Pragmatics and Fiction Jon-K. Adams, 1985-01-01 This study is intended to design measures for ethnographic description including speech acts in an etic instrumental approach oriented toward an analysis of the functions of communicative events in relation to the ongoing stream of behavior A revised taxonomy of speech acts is applied to an empirical corpus and is shown to produce a systematic set of behavioral measures which are potentially productive for cross cultural comparison

The Drama of the Messiah in Matthew 8 and 9 Solomon Pasala, 2008 In contrast to the other synoptic evangelists the author of Matthew proceeded differently in many respects Why did he modify the text so much and arrange ten miracle narratives one after the other at one stretch with minor interruptions Why did he place the so called miracle chapters immediately after the Sermon on the Mount Why did he enclose them between two summary statements on either side These are only some of the unanswered questions about chapters 8 and 9 of Matthew's Gospel Beginning with Aristotle's theory of the drama or tragedy the author suggests that the way the evangelist has reworked and reorganized the miracle narratives is similar to the structure of the classic drama By discovering the narrative strategies and the discourse aspect we are able to demonstrate how each episode corresponds to the different moments of a plot such as the initial situation inciting moment complication climax with suspense and finally resolution and denouement

Literary Pragmatics (Routledge Revivals) Roger D. Sell, 2014-10-14 Up until the mid 1980s most pragmatic analysis had been done on spoken language use considerably less on written use and very little at all on literary activity This has now radically changed Pragmatics could be informally defined as the study of relationships between language and its users This volume first published in 1991 seeks to reposition literary activity at the centre of that study The internationally renowned contributors draw together two main streams On the one hand there are concerns which are close to the syntax and semantics of mainstream linguistics and on the other there are concerns ranging towards anthropological linguistics socio and psycholinguistics Literary Pragmatics represents an antidote to the fragmenting specialization so characteristic of the

humanities in the twentieth century This book will be of lasting value to students of linguistics literature and society Roger D Sell discusses the reissue of Literary Pragmatics here http://www.routledge.com/articles/roger_d_sell_discusses_the_reissue_of_literary_pragmatics
