Practical Guide To Working With Arts Ambassadors:

A Practical Guide to Working with Arts Ambassadors, 2003 **The Personalization of the Museum Visit** Seph Rodney, 2019-05-13 The Personalization of the Museum Visit examines a fundamental shift in institutional behavior in museums located in the United States and the United Kingdom. Contending that art museums have moved toward a new paradigm of public engagement, it posits that modern museum visitors are treated as self-directed clients with the agency to make meaning for themselves. The book then considers how this change has come about, examining factors such as the onset of a new museology, an experience economy, and a marketing revolution. Drawing on extensive research undertaken at Britain's Tate Modern, the book examines a range of issues including visitor engagement, curatorial practice, and museum management. A visit experience that is customizable to the individual visitor, in which curators and marketers work together with visitor clients to create an experience of personalized meaning, is Rodney argues, rising in prevalence in the art museum field, but it is also being stymied by certain structural impediments. This book examines such obstacles, including institutional division of labor, long-standing conceptions or misconceptions of the museum's mission, and the orientation of museums toward a certain conceptual model of their visitors. The Personalization of the Museum Visit is essential reading for scholars and students engaging with issues of visitor engagement, curatorial practice, and museum management. With a particular focus on the role of business interests and public policy, the book should also be of interest to those undertaking research in fields outside of museum and visitor studies.

Journal of Cultural Management and Cultural Policy/Zeitschrift für Kulturmanagement und Kulturpolitik Constance DeVereaux, Steffen Höhne, Martin Tröndle, Miriam Paeslack, 2024-07-08 The Journal of Cultural Management and Cultural Policy offers international perspectives on a wide range of issues in cultural management and cultural policy research and practice. Attendance at museums and other arts organizations has decreased worldwide, even predating COVID. Audiences have been slow to return to performances and exhibits. Reasons include lack of access, lack of time, high cost, persistent inequities, poor engagement between arts organizations and the community, and even lack of interest. Concern about non-attendance has led to coining the term 'non-visitors'. This issue seeks answers to this problem through two critical lenses: engagement and non-visitor studies.
