Books in Print ,1977 **Global Mental Health and Psychotherapy** Dan J. Stein, Judith K. Bass, Stefan G. Hofmann, 2019-02-12 Global Mental Health and Psychotherapy Adapting Psychotherapy for Low and Middle Income Countries takes a detailed look at how psychotherapies can be adapted and implemented in low and middle income countries while also illuminating the challenges and how to overcome them The book addresses the conceptual framework underlying global mental health and psychotherapy focusing on the importance of task shifting a common elements approach rigorous supervision and the scaling up of psychotherapies Specific psychotherapies such as cognitive behavioral therapy interpersonal therapy and collaborative care are given in depth coverage as is working with special populations such as children and adolescents pregnant women refugees and the elderly In addition treatment strategies for common disorders such as depression anxiety and stress and substance abuse are covered as are strategies for more severe mental disorders such as schizophrenia Provides adapted psychotherapy strategies for low and middle income countries Looks at special considerations for particular disorders and populations Covers the treatment of both common and severe mental health problems Focuses on task shifting a common elements approach and scaling of psychotherapies Addresses cognitive behavioral therapy interpersonal therapy and schema therapy

Body Image Care for Cancer Patients Michelle Cororve Fingeret, Irene Teo, 2018-07-03 This book is the first and only academic textbook of principles and practices of body image care for cancer patients designed to target a multidisciplinary audience of healthcare care professionals engaged in the science and or practice of psychosocial oncology internationally Content is primarily geared toward mental health professionals or those involved in supportive care of cancer patients but is broadly applicable to all members of the oncologic healthcare team Best practices and models of body image care are reviewed and presented in such a manner as to be directly relevant to oncologists psychiatrists psychologists nurses social workers rehabilitation specialists speech and language pathologists and other allied healthcare professionals Body Image Care for Cancer Patients provides a comprehensive overview of available literature on body image outcomes with cancer populations and integrates scientific findings from the general body image literature that can be applied to the oncology setting Readers are provided with a comprehensive theoretical foundation along with practical recommendations for assessment tools and intervention approaches that can be utilized by a range of healthcare professionals Case examples are incorporated throughout the textbook considering different aspects of disease and treatment and are written from the perspective of different professional

disciplines This book will be relevant for emerging as well as established healthcare professionals internationally and can be used in training and other educational settings This book is unique as there is no current academic text focusing on advancing the science and practice of body image care for cancer patients Other reference texts have broadly focused on reviewing body image theory and findings in the general population or across a broad spectrum of medical illness The time has come for a more focused textbook specific to body image and cancer that can significantly benefit the field of oncology

Substance Abuse Among Older Adults Frederic C. Blow,1999-08 Researchers are only beginning to realize the pervasiveness of substance abuse such as alcohol and prescription drug misuse among older people thousands of whom need treatment but do not receive it This Treatment Improvement Protocol TIP recommends best practices for identifying screening assessing and treating alcohol and prescription drug abuse among people age 60 and older Sections alcohol use and abuse of psychoactive prescription drugs and OTC medications identification screening and assessment referral and treatment approaches outcomes and cost issues legal and ethical issues tools Bibliography 19 charts and tables

Sepsis Luciano Azevedo,2012-10-03 Sepsis is the major cause of death in non cardiologic intensive care units around the world Every year billions of dollars are consumed in the treatment of sepsis and in research to understand its complex pathophysiology and therefore obtain future therapeutic opportunities Despite the efforts of the scientists and medical practitioners the mortality rates are still high and the incidence of sepsis is increasing In this book we provide an update on several aspects of sepsis Starting from the history of the disease and finishing with treatment of sepsis associated organ dysfunctions this book offers a wide scope of well written and complete reviews concerning pathophysiological and therapeutic characteristics of sepsis We hope that the work of the authors will provide a significant forum of discussion on the topic and increase the awareness of the healthcare team regarding the important aspects of early recognition and treatment of this severe condition

Pharmacy in History ,2001
