Whittier Heer, 1976 *The Dynamics of Soviet Politics* is the result of reflective and thorough research into the centers of a system whose inner debates are not open to public discussion and review a system which tolerates no public opposition parties no prying congressional committees and no investigative journalists to ferret out secrets The expert authors offer an inside view of the workings of this closed system a view rarely found elsewhere in discussions of Soviet affairs Their work building as it does on the achievements of Soviet studies over the last thirty years is firmly rooted in established knowledge and covers sufficient new ground to enable future studies of Soviet politics and social practices to move ahead unencumbered by stereotypes sensationalism or mystification Among the subjects included are attitudes toward leadership and a general discussion of the uses of political history the dramatic cycles of officially permitted dissent the legitimacy of leadership within a system that has no constitutional provision for succession the gradual adoption of Western inspired administrative procedures and systems management a study of group competition and bureaucratic bargaining Khrushchev's virgin lands experiment and its subsequent retrenchment the apolitical values of adolescents the problems of integrating Central Asia into the Soviet system a history of peaceful coexistence and its current importance in Soviet foreign policy priorities and finally an overview of Soviet government as an extension of prerevolutionary oligarchy with an emphasis on adaptation to political change

**Canadian Democracy from the Ground Up** Elisabeth Gidengil, 2014-01-01 Canada is often held up as an example of a healthy democracy However the Canadian public is less enthusiastic about the way our democracy works Rather than focusing on institutional performance this book approaches the democratic deficit from the perspective of the Canadian public and assesses the performance of political leaders and the media in light of Canadians perceptions and expectations In doing so a number of chapters highlight the disjuncture between perceptions and performance For example governments do keep many

of their election promises and media coverage is not as negative as we are apt to believe Similarly the book provides new insights into political apathy by drawing on focus group discussions that represent the first attempt to ask politically marginalized Canadians why they have turned their backs on politics By introducing the voice of everyday Canadians this book adds a new perspective to political discussions in this country Canadian Democracy from the Ground Up is essential for anyone who would like to learn how to build a better democracy one that meets the expectations of the Canadian public

*Continentalizing Canada* Gregory J. Inwood, 2005-01-01 Free trade has been a highly contentious issue since the Conservative government of Brian Mulroney negotiated the first deal with the United States in the 1980s Tracing the roots of Canada's contemporary involvement in North American free trade back to the Royal Commission on the Economic Union and Development Prospects for Canada in 1985 also known as the Macdonald Commission Gregory J Inwood offers a critical examination of the commission and how its findings affected Canada's political and economic landscape including its present day reverberations Using original research including content analysis interviews archival information and surveys of relevant literature Inwood argues that the Macdonald Commission created an atmosphere and political discourse that made the continentalization of Canada possible by way of free trade agreements with the U S and Mexico Through the use of a suspect research program and with the aid of a select oligarchy within the Commission and the government bureaucracy opposition to continentalism from both the majority of the Canadian population and even several commissioners was ignored Accessible to readers interested in Canadian politics policy or economy *Continentalizing Canada* offers a thorough examination into the Macdonald Commission and the resulting discourse in the Canadian political economy

*How Europeans View and Evaluate Democracy* Monica Ferrin, Hanspeter Kriesi, 2016 Based on a new data set covering 29 European and neighboring countries this volume shows how Europeans view and evaluate democracy what are their conceptions of democracy how do they assess the quality of democracy in their own country and to what extent do they consider their country's democracy as legitimate The study shows that Europeans share a common view of liberal democracy which is complemented by elements of social and direct democracy which go beyond the basic liberal model The level of their demands in terms of democracy varies however considerably across Europe and is related to their assessment of democracy the worse the quality of democracy in a given country the higher the respective demands on democracy The analysis of the determinants of democratic views and evaluations shows that they depend on the political and economic but less on the cultural context conditions
