Practical Lessons In Magic:

Practical lessons in magic ... Illustrated by the author Eric Hawkesworth,1967 *Magic Lessons* Alice Hoffman,2021-02 Where does the story of the Owens bloodline begin With Maria Owens in the 1600s when she s abandoned in a snowy field in rural England as a baby Under the care of Hannah Owens Maria learns about the Unnamed Arts Hannah recognizes that Maria has a gift and she teaches the girl all she knows It is here that she learns her first important lesson Always love someone who will love you back *Magic Lessons* Alice Hoffman,2021-09-07 In an unforgettable novel that traces a centuries old curse to its source beloved author Alice Hoffman unveils the story of Maria Owens accused of witchcraft in Salem and matriarch of a line of the amazing Owens women and men featured in Practical Magic and The Rules of Magic **Seven Brief Lessons on Magic** Paul Tyson,2019-09-18 Is magic real Could anything be real that can t be quantified or scientifically investigated Are qualities like love beauty and goodness really just about hormones and survival Are strangely immaterial things like thought and personhood fully explainable in scientific terms Does nature itself have any intrinsic value mysterious presence or transcendent horizon Once we ask these questions the answer is pretty obvious of course science can t give us a complete picture of reality Science is very good at what it is good at but highly important aspects of human meaning are simply outside of science s knowledge range So how might we better relate scientific facts to qualitative mysteries How might we integrate our powerful factual knowledge with wisdom about the higher meaning of things This book defines magic as the real qualities and mysteries of the world that science just can t grasp It looks at how we came to put magic in the box of subjective make believe It explores how we might get it out of that box and back into our understanding of reality **Magic Lessons** Alice Hoffman,2020-10-06 The extraordinary novel tracing a centuries old curse back to its beginning from the author of PRACTICAL MAGIC and THE DOVEKEEPERS We first met the Owens in the glorious novel Practical Magic We discovered the tragedy of the Owens siblings in Rules of Magic Now we learn how it all began with a baby abandoned in a snowy English field in the 1600s Under the care of gentle Hannah Owens little Maria learns about the Unnamed Arts Maria has a gift for them a gift that may well prove her undoing When Maria is abandoned by the man she loves she invokes the curse that will haunt her family for centuries Because magic has rules and they must be followed This is the lesson that Maria will carry with her for the rest of her life and pass on to her children and her children s children PRAISE for ALICE HOFFMAN Beautiful harrowing a major contribution to twenty first century literature Toni Morrison I am still reeling from The Dovekeepers from the history Alice Hoffman illuminates from the language she uses to bring these women to life This novel is a testament to the human spirit and to love rising from the ashes of war But most of all this novel is one that will never be forgotten by a reader Jodi Picoult In her remarkable new novel Alice Hoffman holds a mirror to our ancient past as she explores the contemporary themes of sexual desire women s solidarity in the face of strife and the magic that s quietly present in our day to day living Put The Dovekeepers at the pinnacle of Hoffman s extraordinary body of work I

was blown away Wally Lamb Alice Hoffman takes seemingly ordinary lives and lets us see and feel extraordinary things Amy Tan Miss Hoffman heals wounds with the gentle touch of an angel Joseph Heller Oh what a book this is Hoffman s exploration of the world of good and evil and the constant contest between them is unflinching and the humanity she brings to us it is a glorious experience Elizabeth Strout
