**Eurasian Iron Age** Courtney Nimura, Helen Chittock, Peter Hommel, Chris Gosden, 2020-02-28 Since early discoveries of so called Celtic Art during the 19th century archaeologists have mused on the origins of this major art tradition which emerged in Europe around 500 BC Classical influence has often been cited as the main impetus for this new and distinctive way of decorating but although Classical and Celtic Art share certain motifs many of the design principles behind the two styles differ fundamentally Instead the idea that Celtic Art shares its essential forms and themes of transformation and animism with Iron Age art from across northern Eurasia has recently gained currency partly thanks to a move away from the study of motifs in prehistoric art and towards considerations of the contexts in which they appear This volume explores Iron Age art at different scales and specifically considers the long distance connections mutual influences and shared ways of seeing that link Celtic Art to other art traditions across northern Eurasia It brings together 13 papers on varied subjects such as animal and human imagery technologies of production and the design theory behind Iron Age art balancing pan Eurasian scale commentary with regional and site scale studies and detailed analyses of individual objects as well as introductory and summary papers This multi scalar approach allows connections to be made across wide geographical areas whilst maintaining the detail required to carry out sensitive studies of objects *History of the Caucasus* Christoph

**The Ukrainians** Andrew Wilson,2022-11-08 As in many postcommunist states politics in Ukraine revolves around the issue of national identity Ukrainian nationalists see themselves as one of the world s oldest and most civilized peoples as older brothers to the younger Russian culture Yet Ukraine became independent only in 1991 and Ukrainians often feel like a minority in their own country where Russian is still the main language heard on the streets of the capital Kiev This book is a comprehensive guide to modern Ukraine and to the versions of its past propagated by both Russians and Ukrainians Andrew Wilson provides the most acute informed and up to date account available of the Ukrainians and their country Concentrating on the complex relation between Ukraine and Russia the book begins with the myth of common origin in the early medieval era then looks closely at the Ukrainian experience under the tsars and Soviets the experience of minorities in the country and the path to independence in 1991 Wilson also considers the history of Ukraine since 1991 and the continuing disputes over identity culture and religion He examines the economic collapse under the first president Leonid Kravchuk and the attempts at recovery under his successor Leonid Kuchma Wilson explores the conflicts in Ukrainian society between the country s Eurasian roots and its Western aspirations as well as the significance of the presidential election of November 1999

*Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction* Mateusz Świetlicki,2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children s historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary readings of 41 books novels novellas picturebooks short stories and a graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the

experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children s literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora
