Dynastic Identity in Early Modern Europe Liesbeth Gevers, Mirella Marini, 2016-04-29 Aristocratic dynasties have long been regarded as fundamental to the development of early modern society and government Yet recent work by political historians has increasingly questioned the dominant role of ruling families in state formation underlining instead the continued importance and independence of individuals In order to take a fresh look at the subject this volume provides a broad discussion on the formation of dynastic identities in relationship to the lineage's own history other families within the social elite and the ruling dynasty Individual chapters consider the dynastic identity of a wide range of European aristocratic families including the Cro's Arenbergs and Nassaus from the Netherlands the Guises Lorraine of France the Sandoval Lerma in Spain the Farnese in Italy together with other lineages from Ireland Sweden and the Austrian Habsburg monarchy Tied in with this broad international focus the volume addressed a variety of related themes including the expression of ambitions and aspirations through family history the social and cultural means employed to enhance status the legal religious and political attitude toward sovereigns the role of women in the formation and reproduction of composite dynastic identities and the transition of aristocratic dynasties to royal dynasties In so doing the collection provides a platform for looking again at dynastic identity in early modern Europe and reveals how it was a compound of political religious social cultural historical and individual attitudes

Gender and Sexuality in Modern Chinese History Susan L. Mann, 2011-09-19 Gender and sexuality have been neglected topics in the history of Chinese civilization despite the fact that there is a massive amount of historical evidence on the subject China's late imperial government was arguably more concerned about gender and sexuality among its subjects than any other pre modern state How did these and other late imperial legacies shape twentieth century notions of gender and sexuality in modern China Susan Mann answers this by focusing on state policy ideas about the physical body and notions of sexuality and difference in China's recent history from medicine to the theater to the gay bars from law to art and sports More broadly the book shows how changes in attitudes toward sex and gender in China during the twentieth century have cast a new light on the process of becoming modern while simultaneously challenging the universalizing assumptions of Western modernity

Carving Status at Kūmgangsan Maya K. H. Stiller, 2021-12-17 North Korea's Kūmgangsan is one of Asia's most celebrated sacred mountain ranges comparable in fame to Mount Tai in China and Mount Fuji in Japan *Carving Status at Kūmgangsan* marks a paradigm shift in the research about East Asian mountains by introducing an entirely new field autographic rock graffiti The book details how late Chosŏn ca 1600 1900 CE Korean elite travelers used Kūmgangsan to demonstrate their high social status by carving inscriptions naming sites and joining the literary pedigree of visitors to renowned locales Such travel practices show how social competition emerged in the spatial context of a landscape Hence *Carving Status at Kūmgangsan* argues for an expansion of accepted historical narratives on travel and mountain space in premodern East Asia Rather than interpreting pilgrimage routes as exclusively religious or tourist in Kūmgangsan's case they were also an important site of collective memory Embarking on a journey to Kūmgangsan to view and contribute to its sites of memory was an endeavor that late Chosŏn Koreans hoped to achieve in their lives Based on multidisciplinary research drawing on literary writings court records gazetteers maps songs calligraphy and paintings *Carving Status at Kūmgangsan* is the first historical study of this practice It will appeal to scholars in fields ranging

from East Asian history literature and geography to pilgrimage studies and art history *The Qing Dynasty and Traditional Chinese Culture* Richard J. Smith, 2015-10-23 The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China's preoccupation with order unity and harmony contributed to the civilization's remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential introduction to late imperial Chinese culture and society **Sinicizing Christianity** , 2017-04-18 Chinese people have been instrumental in indigenizing Christianity Sinicizing Christianity examines Christianity's transplantation to and transformation in China by focusing on three key elements Chinese agents of introduction Chinese redefinition of Christianity for the local context and Chinese institutions and practices that emerged and enabled indigenisation As a matter of fact Christianity is not an exception but just one of many foreign ideas and religions which China has absorbed since the formation of the Middle Kingdom Buddhism and Islam are great examples Few scholars of China have analysed and synthesised the process to determine whether there is a pattern to the ways in which Chinese people have redefined foreign imports for local use and what insight Christianity has to offer Contributors are Robert Entenmann Christopher Sneller Yuqin Huang Wai Luen Kwok Thomas Harvey Monica Romano Thomas Coomans Chris White Dennis Ng Ruiwen Chen and Richard Madsen *Falun Gong and the Future of China* David Ownby, 2008-04-16 On April 25 1999 ten thousand Falun Gong practitioners gathered outside Zhongnanhai the guarded compound where China's highest leaders live and work in a day long peaceful protest of police brutality against fellow practitioners in the neighboring city of Tianjin Stunned and surprised China's leaders launched a campaign of brutal suppression against the group which continues to this day This book written by a leading scholar of the history of this Chinese popular religion is the first to offer a full explanation of what Falun Gong is and where it came from placing the group in the broader context of the modern history of Chinese religion as well as the particular context of post Mao China Falun Gong began as a form of qigong a general name describing physical and mental disciplines based loosely on traditional Chinese medical and spiritual practices Qigong was invented in the 1950s by members of the Chinese medical establishment who were worried that China's traditional healing arts would be lost as China modeled its new socialist health

care system on Western biomedicine In the late 1970s Chinese scientists discovered that qi possessed genuine scientific qualities which allowed qigong to become part of China's drive for modernization With the support of China's leadership qigong became hugely popular in the 1980s and 1990s as charismatic qigong masters attracted millions of enthusiastic practitioners in what was known as the qigong boom the first genuine mass movement in the history of the People's Republic Falun Gong founder Li Hongzhi started his own school of qigong in 1992 claiming that the larger movement had become corrupted by money and magic tricks Li was welcomed into the qigong world and quickly built a nationwide following of several million practitioners but ran afoul of China's authorities and relocated to the United States in 1995 In his absence followers in China began to organize peaceful protests of perceived media slights of Falun Gong which increased from the mid 90s onward as China's leaders began to realize that they had created in the qigong boom a mass movement with religious and nationalistic undertones a potential threat to their legitimacy and control Based on fieldwork among Chinese Falun Gong practitioners in North America and on close examinations of Li Hongzhi's writings this volume offers an inside look at the movement's history in Chinese popular religion

Conflict and Commerce in Maritime East Asia Xing Hang, 2016-01-05 The Zheng family of merchants and militarists emerged from the tumultuous seventeenth century amid a severe economic depression a harrowing dynastic transition from the ethnic Chinese Ming to the Manchu Qing and the first wave of European expansion into East Asia Under four generations of leaders over six decades the Zheng had come to dominate trade across the China Seas Their average annual earnings matched and at times exceeded those of their fiercest rivals the Dutch East India Company Although nominally loyal to the Ming in its doomed struggle against the Manchus the Zheng eventually forged an autonomous territorial state based on Taiwan with the potential to encompass the family's entire economic sphere of influence Through the story of the Zheng Xing Hang provides a fresh perspective on the economic divergence of early modern China from western Europe its twenty first century resurgence and the meaning of a Chinese identity outside China

Max Weber's Economic Ethic of the World Religions Thomas C. Ertman, 2017-03-24 This book brings together for the first time in English internationally recognized specialists who seek to identify what is living and what

is dead in the great German social scientist Max Weber's analyses of China, India, and Ancient Israel found in his massive unfinished *Economic Ethic of the World Religions*. In so doing, the volume offers a powerful new perspective on the current debate concerning the timing of and deeper roots of the Great Divergence and more recent convergence in the economic and political development of the West on the one hand and the great civilizations of Asia on the other. At the same time, this volume also rebalances our understanding of Weber's entire intellectual output by returning *The Protestant Ethic and the Spirit of Capitalism* to its proper place within *Economic Ethic of the World Religions* and establishing that work as the equal of the similarly unfinished *Economy and Society*. **Asia Major**, 2007 Diaspora Space-Time Anne-Christine Trémon, 2022-12-15 *Diaspora Space Time* explores the transformations of Pine Mansion, a Shenzhen former emigrant community and its members' changing relationship with their diaspora around the world. For more than a century, inhabitants of Shenzhen's villages have migrated to Southeast Asia, the Pacific North, and South America and Europe. With China's economic global ascendancy, these villages no longer consist of peasants dependent on their rich overseas relatives. As the villages have become part of the special economic zone of Shenzhen, the megacity that embodies China's rise, emigration has waned. Lineage ties have long been central in choosing migration destinations and channeling donations to village projects. After China's reopening, Shenzhen's villagers used diaspora as a resource to participate in the city's booming economy and to reestablish and protect their ritual sites against government plans. As overseas financial contributions diminish and diasporic relations change, Anne-Christine Trémon highlights the way emigration is being reconceptualized in regards to China's changing position in the world, offering a new perspective on Chinese globalization and the politics of scale making.
