Love Cures Laine E. Doggett, 2012-04-30 What is love Popular culture bombards us with notions of the intoxicating capacities of love or of beguiling women who can bewitch or heal to the point that it is easy to believe that such images are timeless and universal Not so argues Laine Doggett in *Love Cures* Aspects of love that are expressed in popular music such as love is a drug sexual healing and love potion number nine trace deep roots to Old French romance of the high Middle Ages A young woman heals a poisoned knight A mother prepares a love potion for a daughter who will marry a stranger in a faraway land How can readers interpret such events In contrast to scholars who have dismissed these women as fantasy figures or labeled them witches Doggett looks at them in the light of medical and magical practices of the high Middle Ages *Love Cures* argues that these practitioners as represented in romance have shaped modern notions of love *Love Cures* seeks to engage scholars of love marriage and magic in disciplines as diverse as literature history anthropology and philosophy

Western Civilization Thomas F. X. Noble,2007 *Old Books and New Histories* Leslie Howsam,2006-01-01 Studies in the culture and history of the book are a burgeoning academic specialty Intriguing rigorous and vital they are nevertheless rooted within three major academic disciplines history literary studies and bibliography that focus respectively upon the book as a cultural transaction a literary text and a material artefact Old Books and New Histories serves as a guide to this rich but sometimes confusing territory explaining how different scholarly approaches to what may appear to be the same entity can lead to divergent questions and contradictory answers Rather than introduce the events and turning points in the history of book culture or debates among its theorists Leslie Howsam uses an array of books and articles to offer an orientation to the field in terms of disciplinary boundaries and interdisciplinary tensions Howsam s analysis maps studies of book and print culture onto the disciplinary structure of the North American and European academic world Old Books and New Histories is also an engaged statement of the historical perspective of the book In the final analysis the lesson of studies in book and print culture is that texts change books are mutable and readers ultimately make of books what they need **Books In**
