*The Noble Savage* Hoxie Neale Fairchild, 1928 Studies Romantic Nationalism through the treatment of the noble savage in works by authors such as Wordsworth Southey Byron Rogers and Moore *Washington Irving and the Fantasy of Masculinity* Heinz Tschachler, 2022-02-02 Washington Irving remains one of the most recognized American authors of the 19th century remembered for short stories like Rip van Winkle and The Legend of Sleepy Hollow He also accomplished other writing feats including penning George Washington's biography and other life stories Throughout his life Irving was at odds with socially approved ways of being a man Irving purportedly saw himself and was seen by others as feminine shy and non confrontational Likely related to this he chose to engage with other men's fortunes and adventures by writing defining his male identity vicariously through masculine archetypes both fictional and non fictional Sitting at the intersection of literary studies and masculinity studies this reading reconstructs Irving's life long struggle to somehow win a place among other men Readers will recognize masculine themes in his tales from the Spanish period his western adventures as well as in historical biographies of Columbus Mahomet and Washington In many writings by Irving especially Sleepy Hollow readers will observe themes dominated by masculinity The book is the first of its kind to encompass and examine Irving's writings Baudelaire and Nature F. W. Leakey, 1969 **Natural Space In Literature** Tom Henighan, 2013-12-30 Natural Space In Literature Imagination and Environment in Nineteenth and Twentieth Century Fiction and Poetry **The Wild Girl, Natural Man, and the Monster** Julia V. Douthwaite, 2010-11-15 This study looks at the lives of the most famous wild children of eighteenth century Europe showing how they open a window onto European ideas about the potential and perfectibility of mankind Julia V Douthwaite recounts reports of feral children such as the wild girl of Champagne captured in 1731 and baptized as Marie Ang lique Leblanc offering a fascinating glimpse into beliefs about the difference between man and beast and the means once used to civilize the uncivilized A variety of educational experiments failed to tame these feral children by the standards of the day After telling their stories Douthwaite turns to literature that reflects on similar experiments to perfect human subjects Her examples range from utopian schemes for progressive childrearing to philosophical tales of animated statues from revolutionary theories of regenerated men to Gothic tales of scientists run amok Encompassing thinkers such as Rousseau Sade Defoe and Mary Shelley Douthwaite shows how the Enlightenment conceived of mankind as an infinitely malleable entity first with optimism then with apprehension Exposing the darker side of eighteenth century thought she demonstrates how advances in science gave rise to troubling ethical concerns as parents scientists and politicians tried to perfect mankind with disastrous results *Nature in Modernity* Stephen Duguid, 2010 Nature in Modernity Servant Citizen Queen or Comrade explores the origins and implications of the mastery of nature agenda within Western culture and argues that there is a long standing parallel shadow tradition grounded instead in mutuality respect and reciprocity This is explored in a series of chapters that focus on our hunter gatherer heritage the shift to a more sedentary and agricultural life and the subsequent

emergence of mastery of self and nature as the dominant cultural objective The impact of this mastery agenda on the natural environment is explored and a case made that our current ecological crisis has its origins in this tradition of mastery A counter tradition is examined identifying a range of cultural tools grounded in alternative traditions tools that can be used to create a culture of care mutuality and reciprocity in which it will be logical to welcome nature in all its complexity as a fellow citizen

**Nature and Art** Elizabeth Inchbald,2004-12-31 Nature and Art commands a central place in the history of the English Jacobin novel Published in 1796 the story explores the opposition between the upbringing and actions of Henry Norwynne an unspoiled child of nature who has been reared without books on an African island and the corrupt conduct of his aristocratic older cousin William Inchbald was one of the best known writers of her time and Nature and Art represents her most concerted attempt to analyze the effects of education power and privilege on human behaviour This Broadview edition includes a critical introduction contemporary reviews of the novel and primary source material relating to the novel s composition and its philosophical influences including documents by Jean Jacques Rousseau and William Godwin Documents on education political and religious corruption and African colonization provide further historical context

**At Nature's Edge** Gunnel Cederlöf,Mahesh Rangarajan,2018-09-18 In an epoch when environmental issues make the headlines this is a work that goes beyond the everyday Ecologies as diverse as the Himalayas and the Indian Ocean coast the Negev desert and the former military bases of Vietnam or the Namib desert and the east African savannah all have in common a long time human presence and the many ways people have modified nature With research covering countries from Asia Africa and Australia the authors come together to ask how and why human impacts on nature have grown in scale and pace from a long pre history The chapters in this volume illumine specific patterns and responses across time going beyond an overt centring of the European experience The tapestry of life and the human reshaping of environments evoke both concern and hope making it vital to understand when why and how we came to this particular turn in the road Eschewing easy labels and questioning eurocentrism in today s climate vocabulary this is a volume that will stimulate rethinking among scholars and citizens alike

makes a bold new case for a more sympathetic understanding of cross cultural trade Creative Destruction brings not stale suppositions but an economist s eye to bear on an age old question Are market exchange and aesthetic quality friends or foes On the whole argues Cowen in clear and vigorous prose they are friends Cultural destruction breeds not artistic demise but diversity Through an array of colorful examples from the areas where globalization s critics have been most vocal Cowen asks what happens when cultures collide through trade whether technology destroys native arts why and whether Hollywood movies rule the world whether globalized culture is dumbing down societies everywhere and if national cultures matter at all Scrutinizing such manifestations of indigenous culture as the steel band ensembles of Trinidad Indian handweaving and music from Zaire Cowen finds that they are more vibrant than ever thanks largely to cross cultural trade For all the pressures that market forces exert on individual cultures diversity typically increases within society even when cultures become more like each other Trade enhances the range of individual choice yielding forms of expression within cultures that flower as never before While some see cultural decline as a half empty glass Cowen sees it as a glass half full with the stirrings of cultural brilliance Not all readers will agree but all will want a say in the debate this exceptional book will stir
