same path and destined to end at the same point persists in political thought Prominent in Western political thought since the middle of the eighteenth century the idea of universal history holds that all peoples can be situated in the narrative of history on a continuum between a start and an end point between the savage state of nature and civilized modernity Despite various critiques the underlying teleological principle still prevails in much contemporary thinking and policy planning including post conflict peace building and development theory and practice Anathema to contemporary ideals of pluralism and multiculturalism universal history means that not everyone gets to write their own story only a privileged few For the rest history and future are taken out of their hands subsumed and assimilated into other people s narrative *Smart Mobs* Howard Rheingold,2007-03-21 From Tokyo to Helsinki Manhattan to Manila Howard Rheingold takes us on a journey around the world for a preview of the next techno cultural shift a shift he predicts will be as dramatic as the widespread adoption of the PC in the 1980s and the Internet in the 1990s The coming wave says Rheingold is the result of super efficient mobile communications cellular phones personal digital assistants and wireless paging and Internet access devices that will allow us to connect with anyone anywhere anytime From the amusing Lovegetty devices in Japan that light up when a person with the right date potential characteristics appears in the vicinity to the extraordinary the overthrow of a repressive regime in the Philippines by political activists who mobilized by forwarding text messages via cell phones Rheingold gives examples of the fundamentally new ways in which people are already engaging in group or collective action He also considers the dark side of this phenomenon such as the coordination of terrorist cells threats to privacy and the ability to incite violent behavior Applying insights from sociology artificial intelligence engineering and anthropology Rheingold offers a penetrating perspective on the brave new convergence of pop culture cutting edge technology and social activism At the same time he reminds us that as with other technological revolutions the real impact of mobile communications will come not from the technology itself but from how people use it resist it adapt to it and ultimately use it to transform themselves their communities and their institutions Chirst In Evolution Ilia Delio,2010 *The Procurement Value Proposition* Gerard Chick,Robert Handfield,2014-12-03 WINNER ACA Bruel 2015 Grand Prix Businesses are going through rapid change due to an increased focus on sustainability and corporate responsibility technological advances geo political and macro economic change and demographic shifts If purchasing and supply chain managers are to embrace these challenges they must develop new ways of thinking about supply structures and processes as well as new skills and competencies The Procurement Value Proposition examines these important changes that will have a profound effect on the way future procurement is carried out It considers the implications of global economic transformation for procurement set against changes in business contexts purchasing strategies organisational structure roles and responsibilities system development and skills required to work in the profession This book discusses the value proposition offered by contemporary procurement to the sustainability and development of business They examine how organizations that position procurement as a core business function will be able

to drive a more competitive lever for change and more readily adapt to the forces driving rapid change in the current global environment The Procurement Value Proposition features case studies of companies that are moving through procurement transformation in a continual phase of movement and adaption to the multitude of shifts that are occurring It features input observations and case studies from CPO s Commercial Directors and other Procurement and business leaders The book considers a variety of geographical contexts and highlights differences between the US the UK and China Awarded the Grand Prix ACA Bruel for its important contributions to the research and practice in procurement and supply chain management it has been recognized for its ambitious vision of procurement

**Maps of Time** David Christian,2011-10-03 An introduction to a new way of looking at history from a perspective that stretches from the beginning of time to the present day Maps of Time is world history on an unprecedented scale Beginning with the Big Bang David Christian views the interaction of the natural world with the more recent arrivals in flora and fauna including human beings Cosmology geology archeology and population and environmental studies all figure in David Christian s account which is an ambitious overview of the emerging field of Big History Maps of Time opens with the origins of the universe the stars and the galaxies the sun and the solar system including the earth and conducts readers through the evolution of the planet before human habitation It surveys the development of human society from the Paleolithic era through the transition to agriculture the emergence of cities and states and the birth of the modern industrial period right up to intimations of possible futures Sweeping in scope finely focused in its minute detail this riveting account of the known world from the inception of space time to the prospects of global warming lays the groundwork for world history and Big History true as never before to its name

**The Hero of Italy** Gregory Hanlon,2014-03-06 The Hero of Italy examines a salient episode in Italy s Thirty Years War with Spain and France whereby the young duke Odoardo Farnese of Parma embraced the French alliance only to experience defeat and occupation after two tumultuous years 1635 1637 Gregory Hanlon stresses the narrative of events unfolding in northern Italy examining the participation of the little state in these epic European events The first chapter describes the constitution of Cardinal Richelieu s anti Habsburg alliance and Odoardo s eagerness to be part of it A chapter on the Parman professional army based on an extraordinary collection of company roster books sheds light on the identity of over 13 000 individuals soldier by soldier the origin and background of their officers the conditions of their lodgings and the good state of their equipment Chapter three follows the first campaign of 1635 alongside French and Savoyard contingents at the failed siege of Valenza and the logistical difficulties of organizing such large scale operations Another chapter examines the financial expedients the duchy adopted to fend off incursions on all its borders in 1636 and how militia contingents on both sides were drawn into the fighting A final chapter relates the Spanish invasion and occupation which forced duke Odoardo to make a separate peace The volume includes a detailed assessment of the impact of war on civilians based on parish registers for city and country The application of the laws of war was largely nullified by widespread starvation disease and routine sex

selective infanticide These quantitative analyses supported by maps and tables are among the most detailed anywhere in Europe in the era of the Thirty Years War

**Front toward Enemy** Daniel R. Green, 2021-11-20 A unique and much needed perspective on the transitions veterans go through after returning home from war service It is a difficult time to be a veteran of a small war in the United States After twenty years of combat and counter insurgency a generation of Afghan Iraq and Global War on Terror veterans struggle to integrate back into civilian society and lead productive lives As the wars these men and women have participated in continue while they simultaneously recede to the past many feel a sense of estrangement from their country friends and prior lives They often long to return to war but hope to never go again and are stuck in a nether world of war without end and peace that does not exist In *Front toward Enemy War Veterans and the Homefront* Daniel R Green uses his own experiences with war from having served five military and civilian tours in Afghanistan and Iraq and provides a different perspective on the transition home Using sociological philosophical literary cultural historical and political perspectives he provides a venue for the countless conversations he has had with his fellow veterans about their own experiences as a way to assist others with their transition from war and the military to peace and civilian life Green provides not just a war veteran s views but the amplifying perspective of a political scientist as well as a reserve officer in order to rescue the issue of the returning veteran from the field of psychology and to broaden the understanding of the experience of war for veterans This book bridges the gap between war veterans and their fellow citizens sheds light on the quiet conversations that take place among veterans about their experiences and enriches the collective understanding of how wars affect people
