Searching For A Piece Of My Soul:

In Search of the Soul, Second Edition Joel B. Green, 2010-11-01 Why A Search for the Soul Many Christians assume that it is biblically faithful and theologically noncontroversial to speak of humans having a soul Yet a wide range of biblical scholars are questioning whether we have correctly understood what the Bible means when it speaks of the soul And contemporary neuroscience is laying more and more questions at the doorstep of the church asking whether our human sense of self is intelligible on the basis of soul But for thoughtful Christians following science on this point looks like caving in to reductionism while denying science gives off the door of obscurantism In Search of the Soul provides a rare opportunity to listen in as four Christian philosophers set forth their best arguments for their distinct views and then respond to each other While each of these views calls for careful framing and patient exposition they are labeled as follows SUBSTANCE DUALISM Stewart Goetz EMERGENT DUALISM William Hasker NONREDUCTIVE PHYSICALISM Nancey Murphy CONSTITUTION VIEW OF PERSONS Kevin Corcoran The editor introduces the debate by laying out the critical issues at stake and wraps it up by considering the implications for the Christian life particularly hospitality and forgiveness This is a book of timely interest to philosophers theologians psychologists and pastors Whatever conclusions readers may draw they will find here an instructive and engaging discussion of a controversy that will not go away any time soon

In Search of the Soul Joel B. Green, Stuart L. Palmer, Kevin Corcoran, 2005-01-01 Editors Joel B Green and Stuart L Palmer present differing evangelical perspectives on the body and soul mind and brain problem Stewart Goetz on substance dualism William Hasker on emergent dualism Nancey Murphy on nonreductive physicalism and Kevin Corcoran on the constitution view of persons

In Search of the Soul John Cottingham, 2022-04-12 How our beliefs about the soul have developed through the ages and why an understanding of it still matters today The concept of the soul has been a recurring area of exploration since ancient times What do we mean when we talk about finding our soul how do we know we have one and does it hold any relevance in today's scientifically and technologically dominated society From Socrates and Augustine to Darwin and Freud In Search of the Soul takes readers on a concise accessible journey into the origins of the soul in Western philosophy and culture and examines how the idea has developed throughout history to the present Touching on literature music art and theology John Cottingham illustrates how far from being redundant in contemporary times the soul attunes us to the importance of meaning and value and experience and growth A better understanding of the soul might help all of us better understand what it is to be human Cottingham delves into the evolution of our thoughts about the soul through landmark works including those of Aristotle Plato and Descartes He considers the nature of consciousness and subjective experience and discusses the psychoanalytic view that large parts of the human psyche are hidden from direct conscious awareness He also reflects on the mysterious and universal longing for transcendence that is an indelible part of our human makeup Looking at the soul's many dimensions historical moral psychological and spiritual Cottingham makes a case for how it exerts a powerful pull on all of us In Search

larger historiographical debates concerning the nature of Christian history While other books look at Christian historiography using abstract and methodological approaches this book examines the subject precisely by looking at the life and work of an individual historian It does so by placing Dallimore in the context of being a minister in twentieth century Canada as well as his role in the development of Reformed Theology in the Anglosphere It also examines the quality of his various biographies focusing on key issues such as the nature of religious revival the problem of Christianity and slavery and the question of charismatic religious experience His study concludes by examining the relationship between the discipline and profession of church history and asking what is required for one to be considered a church historian
