Seadragon George P. Steele, 1962 Accounts of the first east west traverse of the Arctic Sea during the summer of 1960 made by the nuclear submarine the U S S Seadragon and reported by her commander [USS Seadragon - George P. Steele, 1962](#) **The Northwest Passage: Arctic Straits** Donat Pharand, 2024-09-02 [Workshop on the U.S. Antarctic Meteorological Data Delivery System](#) Claire S. Hanson, Charles R Stearns, 1988 [Silent and Unseen](#) Alfred Scott McLaren, 2015-05-15 Silent and Unseen is a memoir of a submariner s life on a U S attack submarine during the Cold War by Capt Alfred S McLaren an experienced submarine officer and nuclear attack submarine commander He describes in riveting detail the significant events that occurred early in the Cold War during his seven years 1958 65 on board three attack submarines the USS Greenfish SS 351 USS Seadragon SSN 584 and USS Skipjack SSN 585 He took part in the first submerged transit of the Northwest Passage a Baffin Bay expedition and as commander of USS Queenfish SSN 651 a North Pole expedition that completed the first survey of the entire Siberian Continental Shelf McLaren s stories and anecdotes offer a look at the development of attack boat tactics and under ice exploration techniques During the early high risk years of the Cold War submarines were continually at sea and each reconnaissance and intelligence collection mission was of potentially great value to the United States The missions often required zeroing in on the potential enemy to collect the intelligence desired generally within weapons range Unlike a war patrol the U S attack boat had to remain undetected and then withdraw as silently and unseen as it s original approach Greenfish was one of the most successful Pacific diesel submarines when McLaren served aboard her as a watch and weapons officer He then served as watch officer on the Seadragon when she became the first nuclear submarine to transit from the Atlantic to the Pacific via the Arctic Ocean En route she examined the underside of icebergs conducted the first underwater survey and passage through the Northwest Passage and surfaced at the North Pole McLaren concludes by recounting his experiences on board what was then the world s fastest and most advanced submarine USS Skipjack SSN 585 during the Cuban Missile Crisis two Cold War missions and the very intensive and exciting period of new tactical and weapons development which followed to counter a rapidly emerging Soviet nuclear submarine threat [Seadragon](#) George P. Steele, 1962 Accounts of the first east west traverse of the Arctic Sea during the summer of 1960 made by the nuclear submarine the U S S Seadragon and reported by her commander [Submarines Under Ice](#) Marion D. Williams, 1998 This book treats not only Wilkins s Nautilus expedition of 1931 but the diesel and battery powered submarine operations of the 1940s and 1950s as well as the era of nuclear powered boats It shows how rapid advances in science and technology helped overcome so many obstacles that today the Arctic Ocean is considered the submariner s private sea Author Marion Williams a member of the U S Navy s submarine service for many years tells the story from the viewpoint of the submariners themselves To do so he consulted countless official and unofficial documents and recently declassified reports interviewed participants and drew on his own professional knowledge He provides dramatic details of

every operation and also describes the military and political ramifications of each cruise The narrative is certain to appeal to readers of all ages who enjoy tales of exploration and discovery Dozens of photographs many never before published help bring the story to life BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
