Practices Of Looking An Introduction To Visual Culture:

Practices of Looking Marita Sturken, Lisa Cartwright, 2017 Visual culture is central to how we communicate. Our lives are dominated by images and by visual technologies that allow for the local and global circulation of ideas, information, and politics. In this increasingly visual world, how can we best decipher and understand the many ways that our everyday lives are organized around looking practices and the many images we encounter each day? Now in a new edition, *Practices of Looking: An Introduction to Visual Culture* provides a comprehensive and engaging overview of how we understand a wide array of visual media and how we use images to express ourselves, to communicate, to play, and to learn. Marita Sturken and Lisa Cartwright, two leading scholars in the emergent and dynamic field of visual culture and communication, examine the diverse range of approaches to visual analysis and lead students through key theories and concepts. *Practices of Looking* Marita Sturken, Lisa Cartwright, 2009 Thoroughly updated to incorporate cutting-edge theoretical research, the second edition examines the following new topics: the surge of new media technologies; the impact of globalization on the flow of information and media form and content; and how nationalism and security concerns have changed our looking practices in the aftermath of 9/11. Challenging yet accessible, *Practices of Looking* is ideal for courses across a range of disciplines, including media and film studies, communications, art history, and photography. **BOOK JACKET** **Outlines and Highlights for Practices of Looking** Cram101 Textbook Reviews, 2013-01-01 Never HIGHLIGHT a Book Again! Visualizing Orientalness Björn A. Schmidt, 2017 In the early twentieth century Hollywood was fascinated by the Far East Chinese immigrants however were excluded since 1882 and racism pervaded U S society When motion pictures became the most popular form of entertainment immigration and race were heavily debated topics *Visualizing Orientalness* is the first book that analyses the significance of motion pictures within these discourses Taking up approaches from the fields of visual culture studies and visual history Bj rn A Schmidt undertakes a visual discourse analysis of films from the 1910s to 1930s The author shows how the visibility of films and the historical discourses and practices that surrounded them portrayed Chinese immigration and contributed to notions of Chinese Americans as a foreign and other race

Altered Pasts Richard J. Evans, 2014-02-14 A bullet misses its target in Sarajevo a would be Austrian painter gets into the Viennese academy Lord Halifax becomes British prime minister in 1940 instead of

Churchill seemingly minor twists of fate on which world shaking events might have hinged Alternative history has long been the stuff of parlor games war gaming and science fiction but over the past few decades it has become a popular stomping ground for serious historians The historian Richard J Evans now turns a critical slightly jaundiced eye on a subject typically the purview of armchair historians The book s main concern is examining the intellectual fallout from historical counterfactuals which the author defines as alternative versions of the past in which one alteration in the timeline leads to a different outcome from the one we know actually occurred What if Britain had stood at the sidelines during the First World War What if the Wehrmacht had taken Moscow The author offers an engaging and insightful introduction to the genre while discussing the reasons for its revival in popularity the role of historical determinism and the often hidden agendas of the counterfactual historian Most important Evans takes counterfactual history seriously looking at the insights pitfalls and intellectual implications of changing one thread in the weave of history A wonderful critical introduction to an often overlooked genre for scholars and casual readers of history alike

A Violent Embrace renée c. hoogland,2014-01-07

Instead of asking questions about the symbolic meaning or underlying truth of a work of art ren e c hoogland is concerned with the actual work that it does in the world whether intentionally or not Why do we find ourselves in tears in front of an abstract painting Why do some cartoons of the prophet Muhammad generate worldwide political outrage What in other words is the compelling force of visual images even or especially if they are nonfigurative repulsive or downright ugly Rather than describing analyzing and interpreting artworks hoogland approaches art as an event that obtains on the level of actualization presenting retellings of specific artistic events in the light of recent interventions in aesthetic theory and proposing to conceive of the aesthetic encounter as a potentially disruptive if not violent force field with material political and practical consequences

New Directions in Social and Cultural History Sasha Handley,Rohan McWilliam,Lucy Noakes,2018-02-22

What does it mean to be a social and cultural historian today In the wake of the cultural turn and in an age of digital and public history what challenges and opportunities await historians in the early 21st century In this exciting new text leading historians reflect on key developments in their fields and argue for a range of new directions in social and cultural history Focusing on emerging areas of historical research such as the history of the emotions and environmental history New Directions in Social and Cultural History is an invaluable guide to the current and future state of the field The book is divided into three clear sections each with an editorial introduction and covering key thematic areas histories of the human the material world and challenges and provocations Each chapter in the collection provides an introduction to the key and recent developments in its specialist field with their authors then moving on to argue for what they see as particularly important shifts and interventions in the theory and methodology and suggest future developments New Directions in Social and Cultural History provides a comprehensive and insightful overview of this burgeoning field which will be important reading for all students and scholars of social and cultural history and historiography

International Law and Universality

Isil Aral, Jean D'Aspremont, 2024 This book takes a hard and unflinching look at the multitude of roles and functions played by universality in international legal discourses as well as its associated narratives of progress and virtues In doing so it provides a critical appraisal of the mechanisms of inclusion and exclusion that come with international law and its universalist discursive strategies This requires that universality is not reduced to the question of the geographical outreach of international law but instead is understood in terms of boundaries This also entails examining how the idea of universality which does not lend itself to a translation in all languages was developed in some of the dominant vernaculars of international law primarily English and French before being universalised and imposed upon international lawyers from all traditions This simultaneously offers an opportunity to revisit the ideologies that constitute the identity of international lawyers today as well as the socialisation reproduction and legal educational processes which they undergo to become international lawyers Special attention is paid to the place which Europe has secured for itself by virtue of the progress and historical narratives built around the idea of universality

Point of Sale Daniel Herbert, Derek Johnson, 2019-12-13 *Point of Sale* offers the first significant attempt to center media retail as a vital component in the study of popular culture It brings together fifteen essays by top media scholars with their fingers on the pulse of both the changes that foreground retail in a digital age and the history that has made retail a fundamental part of the culture industries The book reveals why retail matters as a site of transactional significance to industries as well as a crucial locus of meaning and interactional participation for consumers In addition to examining how industries connect books DVDs video games lifestyle products toys and more to consumers it also interrogates the changes in media circulation driven by the collision of digital platforms with existing retail institutions By grappling with the contexts in which we buy media *Point of Sale* uncovers the underlying tensions that define the contemporary culture industries
