Advocacy Practice for Social Justice, Third Edition Richard Hoefer, 2015-08-01. Current economic and social forces are creating a society with less equality, justice, and opportunity for all but the privileged few. Social workers are called upon by their code of ethics to counteract these trends and actively work to achieve social justice. Hoefer's empirically based step by step approach demonstrates how to integrate advocacy for social justice into everyday social work practice. The book shows through anecdotes, case studies, examples, and the author's own personal experiences exactly how advocacy can be conducted with successful outcomes. Each chapter builds upon the previous to provide a concise yet detailed blueprint for conducting successful advocacy. The previous two editions of this book have been used and admired by professors and students alike. Students value its clarity and praise the book for opening their eyes to what they often believed was the scary and bad world of politics and policy. After reading the book, they are motivated to become advocates for social justice because they understand how to do so. If you want to empower your students to effect changes in laws, regulations, and other types of policy at all levels, you will find this text the perfect resource to do so.

Two Counties in Crisis Robert J. Dillard, 2023-09-15. The last of the Deep Southern states to secede, Texas experienced a cultural consolidation through the trauma of war and loss that has political relevance today. With the perceived indignities of Reconstruction, formerly pro-Union voices in the Texas Borderlands found themselves more culturally aligned with the former Confederacy by 1876 when the Texas Constitution was ratified. *Two Counties in Crisis* offers a rare opportunity to observe how local political cultures are transformed by state and national events. Utilizing an interdisciplinary fusion of history and political science, Robert J. Dillard analyzes two disparate Texas

counties traditionalist Harrison County and individualist Collin County and examines four Reconstruction governors Hamilton Throckmorton Pease Davis to aid the narrative and provide additional cultural context Commercially prosperous and built on slave labor in the mold of Deep South plantation culture East Texas s Harrison County strongly supported secession in 1861 West Texas s Collin County characterized by individual and family farms with a limited slave population favored the Union During Reconstruction Collin County became increasingly conservative and eventually bore a great resemblance to Harrison County in its social cultural and political leanings By 1876 and the ratification of the regressive Texas Constitution Collin County had become firmly resistant to all aspects of Reconstruction Both counties found themselves enculturated with the rest of the state establishing for Texas an identity as a former Confederate state that has persisted for generations The reactionary Texas Constitution of 1876 written as a backlash against perceived Northern radicalism ultimately dismantled state education reduced the state tax base and spawned a legal black hole of amendments that Texans remain stuck with today Overwhelmingly ratified by popular vote the suboptimal Texas Constitution was not solely the product of political maneuverings from the economic elite but a collective refusal of federal Reconstruction supported at the local level where the politics of fear and group polarization had transformed former Unionists into die hard rebels
