*Practicing Theology* Miroslav Volf, Dorothy C. Bass, 2001-10-26 In a time when academic theology often neglects the lived practices of the Christian community this volume seeks to bring balance to the situation by showing the dynamic link between the task of theology and the practices of the Christian life The work of thirteen first rate theologians from several cultural and Christian perspectives these informed and informative essays explore the relationship between Christian theology and practice in the daily lives of believers in the ministry of Christian communities and as a needed focus within Christian education Contributors Dorothy C Bass Nancy Bedford Gilbert Bond Sarah Coakley Craig Dykstra Reinhard Hutter L Gregory Jones Serene Jones Amy Plantinga Pauw Christine Pohl Kathryn Tanner Miroslav Volf Tammy Williams

**Educating People of Faith** John H. Van Engen, 2004 A much needed addition to the emerging literature on the formative power of religious practices *Educating People of Faith* creates a vivid portrait of the lived practices that shaped the faith of Jews and Christians in synagogues and churches from antiquity up to the seventeenth century This significant book is the work of Jewish Roman Catholic Orthodox and Protestant scholars who wished to discover and describe how Jews and Christians through history have been formed in religious ways of thinking and acting Rather than focusing solely on either intellectual or social life the authors all use the concept of practices as they attend to the embodied contextual character of religious formation Their studies of religious figures community life and traditional practices such as preaching sacraments and catechesis are colorful detailed and revealing The authors are also careful to cover the nature of religious education across all social levels from the textual formation of highly literate rabbis and monks engaged in Scripture study to the local formation of illiterate medieval Christians for whom the veneration of saints shrines street performances of religious dramas and public preaching by wandering preachers were profoundly formative *Educating People of Faith* will benefit scholars and teachers desiring a fuller perspective on how lived practices have historically formed people in religious faith It will also be useful to practical theologians and pastors who wish to make the resources of the past available to practitioners in the present Contributors John C Cavadini Anne L Clark Lawrence S Cunningham Joseph Goering Robert Goldenberg Stanley Samuel Harakas Robert M Kingdon Blake Leyerle Michael A Signer Philip M Soergel David C Steinmetz John Van Engen Lee Palmer Wandel Robert Louis Wilken Elliot R Wolfson

**Practice, Practice Theory and Theology** Kirstine Helboe Johansen, Ulla Schmidt, 2022-05-09 How might practice theories and engagement with practice contribute to and advance theological study of religion and religious life and practices This volume explores and discusses how theological engagement with practice theoretically as well as empirically might profit from theories of practice developed in disciplines such as philosophy sociology education and organisational studies during the recent decades but so far scarcely employed within theology In part I the volume unfolds key components of practice theory especially as they have more recently been developed within sociological practice theories reflect on their significance and potential with regard to theology In part II

these perspectives are employed in the study of concrete religious practices established as well as experimental religious practices and collective as well as individual ones By unfolding connections between theology and practice theories and reflecting on practice theories analytical and theoretical potential for theological study of religion the book will be of interest for any scholar in the study of contemporary religion and practical theology *Liturgical Theology* Simon Chan, 2009-09-20

Bad worship produces bad theology and bad theology produces an unhealthy church In *Liturgical Theology* Simon Chan issues a call to evangelicals to develop a mature theology of the church an ecclesiology that is grounded in the church's identity as a worshiping community Evangelicals he argues are confused about the meaning and purpose of the church in part because they have an inadequate understanding of Christian worship As a remedy for this ailment Chan presents a coherent theology of the church that pays particular attention to the liturgical practices that have constituted Christian worship throughout the centuries With a seasoned eye and steady hand he guides the reader through these practices and unpacks their significance for theology spirituality and the renewal of evangelicalism in the postmodern era Chan's proposal advances the conversation among evangelicals regarding the relationship between theology and worship In contrast to some theologians who have tended to emphasize a sociological analysis Chan argues that we need to consider what is essential to the church's theological identity Drawing on the larger Christian tradition Chan argues that we discover that identity primarily in the structure and significance of Christian worship

**Religious Involvement in Hearing Sermons** Theo Pleizier, 2010

**Homosexuality and the Crisis of Anglicanism** William L. Sachs, 2009-08-13 Uncovers the origins of the conflict over homosexuality which has drawn worldwide interest and divided the Anglican Church

**United and Uniting** Albert J.D. Walsh, 2011-05-01 The United Church of Christ was formed in 1957 to be first and foremost a proactive agent in the often tangled but nonetheless breathtaking ministry and mission of ecumenicity in the pursuit of ever greater visible unity among the diversity of Christian churches This singular task of ecumenicity is arguably the most crucial in the formulation of an ecclesiology essential to the United Church of Christ as a united and uniting church a mission Albert Walsh refers to in this book as her God-given vision and vocation In *United and Uniting* Walsh contends that the identity and self-understanding of the UCC at both national and local levels is best comprehended as a Christ-centered and conciliar fellowship and therefore her ecclesiology must be fundamentally ecumenical A Christ-centered ecumenicity must shape inform and characterize the whole of her ecclesiology and membership in the UCC is defined almost exclusively in terms of a conciliar identity Walsh advocates a return to ecumenical formation at the level of the grassroots or membership in the local congregation as holding the greatest promise for furtherance of the wider ecumenical mission

**The Priesthood of All Believers in the Twenty-First Century** Robert A. Muthiah, 2009-05-01 Robert Muthiah believes a deepened theology of the priesthood of all believers is essential for answering the crucial questions of what shape the church should take in the twenty-first century and how this theological query relates to the lived experiences of congregations Emerging churches which tend

to develop vibrant practices of the priesthood of all believers need to develop more fully their ecclesiological underpinnings while historic churches with a well developed theology of the priesthood of all believers need a renewed vigor to allow this theology to shape their congregational lives With recourse to relevant New Testament texts and theological conversations The Priesthood of All Believers in the Twenty First Century argues for a fresh understanding and embodiment of the priesthood of all believers by setting ecclesiology postmodern culture and congregational practices in dialogue Elements of the discussion include ecumenical and Free church perspectives Trinitarian correspondence postmodern social structures the relevance of Alasdair McIntyre's social practices for congregations and forms of congregational leadership **The**

**Missional Church in Perspective (The Missional Network)** Craig Van Gelder, Dwight J Zscheile, 2011-05-01 In this book two leading ministry experts place the missional church conversation in historical perspective and offer fresh insights for its further development They begin by providing a helpful review of the genesis of the missional church and offering an insightful critique of the Gospel and Our Culture Network's seminal book Missional Church which set the conversation in motion They map the diverse paths this discussion has taken over the past decade identifying four primary branches and ten sub branches of the conversation and placing over one hundred published titles and websites into this framework The authors then utilize recent developments in biblical and theological perspectives to strengthen and extend the conversation about missional theology the church's interaction with culture and cultures and church organization and leadership in relation to the formation of believers as disciples Professors students and church leaders will value this comprehensive overview of the missional movement It includes a foreword by Alan J Roxburgh **Embracing Disruptive Coherence**

Kathleen T. Talvacchia, 2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community **Abraham Heschel and the Phenomenon of**

**Piety** Joseph Harp Britton, 2013-10-24 Piety is often regarded with a pejorative bias a pious person is thought to be overly religious supercilious even Yet historically the concept of piety has played an important role in Christian theology and practice For Abraham Heschel piety describes the contours of a life compatible with God's presence While much has been

made of Heschel's concept of pathos relatively little attention has been given to the pivotal role of piety in his thought with the result that the larger methodological implications of his work for both Jewish and Christian theology have been overlooked. Grounding Heschel's work in Husserl, Dilthey, Schiller and Heidegger, the book explores his phenomenological method of penetrating the consciousness of the pious person in order to perceive the divine reality behind it. The book goes on to consider the significance of Heschel's methodology in view of the theocentric ethics of Gustafson and Hauerwas and the post-modern context reflected in the works of Levinas, Vattimo, Marion and the Radical Orthodoxy movement.

*Before God* George W. Stroup, 2004. Many Christians today have experienced a loss of enormous significance; they no longer understand their daily lives to be lived before God. This timely work traces the development and implications of this loss and argues for its recovery. In comparing contemporary Christians with believers of previous eras, author George Stroup sees an eclipse of life lived before God. This eclipse is tragic because the Bible presupposes human life as a daily personal relationship with God. Stroup here offers help by exploring anew the biblical view that Jesus Christ models most clearly what life lived before God and neighbor looks like. He then suggests that describing Christian life as gratitude naturally evokes a sense of life lived before God. The book concludes by examining whether life before God requires a sense of God's presence and whether it is possible to live before God even in those times when he seems to be absent. Offering thought-provoking analysis of modern faith and sound direction for spiritual renewal, *Before God* is perfect for churches, study groups, pastors and individuals pursuing genuine discipleship.

More Than Communion Scott MacDougall, 2015-05-21. The dominant contemporary model for ecclesiology, theological views of the church itself is the ecclesiology of communion. MacDougall argues that communion ecclesiologies are often marked by a problematic theological imagination of the future eschatology. He argues further that as a result, our ways of practising and being the church are not as robust as they might otherwise be. Reimagining the church in the light of God's promised future then becomes a critical conceptual and practical task. MacDougall presents a detailed exploration of what communion ecclesiologies are and some of the problems they raise. He offers two case studies of such theologies by examining how distinguished theologians John Zizioulas and John Milbank understand the church and the future, how these combine in their work and the conceptual and practical implications of their perspectives. He then offers an alternative theological view and demonstrates the effects that such a shift would have. In doing so, MacDougall offers a proposal for recovering the more to communion and to ecclesiology to help us imagine a church that is not beyond the world as in Zizioulas or over against the world as in Milbank, but in and for the world in love and service. This concept is worked out in conversation with systematic theologians such as Jürgen Moltmann, Wolfhart Pannenberg and Johannes Baptist Metz, and by engaging with a theology of Christian practices currently being developed by practical theologians such as Dorothy C. Bass, Craig Dykstra and those associated with their ongoing project. The potential for the church to become an agent of discipleship, love and service can best be realised when the church anticipates God's promised perfection in the full

themselves from politics. Some, however, continue to turn toward the state and public policy to find solutions to the world's problems. The problem is that both responses allow a narrow vision of politics to determine the church's mission and ministries, which often ends up separating its commitment to personal faith from the pursuit of social justice. The King from the kingdom? Christians too easily forget that the church is inherently political, a community defined by its allegiance to a King, its citizenship in a new world, and its call to work alongside others in pursuit of a new way of life. The church needs a political vision that is more than blind acceptance or mere rejection of past models. It needs a positive vision that takes its cues about politics not from the nation-state but from another political reality: the kingdom of God. This book tells the stories of the visits of two researchers to five diverse congregations across the United States. From the megachurch energy of Rick Warren's Saddleback Church in California to a young Emergent community in Minneapolis to the politically active home of Martin Luther King in Atlanta, these stories illuminate the vastly different ways congregations understand and approach politics and offer a glimpse of a new political imagination for today's church.

**The Five Questions** Jos de Kock, Bard Norheim, 2022-11-03 Research in youth ministry has excelled and developed rapidly over the last four decades. Youth ministry is not just a church practice but has become an emerging academic discipline with a variety of methodological, theoretical, and contextual approaches. This academic handbook offers an assessment of contemporary youth ministry research to assist students doing bachelor, master, and doctoral research and youth ministry scholars in their studies of youth ministry. By examining youth ministry research through the lens of the following five fundamental questions, the reader is challenged to engage with state-of-the-art theory, methods, and findings from current youth ministry research: Who are the youth in youth ministry? Where is God in youth ministry? What is the purpose of youth ministry? Who is the youth minister in youth ministry? How to research practices in youth ministry? The academic handbook is a must-read for everyone who is interested in systematic reflection on youth ministry and youth ministry research.
