

NON-MATERIAL CULTURE

Non-material culture is all the elements of culture that are not tangible. It is the opposite of material culture, which describes all of the cultural artifacts that are physical things.

COMPARISON

- **Non-material culture** refers to the intangible aspects of a society, such as beliefs, values, customs, norms, and language, that shape behaviors and social interactions.
- **Material culture** refers to the tangible artifacts, objects, and physical creations of a society, including tools, technology, architecture and art, which reflect its values, beliefs, and way of life.

EXAMPLES

- **Attitudes** - Each culture has its own attitudes. Attitudes don't exist in material forms, so we can call them non-material elements of culture.
- **Business etiquette** - Cultures develop certain approaches to doing business with one another. For example, in Chinese culture, doing business may involve fine dining and gifts while that's not accepted in American cultural practices.
