Practicing Evaluation A Collaborative Approach:

Practicing Evaluation Rita G. O'Sullivan, 2004-02-04 With over 20 years of evaluation experience author Rita O Sullivan has created an approach that actively engages program stakeholders in the evaluation process *Practicing Evaluation A Collaborative Approach* contains strategies and techniques for conducting successful collaborative evaluations in a variety of program settings including education family support health and non profit organizations Although many evaluation textbooks cover the theory and steps of an evaluation they do not often include specifics regarding how to put these concepts into actual practice in a real world setting such as a school district or business Using actual cases from educational health and business settings O Sullivan shows readers how to better involve stakeholders in the evaluation process *Collaborative Evaluations in Practice* Liliana Rodríguez-Campos, 2015-04-01 One of the reasons some groups are more effective than others is collaboration people implement evaluative decisions more willingly if they have collaborated on those decisions This book introduces real world applications of the Model for Collaborative Evaluations MCE in business nonprofit and education to make collaborative evaluations more accessible to you The MCE is a systematic framework that revolves around a set of six interactive components specific to conducting a collaborative evaluation It represents a practical attempt to capture the essence of collaborative evaluation from various perspectives in order to offer a valuable understanding of different stances that often arise when using this type of approach A multidisciplinary team of authors enriches the diverse perspectives of this book with their international and cross cultural expertise The intention is to share a deeper understanding of how this approach is applied to build collaborative relationships within an evaluation recognizing the level of collaboration will vary in each situation Evaluation Practice for Collaborative Growth Lori L. Bakken, 2018-06-04 *Evaluation Practice for Collaborative Growth* highlights the approaches tools and techniques that are most useful for evaluating educational and social service programs This book walks the reader through a process of creating answerable evaluations questions designing evaluation studies to answer those questions and analyzing interpreting and reporting the evaluation s findings so they are useful and meaningful for key stakeholders The text concludes with a chapter devoted to the shifting landscape of evaluation practice as it faces complex systems and issues that are shaped by society Additionally the author provides a list of knowledge and skills needed to adapt to a changing landscape and encourages organizations to use evaluation as a mechanism for learning and adapting to change Her orientation toward community based approaches and social justice prevail throughout the book s content and align well with a reader s desire to be inclusive and accountable in programing efforts Nonprofit leaders social science professionals and students will find this book helpful for understanding basic program evaluation concepts methods and strategies *Collaborative, Participatory, and Empowerment Evaluation* David M. Fetterman, Liliana Rodríguez-Campos, Ann P. Zukoski, and Contributors, 2017-11-28 Collaborative participatory and empowerment evaluations are stakeholder involvement approaches to evaluation They address concerns about relevance

trust and use in evaluation They also build capacity and respond to pressing evaluation needs in the global community The chapters in this book are designed to help further distinguish one approach from another The essentials of collaborative participatory and empowerment evaluation are presented in separate chapters in order to help practitioners compare and contrast approaches In addition case examples are used to illustrate what each approach looks like in practice

Evaluation in Social Work Yvonne A. Unrau, Peter A. Gabor, Richard M. Grinnell Jr., 2006-09-14 Social work practice is built upon the linkage between the objectives and goals of clients programs and agencies and the evaluation process is critical for making sure those links are strong Building on its earlier editions with seven new chapters and complete revisions of the others as well as a strong online companion website presence this text is more relevant and user friendly than ever It provides a straightforward introduction to program evaluation couched within the quantitative and qualitative traditions the approaches most commonly used to gain social work knowledge The result gives students a sound conceptual understanding of how evaluation can be used in the delivery of day to day services they will be offering your clients as well as the knowledge and skills necessary to demonstrate accountability The book builds upon the knowledge and skills of foundational social work research methods courses and assumes mastery of that material However the authors have created a uniquely accessible scheme that runs throughout the book in the form of a tree whose components trunk twigs leaves guide students through the book They focus on a series of goals from the basic preparedness for participation in evaluation activities and more advanced courses to the ability to actively produce and consume evaluative literature With its clear direct language focus on real life situations and many visual elements this new edition is poised to be the text of choice for students and instructors looking for the best way to learn and teach evaluation skills [Evaluation Handbook](#) , **Evaluation in Sport and Leisure** Andrew Adams, Kevin Harris, 2022-08-12 This book presents a critical assessment of evaluation theory and practice in sport and leisure It considers established and emerging forms of evaluation examines typologies issues contexts and processes and asks how evaluation practice can be improved in the future The book seeks to uncover some of the tensions and dilemmas that are present in choosing and applying evaluation strategies It considers the relationship between evaluation context and evaluator to discern how and why a particular strategy is employed It also highlights how power relationships affect and effect the evaluation process itself as well as those involved in conducting evaluations The book encourages the reader to challenge accepted methodologies in evaluation whilst acknowledging the central importance of evaluation and evidence for our understanding of the social impact and value of sport and leisure This book is important reading for any student researcher practitioner or policy maker with an interest in sport leisure and society sport and leisure management policy or development leisure studies or the wider relationship between sport leisure wellbeing and society **Innovation for development** Devaux, A., Ordinola, M., Horton, D., 2011-11-30 [The Oxford Handbook of Qualitative Research](#) Patricia Leavy, 2020-09-07 The Oxford Handbook of Qualitative Research Second Edition presents a comprehensive interdisciplinary

overview of the field of qualitative research Divided into eight parts the forty chapters address key topics in the field such as approaches to qualitative research philosophical perspectives narrative inquiry field research and interview methods text arts based and internet methods analysis and interpretation of findings and representation and evaluation The handbook is intended for students of all levels faculty and researchers across the disciplines and the contributors represent some of the most influential and innovative researchers as well as emerging scholars This handbook provides a broad introduction to the field of qualitative research to those with little to no background in the subject while providing substantive contributions to the field that will be of interest to even the most experienced researchers It serves as a user friendly teaching tool suitable for a range of undergraduate or graduate courses as well as individuals working on their thesis or other research projects With a focus on methodological instruction the incorporation of real world examples and practical applications and ample coverage of writing and representation this volume offers everything readers need to undertake their own qualitative studies
