Security Co Operation Between Russia And Ukraine In The Post Soviet Era:

Security Cooperation between Russia and Ukraine in the Post-Soviet Era D. Sanders, 2001-10-25 Security cooperation between states remains elusive Using a fascinating case study with wide implications for European security and stability the division of former Soviet security assets between Russia and Ukraine Deborah Sanders considers which factors promote and which hamper security cooperation She examines the dynamics of security cooperation in three areas the dismantling of Ukraine's tactical nuclear weapons the removal of Ukraine's strategic nuclear weapons and the division of the Black Sea fleet While the collapse of the Soviet Union opened up numerous possibilities for cooperation between the two countries it also unleashed long suppressed national feelings and reawakened historical controversies Sanders argues that the dynamics of cooperation can only be understood if these domestic political factors are taken into account

To Balance or Not to Balance Eric A. Miller, 2017-03-02 With the collapse of the Soviet Union in 1991 fifteen newly independent states emerged from the imperial wreckage some more ready than others to grasp their new found independence This book tackles the seminal question related to these broader developments why did some states choose to align with Russia despite Moscow's overwhelming power advantage and recurrent neo imperial ambitions Eric A Miller develops and tests a theoretical framework that extends traditional realist alignment theories to include domestic level political and economic variables critical to the study of the Commonwealth of Independent States CIS Specifically Miller argues that internal political threats to CIS leaders and the extent of a country's economic dependence on Russia were the most influential factors in determining alignments The volume is designed to meet the need for a thorough theoretical and scholarly assessment of the international and domestic politics of CIS countries

in the region since 1991 Ukraine's Foreign and Security Policy 1991-2000 Roman Wolczuk, 2002-10-17 This book analyses Ukraine's relations with each of its neighbours in the 1990s. It examines the degree to which these relations fitted into Ukraine's broad objective of reorienting its key political ties from East to West and assesses the extent to which Ukraine succeeded in achieving this reorientation. It shows how in the early days of independence Ukraine fought off threats from Russia and Romania to its territorial integrity and how it made progress in establishing good relations with its western neighbours as a means of moving closer towards Central European sub-regional and European regional organisations. It also shows how the sheer breadth and depth of its economic and military ties to Russia continued to exert such a strong influence that relations with Russia dwarfed Ukraine's relations with all other neighbours, resulting in a foreign and security policy which attempted to counterbalance the competing forces of East and West **Russia, the West, and the Ukraine Crisis** Elias Götzt, 2018-12-07 This book examines the causes and consequences of the Ukraine crisis with a special focus on Russia's relations with the West. Towards that end, it brings together international relations scholars and area specialists. Issues covered include the evolution of EU-Russia and US-Russia relations, the role of strategic culture and ontological insecurities in the formation of Russian foreign policy, the role of hybrid warfare in Russian military policy, the geopolitical drivers of Russia's Ukraine policy, and a discussion of the decision-making dynamics that led to Russia's intervention in eastern Ukraine. The contributors employ different theoretical approaches and offer partly complementary and partly competing analyses. In so doing, this book seeks to stimulate dialogue between different positions and advance our understanding of a topic that will shape the European security order for many years to come. This book was originally published as a special issue of *Contemporary Politics* **Energy Security and Cooperation in Eurasia** Ekaterina Svyatets, 2015-11-06 Why are bilateral relations especially in the area of energy security so different in the cases of U.S.-Russia, U.S.-Azerbaijan, and Russia-Germany energy deals? Why do some states find common ground despite differences while others with all the seemingly favourable conditions are sinking into animosity? *Energy Security and Cooperation in Eurasia* explores varying outcomes of energy cooperation defined as diplomatic relations, bilateral trade, and investment in oil and natural gas. The book looks at economic potential, geopolitical rivalry, and domestic interest groups in the cases of U.S.-Russia, U.S.-Azerbaijan, and Russia-Germany energy ties. It looks at major projects in each case: Sakhalin and Arctic oil and gas production, Baku-Tbilisi-Ceyhan and Nord Stream pipelines, and activities of international oil companies. The book also provides a detailed analysis of the situation in Ukraine since 2014 and Russia's annexation of Crimea and their effect on European energy security. This book utilizes an innovative approach of exploring the dyads of states' bilateral relations along the economic, geopolitical, and domestic lobbying dimensions. This book is a valuable resource for graduate and undergraduate students, academics, and researchers in the areas of Security, Political Economy, Comparative Politics, post-Soviet studies, as well as for general public **Regional Security Governance in Post-Soviet Eurasia** Igor Davidzon, 2021-10-06 This book explores post-Soviet Eurasian regional

Cooperation and Dependence in Belarus-Russia Relations Dara Massicot,Michelle Grisé,Kotryna Jukneviute,Marta Kepe,Casey Mahoney,Krystyna Marcinek,Yuliya Shokh,Mark Stalczyński,2024-08-31 The relationship between Belarus and Russia is unique and complex At first glance their similarities are numerous Their ties are based on a shared history and language a deep cultural affinity legal agreements that codify a strategic partnership intertwined economies and shared threat perceptions of the West in general and the North Atlantic Treaty Organization NATO in particular The two governments are led by highly personalist regimes that have decades of experience managing the partnership and share a similar and nostalgic view of the Soviet Union There is a great deal of convergence across many policies However this relationship is not one between equals nor is it entirely harmonious The

watershed year in the relationship was 2020 when Belarus's ability to offset Russian demands diminished. Through a combination of violent crackdowns on protests that year, alarming its neighbors via a migrant crisis in 2021, and allowing its territory to be used to launch a full-scale invasion of Ukraine in 2022, Belarus has found itself increasingly isolated and unable to push back on most Russian requests. For Belarus's neighbors, managing the relationship with Minsk is now a challenge as ties and mutual dependence between Minsk and Moscow grow stronger. In this report, the authors outline areas of convergence and divergence in the Belarus-Russia relationship. They also consider the regional perspectives of Belarus's neighbors: Latvia, Lithuania, Poland, and Ukraine, and how the Belarus-Russia relationship poses an evolving threat to those neighbors' security.

Strengthening U.S.-Russian Cooperation on Nuclear Nonproliferation Russian Academy of Sciences, Russian Committee on Strengthening U.S. and Russian Cooperative Nuclear Nonproliferation, National Research Council, Policy and Global Affairs, Development, Security, and Cooperation, U.S. Committee on Strengthening U.S. and Russian Cooperative Nuclear Nonproliferation, 2005-10-07. Strengthening U.S. Russian Cooperation on Nuclear Nonproliferation: Recommendations for Action offers the consensus findings and recommendations of a joint committee established by the U.S. National Academies and the Russian Academy of Sciences to identify methods of improving the ongoing cooperation between the two nations in this area. The report finds that the best way to realize the enormous potential of the U.S.-Russian relationship on nuclear nonproliferation is to reinvigorate the relationship between the two governments as a true partnership. It recommends that the U.S. and Russia establish a Joint High Level Commission of government and non-government experts to assess their cooperation and devise a strategic plan for moving forward. It suggests that the Senior Interagency Group that was recently established by the two presidents be empowered to carry out this strategic plan. The report then examines three issue areas, making specific recommendations in each: law and taxation, program organization and management, and scientific and technical cooperation.

Energy Security Cooperation in Northeast Asia Bo Kong, Jae Ku, 2015-04-24. Drawing on cutting-edge research from leading scholars, this book investigates state preferences for regime creation and assesses state capacity for executing these preferences in Northeast Asia's energy domain, defined as the geographical area comprising the following countries: Russia, Mongolia, China, Japan, South Korea, and North Korea. It examines questions pertaining to how states perceive the need and necessity for establishing a regime when it comes to the issue of energy and how much commitment they make to the effort in Northeast Asia. The book analyses the factors that shape each country's fundamental energy interests in the region, how these interests impact their attitudes toward engaging the region on energy security, and the way they carry out their regional engagement. Based on countries' interests in promoting

institutionalized regional energy cooperation and their capacity for forging that cooperation the collection assesses each state's role in contributing to an energy regime in Northeast Asia. It then concludes with a critique on the decade plus quest for energy security cooperation in Northeast Asia and suggests ways forward for facilitating regional energy security cooperation. This book will be of great interest to scholars and students of environmental policy, energy policy, security studies, Asian studies and international relations.

Cooperation and Conflict between Europe and Russia Magdalena Dembińska, Frederic Mérand, 2021-08-26

When thinking about relations between Europe and Russia, international relations scholars focus on why conflict has replaced cooperation. The geostrategic debate excludes the possible coexistence of cooperation and conflict. Tracking the evolution of conflict and cooperation patterns in three zones of contact: Estonia, Kaliningrad and Moldova between 1991 and 2016, this edited volume argues that although the standard narrative remains compelling, local patterns of cooperation and conflict are partly autonomous from the geostrategic level. To account for the coexistence of cooperation and conflict, the first chapter elaborates a theoretical proposition distinguishing fluid, rigid and disputed symbolic boundaries which have different impacts on the ground. The subsequent chapters address distinct dimensions of Euro-Russian relations, paying attention to local reality in Estonia, Moldova, Ukraine or Kaliningrad, different sectors from energy to people's movement and across institutional contexts such as the EU and NATO. They confirm that the standard narrative holds in most cases but also that Euro-Russian relations vary in crucial ways according to the interests and representations of actors immersed in specific geopolitical fields. Despite a deterioration of geostrategic relations between Europe and Russia since the end of the Soviet Union, *Cooperation and Conflict between Europe and Russia* explores the intriguing coexistence of conflict and cooperation at the local level and across sectors and institutions. The chapters in this book were originally published as a special issue of the journal *East European Politics*.
