Pragmatism And Development The Prospect For Pluralist Transformation In The Third World:

Pragmatism and Development Murray Leaf, 1998-07-30 While European reconstruction after World War II followed the pluralistic Marshall Plan that grounded social order in individual interests and interdependence the roots of dirigiste planning in South Asia as in the rest of the Third World lie mainly in the line of deterministic theories represented by Positivism and Marxism Despite a national commitment to dirigiste planning however India retains substantial interstitial pluralism pluralism within an overall centralized system that varies from state to state This variation is directly reflected in interstate variations in development success Pragmatic theory such as that underlying the Marshall Plan is committed to seeing indigenous thought in its own terms and provides a far more comprehensive analysis of Indian social realities This study establishes the continuing viability and practicality of the pluralist alternative and identifies what must be done to convert a centralized system to a pluralistic one

Street Entrepreneurs John Cross, Alfonso Morales, 2007-06-11 Addressing the current dearth of available literature on this topic the editors use a range of international case studies to explore street vending and informal economies which continue to be especially in developing countries a vital economic driver This volume collects essays from authors around the world about the markets and vendors they know best including studies of USA China Mexico Turkey The contributors speak of the struggles that vendors have faced to legitimize their activity the role that they play in helping societies adapt to and survive catastrophes as well as the practical roles that they play in both the local and global social and economic system As well as highlighting the importance of street markets as a phenomenon of interest in itself to a growing body of scholarship this study demonstrates how an analysis of street vending can provide insights not only into economic anthropology but also urban studies post modernism spatial geography political sociology and globalization theory

The Cultural Analysis of Kinship Richard Feinberg, Martin Ottenheimer, 2001 In the mid 1970s David M Schneider rocked the anthropological world with his announcement that kinship did not exist in any culture known to humankind This volume provides a critical assessment of Schneider's ideas focusing particularly on his contributions to kinship studies and the

implications of his work for cultural relativism Schneider's deconstruction of kinship as a cultural system sounded the death knell for a certain kind of kinship study At the same time it laid the groundwork for the re emergence of kinship studies as a centerpiece of anthropological theory and practice Now a mainstay of cultural studies Schneider's conception of cultural relativism revolutionized thinking about kinship family gender and culture For feminist anthropologists his ideas freed kinship from the limitations of biology providing a context for establishing gender as a cultural construct Today his work bears on high profile issues such as gay and lesbian partners and parents surrogate motherhood and new reproductive technologies Contributors to *The Cultural Analysis of Kinship* appraise Schneider's contributions and his place in anthropological history particularly in the development of anthropological theory Situating Schneider's work and influence in relation to major controversies in the history of anthropology and of kinship studies they examine his important insights and their limitations consider where his approach might lead and offer alternative paradigms Inspiring many with his keenly critical mind and willingness to flout convention discomfiting others with his mercurial temperament David Schneider left an ineradicable mark on his field These frank observations on the man and his ideas offer a revealing glimpse of one of modern anthropology's most complex and paradoxical figures

The Anthropology of Labor Unions E. Paul Durrenberger, Karaleah S. The Dialectical Path of Law Charles Lincoln, 2021-10-13 This book aims to contribute a single idea a new way to interpret legal decisions in any field of law and in any capacity of interpreting law through a theory called legal dialects This theory of the dialectical path of law uses the Hegelian dialectic which compares and contrasts two ideas showing how they are concurrently the same but separate without the original ideas losing their inherent and distinctive properties what in Hegelian terms is referred to as the sublation To demonstrate this theory Lincoln takes different aspects of international tax

law and corporate law two fields that seem entirely contradictory and shows how they are similar without disregarding their key theoretical properties Primarily focusing on the technical rules of the Organisation for Economic Co operation and Development OECD approach to international tax law and the United States approach to tax law Lincoln shows that both engage in the Hegelian dialectical approach to law *The Journal of Developing Areas* ,1998 Thinking in an Emergency (Norton Global Ethics Series) Elaine Scarry,2012-04-09 Award winning critic Elaine Scarry provides a vital new assessment of leadership during crisis that ensures the protection of democratic values In Thinking in an Emergency Elaine Scarry lays bare the realities of emergency politics and emphasizes what she sees as the ultimate ethical concern equality of survival She reveals how regular citizens can reclaim the power to protect one another and our democratic principles Government leaders sometimes argue that the need for swift national action means there is no time for the population to think deliberate or debate But Scarry shows that clear thinking and rapid action are not in opposition Examining regions as diverse as Japan Switzerland Ethiopia and Canada Scarry identifies forms of emergency assistance that represent thinking at its most rigorous and remarkable She draws on the work of philosophers scientists and artists to remind us of our ability to assist one another whether we are called upon to perform acts of rescue as individuals as members of a neighborhood or as citizens of a country
