Peace through Tourism Lynda-ann Blanchard, Freya Higgins-Desbiolles, 2013-08-15 Peace through tourism refers to a body of analysis which suggests tourism may contribute to cross cultural understanding, tolerance and even peace between communities and nations What has been largely missing to date is a sustained critique of the potential and capacities of tourism to foster global peace This timely volume fills this void by providing a critical look at tourism in order to ascertain its potential as a social force to promote human rights, justice and peace It presents an alternative characterisation of the possibilities for peace through tourism, embedding an understanding of the phenomenon in a deep grounding in multi-disciplinary perspectives and envisioning tourism in the context of human rights, social justice and ecological integrity Such an approach engages the ambivalence and dichotomy of views held on peace tourism by relying on a pedagogy of peace It integrates a range of perspectives from scholars from many disciplinary backgrounds, non-governmental organisations, NGOs, tourism industry operators and community, all united by an interest in critical approaches to understanding peace through tourism Additionally, diverse geo-political contexts are represented in this book from the USA, India, Japan, Israel, Palestine, Kenya, the Koreas, Indonesia, East Timor and Indigenous Australia Written by leading academics, this groundbreaking book will provide students, researchers and academics a sustained critique of the potential and capacities of tourism to foster global peace

Médecins Sans Frontières, Evolution of an International Movement: Associative History 1971-2011 Laurence Binet, Martin Saulnier, 2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of fait accomplis when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971 2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011
