Mama Coca:

Mama Coca Antonil,1978 Mama Coca Antonil,1978 Bolivia and Coca James Painter,1994 **Peru** William Golden Mortimer,1901 **Cocaine** Edmundo Morales,1989-11 Cocaine Much is known about the damage done by this drug in the United States yet how much is actually known of its impact at its source Though most processed cocaine comes from Colombia more than half of the coca paste from which the drug is made originates in the vast jungle slopes shared by Bolivia and Peru People here have chewed coca leaves for centuries but only over the last twenty years has coca become a major cash crop Now it supports local economies feeds inflation and affects the social behavior of Peruvians Edmundo Morales a Peruvian who is now a drug researcher in the United States has conducted an extensive study of this underground economy to show how cocaine has changed the social cultural economic and political climate of Peru and why government efforts are unable to stop it With statistics on coca agriculture a description of coca paste manufacturing and an examination of the industry s social structure Morales s book is an inside look at the white gold rush that only a Peruvian could have written It offers a new perspective for understanding a problem that is usually seen only as it affects our own society and it proposes a new look at policies directed toward its control Peru. History of coca, with an intr. account of the Incas, and of the Andean Indians of to-day William Golden Mortimer,1901 Reading Inca History Catherine Julien,2009-05 At the heart of this book is the controversy over whether Inca history can and should be read as history Did the Incas narrate a true reflection of their past and did the Spaniards capture these narratives in a way that can be meaningfully reconstructed In Reading Inca History Catherine Julien finds that the Incas did indeed create detectable life histories The two historical genres that contributed most to sixteenth and seventeenth century Spanish narratives about the Incas were an official account of Inca dynastic genealogy and a series of life histories of Inca rulers Rather than take for granted that there was an Inca historical consciousness Julien begins by establishing an Inca purpose for keeping this dynastic genealogy She then compares Spanish narratives of the Inca past to identify the structure of underlying Inca genres and establish the dependency on oral sources Once the genealogical genre can be identified the life histories can also be detected By carefully studying the composition of Spanish narratives and their underlying sources Julien provides an informed and convincing reading of these complex texts By disentangling the sources of their meaning she reaches across time language and cultural barriers to achieve a rewarding understanding of the dynamics of Inca and colonial political history Substances of Abuse Paula M. Potter,2008-01-01 **Sisters of the Extreme** Cynthia Palmer,Michael Horowitz,2000-05-01 An anthology of writings by some of the most influential women in history on the often misunderstood and misrepresented female drug experience With great honesty bravery and frankness women from diverse backgrounds write about their drug experiences Women have been experimenting with drugs since prehistoric times and yet published accounts of their views on the drug experience have been relegated to either antiseptic sociological studies or sensationalized stories splashed across the

tabloids The media has given us an enduring but inaccurate stereotype of a female drug user passive addicted exploited degraded promiscuous But the selections in this anthology penned by such famous names as Billie Holiday Anais Nin Maya Angelou and Carrie Fisher show us that the real experiences of women are anything but stereotypical Sisters of the Extreme provides us with writings by women from diverse occupations and backgrounds from prostitute to physician who through their use of drugs dared cross the boundaries set by society often doing so with the hope of expanding themselves and their vision of the world Whether with LSD peyote cocaine heroine MDMA or marijuana these women have sought to reach through their experimentation other levels of consciousness Sometimes their quests have brought unexpected rewards other times great suffering and misfortune But wherever their trips have left them these women have lived courageously if sometimes dangerously and written about their journeys eloquently Cocaine Dominic Streatfeild,2003-07 Examines the history of cocaine from its first medical uses to the worldwide issues it presents today
