Prince Phaahle

Scurvy How A Surgeon A Mariner And A Gentleman Solved The Greatest Medical Mystery:

Scurvy Stephen R. Bown, 2004-03-17 Traces the discovery of the cure for scurvy by three determined individuals including a navy surgeon a sea captain and a charismatic gentleman tracing the recorded history of the disease along with its research and cure

Pepper Marjorie Shaffer, 2013-04-02 Filled with anecdotes and fascinating information a spicy read indeed Mark Pendergrast author of *Uncommon Grounds The History of Coffee and How it Transformed the World* The perfect companion to Mark Kurlansky's *Salt A World History* *Pepper* illuminates the rich history of pepper for a popular audience Vivid and entertaining it describes the part pepper played in bringing the Europeans and later the Americans to Asia and details the fascinating encounters they had there As Mark Pendergrast author of *Uncommon Grounds* said After reading Marjorie Shaffer's *Pepper* you'll reconsider the significance of that grinder or shaker on your dining room table The pursuit of this wizened berry with the bite changed history in ways you've never dreamed involving extraordinary voyages international trade exotic locales exploitation brutality disease extinctions and rebellions and featuring a set of remarkable characters From the abundance of wildlife on the islands of the Indian Ocean which the Europeans used as stepping stones to India and the East Indies to colorful accounts of the sultan of Banda Aceh entertaining his European visitors with great banquets and elephant fights this fascinating book reveals the often surprising story behind one of mankind's most common spices

Ancient Ocean Crossings Stephen C. Jett, 2017-06-06 Paints a compelling picture of impressive pre-Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In *Ancient Ocean Crossings* Reconsidering the Case for Contacts with the Pre-Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that Earth's two hemispheres were essentially cut off from one another as a result of the post-Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre-Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development

Forgotten Disease Hilary A. Smith, 2023-05-25 Following the

course of one disease over nearly two millennia this book provides a wonderful and highly readable history of Chinese medicine Isis Around the turn of the twentieth century disorders that Chinese physicians had been writing about for over a millennium acquired new identities in Western medicine sudden turmoil became cholera flowers of heaven became smallpox and foot qi became beriberi Historians have tended to present these new identities as revelations overlooking evidence that challenges Western ideas about these conditions In *Forgotten Disease* Hilary A Smith argues that by privileging nineteenth century sources we misrepresent what traditional Chinese doctors were seeing and doing therefore unfairly viewing their medicine as inferior Drawing on a wide array of sources ranging from early Chinese classics to modern scientific research Smith traces the history of one representative case foot qi from the fourth century to the present day She examines the shifting meanings of disease over time showing that each transformation reflects the social political intellectual and economic environment The breathtaking scope of this story offers insights into the world of early Chinese doctors and how their ideas about health illness and the body were developing far before the advent of modern medicine Smith highlights the fact that modern conceptions of these ancient diseases create the impression that the West saved the Chinese from age old afflictions when the reality is that many prominent diseases in China were actually brought over as a result of imperialism She invites the reader to reimagine a history of Chinese medicine that celebrates its complexity and nuance rather than uncritically disdaining this dynamic form of healing An extraordinary book replete with rich and imaginative storytelling and insightful analyses *Harvard Journal of Asiatic Studies*

Captain James Cook and the Search for Antarctica James C. Hamilton, 2020-05-30 A fascinating account of the famous explorer's voyages through the southern Pacific and Antarctic Oceans based on firsthand journals and logbooks In the mid 18th century Captain James Cook undertook extraordinary voyages of navigation and maritime exploration to discover the Unknown Southern Continent He accomplished and encountered much during his three voyages through the uncharted southern waters yet his Antarctic voyages are perhaps the least studied of all his remarkable travels Now James Hamilton's gripping and scholarly study brings together the stories of Cook's Antarctic journeys into a single volume Using Cook's journals and the logbooks of officers who sailed with him this volume sets his Antarctic explorations within the context of his historic voyages *Captain James Cook and the Search for Antarctica* offers fascinating insight into Cook the seaman and explorer The exceptional navigational skills of Cook and his crew are vividly depicted as they survive foul weather across uncharted and inhospitable seas

Sports and Exercise Nutrition William D. McArdle, 2018-11-26 Publisher's Note Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality authenticity or access to any online entitlements included with the product This edition of McArdle Katch and Katch's respected text reflects the most recent evidence based information on how nutrition affects exercise and sports performance Using high quality research to illustrate teaching points the authors provide detailed yet accessible coverage of the science of exercise nutrition and bioenergetics along with valuable insights into how the principles work in

the real world of physical activity and sports medicine New content new research citations and new case studies throughout help prepare students for a successful career in exercise science

Outbreak! Beth Skwarecki, 2016-10-01 From ancient scourges to modern day pandemics Throughout history even recent history highly contagious deadly and truly horrible epidemics have swept through cities countrysides and even entire countries Outbreak catalogs fifty of those incidents in gruesome detail including The Sweating Sickness that killed 15 000 including Henry VIII s older brother Syphilis the French Disease which spread throughout Europe in the late fifteenth century The romantic disease tuberculosis featured in La Boheme La Traviata and Les Miserables The worldwide outbreak of influenza in 1918 which killed 3 percent of the population The mysterious appearance of HIV in the 1980s The devastating spread of Ebola in West Africa in 2014 From ancient outbreaks of smallpox and plague to modern epidemics such as SARS and Ebola the stories capture the mystery and devastation brought on by these diseases It s a sickeningly fun read that confirms the true definition of going viral

Cadwallader Colden, 1688-1776 Philip Ranlet, 2019-10-29 In this book Philip Ranlet examines the prolific political career of Cadwallader Colden Colden was the long lasting lieutenant governor of royal New York A determined foe of entrenched interests in New York such as the manor lords the lawyers and the fur smugglers he remained a vigorous supporter of the royal prerogative He handled Indian relations for many years and was the first true historian of the Iroquois Also one of the preeminent scientists of the colonial period and the Enlightenment itself he established botany in America and also tried to revise the work of Sir Isaac Newton Lieutenant Governor Cadwallader Colden continued to battle the enemies of British rule until his death during the American Revolution in 1776 at 88 years old

Voices from the Lower Deck Monique Layton, 2019-12-10 Voices from the Lower Deck examines the role of folklore as the instrument of integration and bonding for the ordinary seafarer during the Age of Sail Mainly based on contemporary sailors narratives and historical and folkloric texts the book

evokes common themes the harsh environment the cruel discipline the brutal way of life and the release of onshore carousing and whoring but also the coordinated work and effort of daily tasks and the tremendous pride of seeing themselves as unique men against a background of landlubbers The psychological and physical survival of these disparate men from many origins depended on their rapid integration into the common culture the folklore and the folkways of what historians have called the wooden world

Australian Agriculture Ted Henzell, 2007 Focusing on the technologies that the farmers and graziers actually used this book follows the history of each of the major commodities of groups of commodities to the end of the 20th century grain crops sheep and wool beef and dairy wine and others Issues facing agriculture as it enters the 21st century are also discussed

The Book of Negroes: A Novel (Movie Tie-in Edition) (Movie Tie-in Editions) Lawrence Hill, 2015-01-12 Lawrence Hill's award winning novel is a major television miniseries airing on BET Networks The Book of Negroes based on the novel Someone Knows My Name will be BET's first miniseries The star studded production includes lead actress Aunjanue Ellis Ray The Help Oscar winner Cuba Gooding Jr Jerry Maguire A Few Good Men Oscar and Emmy winner Louis Gossett Jr A Raisin in the Sun Boardwalk Empire and features Lyriq Bent Rookie Blue Jane Alexander The Cider House Rules and Ben Chaplin The Thin Red Line Director and co writer Clement Virgo is a feature film and television director The Wire who also serves as producer with executive producer Damon D Oliveira What We Have In this transporting Entertainment Weekly and heart stopping Washington Post work Aminata Diallo one of the strongest women characters in contemporary fiction is kidnapped from Africa as a child and sold as a slave in South Carolina Fleeing to Canada after the Revolutionary War she escapes to attempt a new life in freedom

The Wager David Grann, 2025-02-25 A TOUR DE FORCE OF NARRATIVE NONFICTION WSJ WITH OVER ONE YEAR ON THE NYT BEST SELLER LIST From the author of Killers of the Flower Moon a page turning story of shipwreck survival and savagery culminating in a court martial that reveals a shocking truth The powerful narrative reveals the deeper meaning of the events on The Wager showing that it was not only the captain and crew who ended up on trial but the very idea of empire A Best Book of the Year The New York Times The Wall Street Journal The New Yorker TIME Smithsonian NPR Vulture Riveting Reads like a thriller tackling a multilayered history and imperialism with gusto Time On January 28 1742 a ramshackle vessel of patched together wood and cloth washed up on the coast of Brazil Inside were thirty emaciated men barely alive and they had an extraordinary tale to tell They were survivors of His Majesty's Ship the Wager a British vessel that had left England in 1740 on a secret mission during an imperial war with Spain While the Wager had been chasing a Spanish treasure filled galleon known as the prize of all the oceans it had wrecked on a desolate island off the coast of Patagonia The men after being marooned for months and facing starvation built the flimsy craft and sailed for more than a hundred days traversing nearly 3 000 miles of storm wracked seas They were greeted as heroes But then six months later another even more decrepit craft landed on the coast of Chile This boat contained just three castaways and they told a very different story The thirty sailors who landed in Brazil were not

heroes they were mutineers The first group responded with countercharges of their own of a tyrannical and murderous senior officer and his henchmen It became clear that while stranded on the island the crew had fallen into anarchy with warring factions fighting for dominion over the barren wilderness As accusations of treachery and murder flew the Admiralty convened a court martial to determine who was telling the truth The stakes were life and death for whomever the court found guilty could hang The Wager is a grand tale of human behavior at the extremes told by one of our greatest nonfiction writers Grann s recreation of the hidden world on a British warship rivals the work of Patrick O Brian his portrayal of the castaways desperate straits stands up to the classics of survival writing such as The Endurance and his account of the court martial has the savvy of a Scott Turow thriller As always with Grann s work the incredible twists of the narrative hold the reader spellbound

The Food and Drink of Sydney Heather Hunwick,2018-03-22 Sydney famed for its setting and natural beauty has fascinated from the day it was conceived as an end of the world repository for British felons to its current status as one of the world s most appealing cities This book recounts and celebrates the central role food has played in shaping the city s development from the time of first human settlement to the sophisticated open and cosmopolitan metropolis it is today The reader will learn of the Sydney region s unique natural resources and come to appreciate how these shaped food habits through its pre history and early European settlement how its subsequent waves of immigrants enriched its food scene its love hate relationship with alcohol its markets restaurants and other eateries and how Sydneysiders old and new eat at home The story concludes with a fascinating review of the city s many significant cookbooks and their origins and some iconic recipes relied upon through what is for a global city a remarkably brief history

Dear universe Prince Phaahle,2025-08-17 In this profoundly honest and deeply personal guide Tshireletso Prince Phaahle invites you on a transformative journey of self discovery and spiritual growth With unflinching candor Prince Phaahle shares his own struggles and triumphs weaving together a narrative that is both deeply relatable and profoundly inspiring Part spiritual memoir part self help guide Dear Universe is a heartfelt exploration of the human condition tackling topics such as faith doubt and the search for meaning Prince Phaahle draws on his own experiences as a young man of faith grappling with the complexities of religion and spirituality in the modern world Through a series of poignant and insightful letters to the universe Prince Phaahle offers a powerful framework for personal growth and transformation With practical wisdom and spiritual guidance he encourages readers to confront their deepest fears let go of their limitations and step into their highest potential This book is for anyone who has ever felt lost alone or uncertain about their place in the world It is for those who are seeking a deeper sense of purpose meaning and connection And it is for those who are ready to embark on a journey of radical honesty self discovery and spiritual growth Get ready to be inspired challenged and transformed by the unflinching honesty and profound wisdom of Dear Universe

Off the Deep End Nic Compton,2017-09-21 Confined in a small space for months on end subject to ship s discipline and living on limited food supplies many sailors of old lost their minds and no wonder Many still do The result in

some instances was bloodthirsty mutinies such as the whaleboat Sharon whose captain was butchered and fed to the ship's pigs in a crazed attack in the Pacific Or mob violence such as the 147 survivors on the raft of the Medusa who slaughtered each other in a two week orgy of violence So serious was the problem that the Royal Navy's own physician claimed sailors were seven times more likely to go mad than the rest of the population Historic figures such as Christopher Columbus George Vancouver Fletcher Christian leader of the mutiny of the Bounty and Robert FitzRoy founder of the Met Office have all had their sanity questioned More recently sailors in today's round the world races often experience disturbing hallucinations including seeing elephants floating in the sea and strangers taking the helm or suffer complete psychological breakdown like Donald Crowhurst Others become hypnotised by the sea and jump to their deaths Off the Deep End looks at the sea's physical character how it confuses our senses and makes rational thought difficult It explores the long history of madness at sea and how that is echoed in many of today's yacht races It looks at the often marginal behaviour of sailors living both figuratively and literally outside society's usual rules And it also looks at the sea's power to heal as well as cause madness

Lemon Toby Sonneman, 2013-02-15 You can squeeze it zest it slice it juice it pickle it or even take a bite out of it as Sicilians do Adding freshness and flavor to food and drinks this versatile sour fruit also known for resolving diverse health and household troubles has long been considered vital to Mediterranean and European cookery and cuisine Lemon A Global History tells the story of the remarkable adventure of the lemon starting with its fragrant and mysterious ancestor the citron adored by the Greeks and Romans for its fine perfume and sacred to many of the world's great religions The lemon traveled with Arabs along ancient trade routes came of age in Sicily and Italy and sailed to the New World with Columbus It was an exotic luxury in seventeenth century Europe and later went on to save the lives of thousands of sailors in the British Royal Navy after being recognized as a cure for scurvy The last century saw the lemon's rise to commercial success in a California citrus empire as well as the discovery of new varieties This book also includes delicious recipes for sweet and savory dishes and beverages

Transforming Conservation William J. Sutherland, 2022-12-07 There are severe problems with the decision making processes currently widely used leading to ineffective use of evidence faulty decisions wasting of resources and the erosion of public and political support In this book an international team of experts provide solutions The transformation suggested includes rethinking how evidence is assessed combined communicated and used in decision making using effective methods when asking experts to make judgements i.e. avoiding just asking an expert or a group of experts using a structured process for making decisions that incorporate the evidence and having effective processes for learning from actions In each case the specific problem with decision making is described with a range of practical solutions Adopting this approach to decision making requires societal change so detailed suggestions are made for transforming organisations governments businesses funders and philanthropists The practical suggestions include twelve downloadable checklists The vision of the authors is to transform conservation so it is more effective more cost efficient learns from

practice and is more attractive to funders However the lessons of this important book go well beyond conservation to decision makers in any field
