and social justice The authors offer examples of syllabi lessons and assignments reflection questions evaluation rubrics as well as an array of teaching tips that illustrate strategies for use in the classroom and in the field The book is addressed to faculty embarking on service learning and to seasoned scholar practitioners looking for innovative ideas as well as to campus administrators who coordinate community outreach or college student volunteer services offering guidance on leveraging resources and fiscal support from external stakeholders It is also designed to serve as a resource for professional development workshops and faculty scholar learning communities It offers a rich compendium of ideas and examples from which faculty and practitioners can select exercises and elements to incorporate or adapt for their courses whether designing short term engagements or extended service learning programs

**Professional Responsibility** Ciaran Sugrue, Tone Solbrekke, 2014-06-23 What does professional responsibility entail in an increasingly insecure unpredictable and de regulated world This is the core question addressed in this text The point of departure for the various contributions is that professional responsibility is a way of being in the world that includes a particular mandate to behave in a manner consistent with moral and societal obligations as a professional Increasingly however there is a lack of consensus as to what such mandates imply and even more dissensus as to what appropriate exercise of responsibility entails One of the distinctive features of this book is the manner in which it combines normative and empirical dimensions It moves beyond dualistic perspectives to create a more inclusive conversation on professional responsibility In the face of increasing complexity of professional work professional responsibility remains open to further development The book signals direction for the development of professional responsibility and while seeking to give direction to ongoing deliberations avoids the pitfalls of performativity The chapters are grounded in a variety of disciplinary perspectives and traverse various professional boundaries in a self reflexive manner to create more inclusive transformative and generative narratives on professional

responsibility This is achieved by Focusing on normative dimensions of professional work and combining these with a focus on empirical aspects of professional practice in a variety of setting and Recognising the inevitable tensions between personal trust and responsibility and largely depersonalised policies and strategies of quality control when normative and empirical aspects of professional responsibility are situated within their policy environments The concluding narrative moves beyond deconstruction complexity and critique of these considerations to a construction of new imagined horizons of professional responsibility from theoretical conceptual and practical perspectives This text sets out to transform professional responsibility through a re configuration of its constituent elements in imaginative and creative ways and by indicating the real world import of re charting the field

*Exploring the Technological, Societal, and Institutional Dimensions of College Student Activism* Miller, Michael T.,Tolliver, David V.,2018-11-23 Social demonstrations that take place on university campuses have profound effects on students as well as the environments in which those students live and learn These demonstrations in recent years have taken on traditional forms such as spontaneous protests organized marches and organized rallies but they have also been affected by technologically mediated strategies that can bring larger sets of students together to support shared beliefs Exploring the Technological Societal and Institutional Dimensions of College Student Activism provides emerging research exploring the theoretical and practical aspects of social demonstrations on university campuses and responses from administrative professionals Featuring coverage on a broad range of topics such as advocacy student activism and free speech this book is ideally designed for university administrators policymakers government officials academic leaders researchers and institutions seeking current research on student engagement in social demonstrations on the campuses of colleges and universities

**Fantasy Literature** Mark A. Fabrizio, 2016-10-11 Fantasy literature often derided as superficial and escapist is one of the most popular and enduring genres of fiction worldwide It is also perhaps surprisingly thought provoking structurally complex and relevant to contemporary society as the essays in this volume attest The scholars teachers and authors represented here offer their perspectives on this engaging genre Within these pages a reader will find a wealth of ideas to help teachers use these texts in the classroom challenging students to read fantasy with a critical eye They employ interdisciplinary philosophical and religious lenses as well as Marxist and feminist critical theory to help students unlock texts The books discussed include epic fantasy by such authors as Tolkien and Le Guin children s fantasy by Beatrix Potter and Saint Exup ry modern fantasy by Rowling and Martin and even fairy tales and comic books The contributors offer provocations questioning the texts and pushing the boundaries of meaning within the fantasy genre And in

doing so they challenge readers themselves to ponder these tales more deeply But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories Furthermore as with all the books in this series this volume is informed by the tenets of critical pedagogy and is focused on re envisioning fantasy literature through the lens of social justice and empowerment Prepare to be challenged and inspired as you read these explorations of a much loved genre

*Service-Learning in Higher Education in Africa* Titus O. Pacho, 2019-01-15 This book will help stakeholders in higher education appreciate service learning as an innovative and active approach with the potential to enrich students learning experiences while adding value to the service mission of higher education The approach not only links academic

learning to everyday life but also exposes students to a variety of opportunities for the development of life and career skills. The book will serve to bring university teaching out of the clouds and restore in students' minds the connection between what they are learning and the people their education is meant to help. The approach advocated here will serve to have a long term and salutary effect on the whole nature of university learning. When students are given the opportunity to participate actively in the learning process which includes civic engagement they will be able to learn not only theoretically but also experientially through practice as experience is generally one of the best ways to learn.

*Helping Sophomores Succeed*  
Mary Stuart Hunter, Barbara F. Tobolowsky, John N. Gardner, Scott E. Evenbeck, Jerry A. Pattengale, Molly Schaller, Laurie A. Schreiner, 2009-11-02

*Helping Sophomores Succeed* offers an in depth comprehensive understanding of the common challenges that arise in a student's second year of college. Sponsored by the University of South Carolina's National Resource Center for The First Year Experience and Students in Transition, this groundbreaking book offers an examination of second year student success and satisfaction using both quantitative and qualitative measures from national research findings. *Helping Sophomores Succeed* serves as a foundation for designing programs and services for the second year student population that will help to promote retention, academic and career development and personal transition and growth. Praise for *Helping Sophomores Succeed*: Lost, lonely, stressed, pressured, unsupported, frequently indecisive and invisible, many sophomores fall off the radar of campus educators at a time when they may most be seeking purpose, meaning, direction, intellectual challenge and intellectual capacity building. The fine scholars who focused educators on the first year and senior transitions have done it again: a magnificent book to focus on the sophomore year. Susan R. Komives, College Student Personnel Program, University of Maryland. For years, student centered institutions have front loaded resources to promote student success in the first college year. This volume is rich with instructive ideas for how to sustain this important work in the second year of college. George D. Kuh, Chancellor's Professor and director, Indiana University Center for Postsecondary Research. A pioneering work, this brilliant text explores in practical and meaningful ways the all but neglected sophomore year experience when students face critical choices about their major, their profession, their life purpose. Betty L. Siegel, president emerita, Kennesaw State University. All members of the campus community: faculty, student affairs, educators, staff and students will benefit from learning about the unique challenges of the second college year. The book provides research and best practices to help educators and students craft an integrated comprehensive approach to helping second year students succeed. Marcia Baxter Magolda, distinguished professor, Educational Leadership, Miami University. The National Resource Center for The First Year Experience and Students in Transition supports and advances efforts to improve student learning and transitions into and through higher education by providing opportunities for the exchange of practical, theory based information and ideas.
