Teaching About Social Justice Issues in Physical Education Jennifer L. Walton-Fisette, Sue Sutherland, Joanne Hill, 2019-09-01 Addressing social justice issues in a physical education context is necessary both at the higher education and PK 12 settings Limited undergraduate and graduate programs educate their students about social justice issues thus resulting in licensed teachers who lack the content knowledge comfort level and pedagogical tools on how to educate students about issues related to social justice Grounded in the transformative pedagogy theoretical framework this book will offer practical lessons and strategies on a wide variety of social issues e g body race self identity immigration that can be used in teacher education and the PK 12 setting The goal is for teacher educators and practitioners to feel more comfortable with teaching about and for social justice and believe this resource will enhance their content and pedagogical knowledge in the quest to achieve that goal The purpose of this book is to provide physical education teacher educators and PK 12 physical education teachers with lesson plans and resources on how to address social justice issues in a physical education setting This book will include sample lesson plans activities that address a wide variety of social issues the what the how and the challenges and possibilities that the author s encountered when teaching such a lesson activity Addressing social justice issues has been limited in physical education both in higher education and PK 12 especially in the United States Numerous scholars internationally have engaged in research studies that explored how social justice issues are addressed in physical education teacher education Although we have research to support the limitations and complexities of teaching about sociocultural issues and for social justice a more practical resource for teacher educators and inservice teachers is needed The market for this book will be physical education teacher educators and PK 12 physical education teachers throughout the world

Handbook of Disability Sport and Exercise Psychology Jeffrey J. Martin, 2018 Historically very few sport and exercise psychologists and professionals from related fields such as disability and rehabilitation have conducted thorough research on individuals with disabilities engaged in sport and exercise The tide is turning however as growing media attention and familiarity with the Paralympics and the Wounded Warrior Project begins capturing the attention of researchers everywhere By addressing this gap Jeffrey J Martin s compelling Handbook of Disability Sport and Exercise Psychology is one of the first comprehensive overviews of this important and emerging field of study In this volume Martin an accomplished professor of sport and exercise psychology shines a light on a variety of topics ranging from philosophy athletic identity participation motivation quality of life social and environmental barriers body image and intellectual impairments among many other issues Based on the author s own experience and insight a majority of these topic discussions in this volume are accompanied by thoughtful directions for

future research and exploration Designed to spark conversation and initiate new avenues of research the Handbook of Disability Sport and Exercise Psychology will allow for readers to look outside the traditional literature focusing largely on able bodied individuals and instead develop a much greater perspective on sport and exercise psychology today **Physical Education, Health and Education Innovation, volume II** David Manzano Sánchez, Manuel Gómez-López, Jorge Carlos-Vivas, Paulo Jorge Martins, Noelia Belando Pedreño, 2025-06-05 This is the second volume of a successful collection Please see the first volume here Today s society demands to train children and adolescents who develop in an environment based on respect and the promotion of educational values This aspect is especially relevant to promoting physical activity and its relationship with healthy habits such as the consumption of unprocessed foods the reduction of a sedentary lifestyle and the improvement of adherence to sports In this sense the World Health Organization warns that the current rates of overweight and obesity are very high and that we must combat them From formal education you can help improve healthy habits with educational programs and especially in Physical Education a subject where the work of physical social and cognitive well being has special relevance Since the 20th century studies and research that have aimed to combat unhealthy habits in educational centers and sports schools have increased Not only by promoting physical activity within the school but above all by seeking to generate adherence towards the future of students and athletes Different researchers and statistical analyses have indicated how overweight rates increase while physical activities are reduced especially as the Secondary Education stage progresses therefore it is questionable to say what can we do to reverse this trend and continue promoting physical activity So that this motivation is not reduced and harmful behaviors grow over the years such as alcohol or tobacco consumption malnutrition or a sedentary lifestyle and their consequent diseases such as diabetes cancer or cardiovascular problems For all these reasons the objective of this Research Topic is to receive research both empirical and reviews where the promotion of healthy habits related to physical activity nutrition and mental well being through innovative programs is highlighted Within formal education at any educational stage including child primary secondary and university students We welcome contributions in the following topics not limited to Community Engagement in Health Education Explore how involving families and communities boosts the effectiveness of programs promoting physical activity and healthy habits in young people Nutrition Integration in Physical Education Investigate new ways to blend nutrition education seamlessly into physical education curricula promoting healthier lifestyles among students Outdoor Activities and Mental Health Examine the positive impact of outdoor education and nature based activities on youth physical activity levels and mental well being Professional Development for PE Teachers Explore how ongoing training equips educators to effectively promote physical activity and health among students in schools In sum the work of sports psychology in any extracurricular activity or sport has a special place in this Research Topic especially in young athletes to improve their adherence in the present and future
