Wolfgang Weissleder,1978 **House Inside the Waves** Richard Taylor,2002-07-16 In an era of packaged paradises and cyber surfers Taylors mid life blues seduced him into recapturing his youthful romance with surfing Xiongnu Bryan K. Miller,2024 This book raises the case of the world s first nomadic empire the Xiongnu as a prime example of the sophisticated developments and powerful influence of nomadic regimes Launching from a reconceptualization of the social and economic institutions of mobile pastoralists the collective chapters trace the course of the Xiongnu Empire from before its initial rise traversing the wars that challenged it and the reformations that made it stronger to the legacy left after its eventual fall Xiongnu expounds the economic practices and social conventions of steppe herders as fertile foundations for institutions and infrastructure of empire and renders a model of empires of mobilities which engaged the control less of towns and territories and more of the movements of communities and capital to fuel their regimes By weaving together archaeological examinations with historical investigations Bryan K Miller presents a more complex and nuanced narrative of how an empire based firmly in the steppe over two thousand years ago managed to formulate a robust political economy and a complex political matrix that capitalized on mobilities and alternative forms of political participation and allowed the Xiongnu to dominate vast realms of central Eurasia and leave lasting geopolitical effects on the many worlds around them

Anywhere out of the world Jonathan Chatwin,2017-10-02 By the time of his death in 1989 at the age of forty eight Bruce Chatwin had become one of the most celebrated writers of the twentieth century Though his career spanned merely twelve years his impact and influence was profoundly felt Chatwin s first book *In Patagonia* redefined travel writing whilst his later work *The Songlines* became one of the literary sensations of the 1980s Incorporating original and extensive archival research as well as new interviews with his family and friends *Anywhere out of the world* provides the definitive critical perspective upon the literary life and work of this enigmatic and influential author The work offers a chronological overview of Chatwin s literary career from his first ultimately aborted work *The Nomadic Alternative* here discussed in detail for the first time through to his final novel *Utz* In subjecting his work to such analysis the study uncovers a striking thematic commonality in Chatwin s oeuvre his work is fundamentally preoccupied with the subject of human restlessness This volume provides detailed insight into Chatwin s treatment of the subject in his work identifying and discussing the biographical and philosophical sources of this defining preoccupation *Climate Change* - Arie S. Issar,Mattanyah Zohar,2007-06-10 This

Travellers' Tales of Wonder Simon Cooke, 2013-02-22 Exploring travellers tales of wonder in contemporary literature this study challenges a sensibility of disenchantment with travel It reassesses travel writing as an aesthetically and ethically innovative form in contemporary international literature and demonstrates the crucial role of wonder in the travel narratives of writers such as Bruce Chatwin V S Naipaul and W G Sebald Their travellers tales of wonder are read as a challenge to the hubris of thinking the world too well known and an invitation to encounter the world including its most troubling histories with a sense of wonder

Inner Asia and the Spatial Politics of Empire William Honeychurch, 2014-11-05 This monograph uses the latest archaeological results from Mongolia and the surrounding areas of Inner Asia to propose a novel understanding of nomadic statehood political economy and the nature of interaction with ancient China In contrast to the common view of the Eurasian steppe as a dependent periphery of Old World centers this work views Inner Asia as a locus of enormous influence on neighboring civilizations primarily through the development and transmission of diverse organizational models technologies and socio political traditions This work explores the spatial management of political relationships within the pastoral nomadic setting during the first millennium BCE and argues that a culture of mobility horse based transport and long distance networking promoted a unique variant of statehood Although states of the eastern steppe were geographically large and hierarchical these polities also relied on techniques of distributed authority multiple centers flexible structures and ceremonialism to accommodate a largely mobile and dispersed populace This expertise in spatial politics set the stage early on for the expansionistic success of later Asian empires under the Mongols and Manchus *Inner Asia and the Spatial Politics of Empire* brings a distinctly anthropological treatment to the prehistory of Mongolia and is the first major work to explore key issues in the archaeology of eastern Eurasia using a comparative framework The monograph adds significantly to anthropological theory on interaction between states and outlying regions the emergence of secondary complexity and the growth of imperial traditions Based on this approach the window of Inner Asian prehistory offers a novel opportunity to investigate the varied ways that complex societies grow and the processes articulating adjacent societies in networks of mutual transformation

Nomadic Societies in the Middle East and North Africa Dawn Chatty, 2018-11-12 A scholarly volume devoted to an understanding of contemporary nomadic and pastoral societies in the Middle East and North Africa This volume recognizes the variable mobile quality of the ways of life of these societies which persist in accommodating the nation state of the 20th and 21st century but remain firmly transnational and highly adaptive Composed

Marks,2011-12-16 This deeply informed and beautifully written book provides a comprehensive and comprehensible history of China from prehistory to the present Focusing on the interaction of humans and their environment Robert B Marks traces changes in the physical and cultural world that is home to a quarter of humankind Through both word and image this work illuminates the chaos and paradox inherent in China s environmental narrative demonstrating how historically sustainable practices can in fact be profoundly ecologically unsound The author also reevaluates China s traditional heroic storyline highlighting the marginalization of nature that followed the spread of Chinese civilization while examining the development of a distinctly Chinese way of relating to and altering the environment Unmatched in his ability to synthesize a complex subject clearly and cogently Marks has written an accessible yet nuanced history for any reader interested in China past or present Indeed he argues successfully that all of humanity has a stake in China s environmental future **Cartographic**

Strategies of Postmodernity Peta Mitchell,2013-01-11 The last fifty years have witnessed the growing pervasiveness of the figure of the map in critical theoretical and fictional discourse References to mapping and cartography are endemic in poststructuralist theory and similarly geographically and culturally diverse authors of twentieth century fiction seem fixated upon mapping While the map metaphor has been employed for centuries to highlight issues of textual representation and epistemology the map metaphor itself has undergone a transformation in the postmodern era This metamorphosis draws together poststructuralist conceptualizations of epistemology textuality cartography and metaphor and signals a shift away from modernist preoccupations with temporality and objectivity to a postmodern pragmatics of spatiality and subjectivity Cartographic Strategies of Postmodernity charts this metamorphosis of cartographic metaphor and argues that the ongoing reworking of the map metaphor renders it a formative and performative metaphor of postmodernity
