Hemingway, Séan Hemingway, 2004-07-08 In 1928 and again in 1937 parts of a large scale bronze horse and nearly complete jockey were recovered from the sea off Cape Artemision in Greece where they had gone down in a shipwreck These original Hellenistic sculptures known together as the Horse and Jockey Group from Artemision are among

the very few surviving bronze sculptures from antiquity. Sen Hemingway has been allowed by the National Museum in Athens to investigate the horse and jockey statuary group as no one ever has before and in this book combining archaeological and art historical methods of investigation he provides the first in depth study of this rare and beautiful monument. New technical analyses of the statues by Helen Andreopoulou Mangou form an appendix to the volume. Hemingway begins with an introduction to Hellenistic bronze statuary and what we know about this extraordinary class of ancient sculpture. He then recounts with riveting detail the discovery and painstaking restoration of the statue group describing the technique of its creation and carefully reviewing scholarly knowledge and speculation about it. He also provides a valuable compendium of what is known about ancient Greek horse racing the most prestigious and splendid of all Greek sports. After a full consideration of all the available evidence he speculates further about the work's original meaning and function. His study provides a glimpse of the excellence achieved by Hellenistic bronze sculptors and it will become the definitive resource on this unique sculpture from ancient Greece.

The Red and the White: A Family Saga of the American West Andrew R. Graybill, 2013-10-07 Winner of the Labriola Center American Indian National Book Award. One of the American West's bloodiest and least known massacres is searingly recreated in this generation spanning history of native white intermarriage. At dawn on January 23 1870 four hundred men of the Second U.S. Cavalry attacked and butchered a Piegan camp near the Marias River in Montana in one of the worst slaughters of Indians by American military forces in U.S. history. Coming to avenge the murder of their father a former fur trader named Malcolm Clarke who had been killed four months earlier by their Piegan mother's cousin Clarke's own two sons joined the cavalry in a slaughter of many of their own relatives. In this groundbreaking work of American history Andrew R. Graybill places the Marias Massacre within a larger three generation saga of the Clarke family particularly illuminating the complex history of native white intermarriage in the American Northwest.
