**Nothing Came From Walking: Surviving Encounters with the Spirit of Death** , *Morals and Consent* Malcolm Murray,2017-09-27 How are we meant to behave And how are we to defend whatever answer we give *Morals and Consent* grounds our notion of morality in natural evolution and from that basis Malcolm Murray shows why contractarianism is a far more viable moral theory than is widely believed The scope of *Morals and Consent* has two main parts theory and application In his discussion of theory Murray defends contractarianism by appealing to evolutionary game theory and metaethical analyses His main argument is that we are not going to find morality as an objective fact in the world and that instead we can understand morality as a reciprocal cooperative trait From this minimal moral architecture Murray derives his innovative consent principle The application of the theory detailing what contractarians can or ought to say about moral matters takes up the greater portion of the work Murray offers a trenchant examination of what moral constraints we can claim concerning death abortion euthanasia and

capital punishment sex pornography prostitution and sexual assault beneficence toward present and future people animals and the environment and liberty genetic enhancement organ sales and torture By focusing on evolutionary contractarianism and the epistemic justification of our moral claims or lack thereof Malcolm Murray's *Morals and Consent* is a serious advance in the field of applied ethics and fills an important void *Genetics* Philip Mark Meneely, Rachel Dawes Hoang, Iruka N.
