Practical Philosophy:

Hegel's Practical Philosophy Robert B. Pippin, 2008-10-30 Using a detailed analysis of key Hegelian texts Robert Pippin reveals the bearing of Hegel's claims on many contemporary issues **Practical Philosophy** John Haldane, 2011-12-02 In this wide ranging volume of philosophical essays John Haldane explores some central areas of social life and issues of intense academic and public debate These include the question of ethical relativism fundamental issues in bioethics the nature of individuals in relation to society the common good public judgement of prominent individuals the nature and aims of education cultural theory and the relation of philosophy to art and architecture Friendship and Society Donald X. Burt, 1999 What can I know What can I hope for What should I do These are three perennial questions of life and few thinkers have offered such penetrating answers as Augustine FRIENDSHIP AND SOCIETY is a fascinating volume meant for those interested in what one of history's greatest minds had to say about life in an imperfect world Bridging expert scholarship and a popular readership this volume assumes no in depth knowledge of philosophy or prior acquaintance with Augustine's writings An introductory reflection on the human predicament is followed by a clear and accurate outline of Augustine's thought on such relevant topics as ethics politics society history the family war and peace crime and punishment and church and state Unifying the book is a powerful argument that friendship can be the tie that binds us all **Exploring Practical Philosophy: From Action to Values** Dan Egonsson, Jonas Josefsson, Björn Petersson, Toni Rønnow-Rasmussen, 2018-10-24 This title was first published in 28 11 2001 The broad label practical philosophy brings together such topics as ethics and metaethics as well as philosophy of law society art and religion In practical philosophy theory of value and action is basic and woven into our understanding of all practical and ethical reasoning New essays from leading international philosophers illustrate that substantial results in the subdisciplines of practical philosophy require insights into its core issues the nature of actions persons values and reasons This anthology is published in honour of Ingmar Persson on his fiftieth birthday *Practical Philosophy and Action Theory* Timo Airaksinen, 2023-04-14 Action theory and practical philosophy have their well grounded tradition both in Finland and in Poland This text is a collection of PRACTICAL PHILOSOPHY AND ACTION THEORY Praxiology The International Annual of Practical Philosophy and Methodology Volume 2 This volume is divided into three parts the first one being so to speak a business card of Finland's contemporary practical philosophy the second one being a business card of the Poland's present praxiology and a collection of contributions from other philosophical environments related to the topics Practical Philosophy and Action Theory Timo Airaksinen, Wojciech Gasparski, 1993-01-01 The Bright and the Good Audrey L. Anton, 2018-07-27 The Bright and the Good examines the connection between intellectual and moral virtues both through the history of philosophy and as it can be illustrated in comprehensive examinations of specific virtues The first part of the book investigates the original assumptions posited by Ancient Western philosophers concerning the apparent connection between

moral and intellectual virtues The second part follows the assumptions through history from the Medieval and Modern periods of philosophy noting how the assumption has been tweaked to accommodate specific ideological and scientific precepts The third part showcases inquiries into specific virtues taking the reader on an investigation unfettered by any specific time period or ideology so as to consider the apparent connection between the moral and the intellectual on a case by case basis These essays relate both historical context and contemporary concerns and examine topics including vice ignorance hope courage patience justice and mercy

Great Thinkers in 60 Minutes - Volume 1 Walther Ziegler, 2017-03-09 Great Thinkers in 60 Minutes Volume 1 comprises the five books already published as separate volumes Plato in 60 Minutes Rousseau in 60 Minutes Smith in 60 Minutes Kant in 60 Minutes and Hegel in 60 Minutes Each short study sums up the key idea at the heart of each respective thinker and asks the question Of what use is this key idea to us today But above all the philosophers get to speak for themselves Their most important statements are prominently presented as direct quotations in speech balloons with appropriate graphics with exact indication of the source of each quote in the author's works This light hearted but nonetheless scholarly precise rendering of the ideas of each thinker makes it easy for the reader to acquaint him or herself with the great questions of our lives Because every philosopher who has achieved global fame has posed the question of meaning what is it that holds at the most essential level the world together There have emerged here a range of very different answers In Plato for example the Idea of the Good is that to which we need to open our souls in Rousseau it is rather only in our own original nature that we need to trust in Adam Smith it is in self interest which spurs on each individual and is finally transformed by an invisible hand into the common good in Kant it is the application of Reason which frees us and makes us capable of extraordinary moral actions and in Hegel finally everything is held together by the dialectical self development of the World Spirit which drives onward from epoch to epoch through the deeds of individuals and of nations until it has finally reached its great goal In other words the meaning of the world and thus of our own lives remains among philosophers a topic of great controversy One thing though is sure each of these five thinkers struck from his own perspective one brilliant spark out of that complex crystal that is the truth

The Quality of Practitioner Research ,2007-01-01 This book contains different perspectives on the quality of practitioner research or action research and focuses specifically on questions of the relation between the researcher and the field of the researched The collaborative characteristic of research by practitioners is seen by many as crucial for the better understanding and transformation of practices Those who are included in these practices are expected to be part of the research The distance between researcher and researched should therefore be small in fact this distance is absent when practitioners do research within their own field without the interference of researchers from outside the school This raises fundamental questions about the relationship between the researcher and the researched or the field of the researched The authors of this book share a concern about the popularity of uncritical and rather technical approaches to practitioner research or action research The book offers inspiring and thought provoking ideas to all involved in research by practitioners especially in education researchers and facilitators in the field of practitioner research action research and qualitative research teachers and other practitioners philosophers of education and postgraduate students Most chapters in the book are proceedings from the joint International Practitioner Research Conference and the Collaborative Action Research Network Conference 2005 in Utrecht the Netherlands organized by Fontys University dept of Inclusive Special Education and Leiden University Graduate School of Teaching ICLON
