Sculpture Material And Process:

Materials and Processes of Contemporary Sculpture Mahmoud Farag, 2020-01-17 Creating a successful sculpture requires an imaginative concept and a sound design that utilize the potential and avoid the limitations of the material and the process used in making it Prior to a few decades ago most sculptors were restricted to carving stone and wood or casting plaster ceramics and bronze for their creations Contemporary sculptors however are no longer bound by the limitations of these traditional materials and processes and can now create works in sizes forms and textures that could not have been achieved previously Many modern sculptures are now made from materials ranging from steel and aluminum to plastics and composites using processes ranging from welding and adhesive bonding to molding and 3D printing To fully utilize the full potential of such new materials the sculptor needs to understand their points of strength their limitations and the most effective way of shaping them to achieve a given design Although this book is written by a materials engineer the subject matter is presented from the point of view of the sculptor with emphasis on the strengths and weaknesses of different materials their resistance to weather conditions natural color and possible surface textures possible methods of shaping and joining tools and equipment needed and safety measures to take Whenever possible case studies are used to illustrate the sequence of processes and the cost elements involved in shaping a given material to create an actual work of sculpture

Sculpture Donald J. Irving, 1970 [The Sculpture of Ruth Asawa, Second Edition](#) Timothy Anglin Burgard, Daniell Cornell, 2020-07-14 An expanded edition of the definitive book on Ruth Asawa s fascinating life and her lasting contributions to American art The work of American artist Ruth Asawa 1926 2013 is brought into brilliant focus in this definitive book originally published to accompany the first complete retrospective of Asawa s career organized by the Fine Arts Museums of San Francisco in 2006 This new edition features an expanded collection of essays and a detailed illustrated chronology that explore Asawa s fascinating life and her lasting contributions to American art Beginning with her earliest works drawings and paintings created in the 1940s while she was studying at Black Mountain College this beautiful volume traces Asawa s flourishing career in San Francisco and her trajectory as a pioneering modernist sculptor who is recognized internationally for her innovative wire sculptures public commissions and activism on behalf of public arts education Through her lifelong experimentations with wire especially its capacity to balance open and closed forms Asawa invented a powerful vocabulary that contributed a unique perspective to the field of twentieth century abstract sculpture Working in a variety of nontraditional media Asawa performed a series of remarkable metamorphoses leading viewers into a deeper awareness of natural forms by revealing their structural properties Through her art Asawa transfigured the commonplace into metaphors for life processes themselves The Sculpture of Ruth Asawa establishes the importance of Asawa s work within a larger cultural context of artists who redefined art as a way of thinking and acting in the world rather than as merely a stylistic practice This updated edition includes a new introduction and more than fifty new images as well as original essays that

reflect on the impact of American political history on Asawa's artistic vision her experience with printmaking and her friendship with photographer Imogen Cunningham Contributors include Susan Ehrens Mary Emma Harris Karin Higa Jacqueline Hoefer Emily K Doman Jennings Paul J Karlstrom John Kreidler Susan Stauter Colleen Terry and Sally B Woodbridge Published in association with the Fine Arts Museums of San Francisco FAMSF
