Practice Of Faith A Handbook Of Contemporary Spirituality:

The Practice of Faith Karl Rahner,1983 **The Practice of Faith** Karl Rahner,1992 **The Vows of Religious Life in a Secular Society** Judith A. Merkle,2025-08-21 This book investigates religious vows shedding light on the type of faith that can sustain humanity in secular times It examines the personal impact of religious life as well as its potential to foster a sense of completeness within society at large Unbelief in today s society can be partially rooted in the shallowness of the sort of religion that the secular can abandon Such a religion characterized as magical shallow illusory or rooted solely in external rituals lacks the depth required to thrive in a secular society It fails to address the profound aspects of human existence the authentic freedom of the spirit and the enduring obedience of faith This study of religious vows uncovers their deeper meanings in light of these challenges It invites us to consider whether religious life despite contemporary criticisms can be seen as touching wholeness This book does not only delve into the theological foundations of these vows but also key areas which impact their understanding and living in new contexts It surveys sociological landscapes and goes beyond to encompass shifts in science psychology theology Religious life in this sense is part of the renewal of the church as well as an agent in it By focusing briefly on each vow Judtih A Merkle illustrates how religious life serves as a bridge connecting the secular and the sacred It is a life focused on love of God and service of others which is a witness to the coming of Kingdom of God and values which truly matter in contemporary society **Spirituality across Disciplines: Research and Practice:** Marian de Souza,Jane Bone,Jacqueline Watson,2016-06-29 This book collects multiple disciplinary voices which explore current research and perspectives to discuss how spirituality is understood interpreted and applied in a range of contexts It addresses spirituality in combination with such topics as Christian mysticism childhood and adolescent education midwifery and sustainability It links spirituality to a variety of disciplines including cognitive neuroscience sociology and psychology Finally it discusses the application of spirituality within the context of social work teaching health care and occupational therapy A final chapter provides an analytical discussion of the different voices that appear in the book and offers a holistic description of spirituality which has the potential to bring some unity to the meaning expression and practice of spirituality across a variety of disciplines as well as across cultural religious and secular worldviews A strength of the book is that each chapter is characterized by a fearless confronting of oppositional perspectives and use of the latest research in addressing them The book takes the difficult topic of spirituality into almost every nook and cranny of personal and professional life There is a persistent grasping of the contentiousness of the topic together with addressing counter positions and utilizing updated research across a range of fields in doing this The opening and closing chapters serve as book ends that keep the whole volume together Terence Lovat The University of Newcastle Australia The interdisciplinary nature of the work is by far the strongest aspect of this volume It has the potential to contribute to a dialogue between different professions and disciplines This prospective publication promises to promote a more holistic approach to the study of spirituality This volume

takes into consideration a wide variety of issues The way the editors have structured the sequence of chapters contributes to facilitate any possible dialogue between the different areas Adrian Mario Gellel University of Malta Malta Sensing the Spirit Judith A. Merkle,2023-06-15 Drawing on the work of Canadian philosopher Charles Taylor this book examines how secular culture affects both the living of Christian discipleship today and impacts how religious congregations engage in their own renewal and future It argues that religious communities can do more than improve and fix the out of date conditions they met in the renewal after Vatican II Calling on environmental sociological and theological insights this book asks how the ongoing coming of the Kingdom in the Spirit brings new gifts for these times and how congregations might respond beyond restorative or post Christian solutions to new challenges confronting them This book offers a renewed meaning of religious life in secular life and the gift it offers and receives from every culture in which it is embedded Spiritual Direction Janet K. Ruffing,Janet Ruffing,2000 The modern resurgence of interest in spiritual direction comes from every occupation and lifestyle not just those in the religious life But while some books cover the basic topic almost none consider the subject of advanced direction What are the special issues of someone who s been offering spiritual direction for more than five years And of someone who s been receiving spiritual direction for more than five years Written by a well known practitioner researcher and theoretician of the art this clear and insightful book fills the gap by providing concrete help for both veteran directors and veteran directees The book offers a theological basis for the process of direction then moves onto such advanced themes as resistance desire in prayer transference and counter transference love mysticism and mutuality with God It also focuses on the special concerns of women in direction Each chapter includes a section on theory some illustrative case material verbatims and suggested discussion questions Spiritual Direction Beyond the Beginnings is for a wide ecumenical audience of both directors and directees It s of particular interest to women clergy retreat directors pastors and all religious and clergy who find themselves spiritual directors by default **Contemporary Spiritualities** Stefania Palmisano,Nicola Pannofino,2020-11-01 Contemporary alternative spirituality as studied by sociologists is usually seen as a recent phenomenon dating from the 1960s and 1970s However when viewed from a longer term perspective this form of religious expression is actually seen to reintroduce concepts that recur throughout Western cultural history This book argues therefore that spirituality in the 21st Century actually shares many of the same characteristics as Classical Mediaeval Renaissance and Modern spiritualities It is neither entirely new nor is it clearly alternative to more established religions The book is divided into two parts The first sets out the context in which contemporary alternative spirituality has formed charting its development as an academic term and a social phenomenon The second part looks at how these two elements have developed in countries that are historically Catholic focussing on specific examples in contemporary Italy spiritualities based on the sacralisation of nature those concerned with health and wellbeing and those which are fascinated by mystery Catholic majority countries are particularly interesting in this instance as the Catholic Church has a unique cultural

hegemony with which to compare alternative spiritual practices It concludes that spirituality if framed in a longer historical perspective is a way of acting and seeing the world which was built and continues to be built upon complex relations with various contradictory sources of authority such as religion magic thinking secularism rationalism various spheres of lay culture This is a bold take on the spirituality milieu and as such will be of great interest to scholars of Religious Studies working on the sociology of religion contemporary spirituality and the rise of the spiritual but not religious **A**
