Non Farm Rural Livelihoods

David J. Grimshaw, Shalini Kala

Non Farm Rural Livelihoods:

Rural Livelihoods and Diversity in Developing Countries Frank Ellis,2000-06-29 Rural families in developing countries make a living by engaging in diverse activities These range from farming to rural trade to migration to distant cities and even abroad This book explores the implications of rural livelihood diversity for key topics in development studies and for poverty reduction policies The livelihoods approach is gaining momentum and this is the first book to set it out in detail

Rural Livelihoods in India Biswajit Chatterjee,Asim K. Karmakar,2015-01-01 This book contains nineteen articles distributed over three major sections viz Conceptual Issues Determinants of Livelihoods and Case Studies One can have a glimpse about the progress and problems of the Rural Livelihoods in India This book would be quite useful for the students researchers policy makers members of economic faculty and in general for the readers interested in various economic issues

Strengthening Rural Livelihoods David J. Grimshaw,Shalini Kala,2011 Enthusiasm amongst international development agencies about harnessing the potential of information and communications technologies ICTs for development has generated questioning of the impact and sustainability of such interventions By presenting the findings of research specifically designed to measure impact on livelihoods Strengthening Rural Livelihoods offers new evidence for the development benefits of ICTs The book asks if ICTs enabled farmers to sell beyond local markets and at better prices and whether there have been social gains in linking geographically disparate households and social networks The authors have provided significant new insights into how to overcome the challenges of mainstreaming ICTs into rural livelihoods and more effectively measuring its effects This book will appeal to academics civil society organizations practitioners and students who are interested in what works and what doesn't work when applying ICTs to rural livelihoods

Rural Livelihoods and Poverty Reduction Policies Frank Ellis,H. Ade Freeman,2004-08-02 This important new collection of contributions brings together current thinking on poverty reduction and rural livelihoods in developing countries As well as leading economists in the field such as Frank Ellis and Chris Barrett there are a number of contributors from developing countries themselves The book examines both macroeconomic and microeconomic phenomena and contains wide range of case studies Skilfully exposing the gap that exists between the rhetoric of poverty reduction strategies in capital cities and the practice of public sector delivery in rural areas this key text will be essential reading for advanced students and researchers in the fields of rural development rural livelihoods poverty reduction strategies and Sub Saharan Africa development as well as advisors and practitioners in international organizations

Rural Livelihoods, Resources, and Coping with Crisis in Indonesia M. J. Titus,Paul P. M. Burgers,2008 Most literature on the economic crisis in indonesia has focused on the negative macro economic impacts during the crisis years of 1997-99 The case studies presented in this book take a different perspective With a longitudinal research perspective this comparative study analyses a wide variety of responses to the crisis among communities and households The case studies in this book cover the coping and adapting mechanisms of rural households

under a variety of resource use practices and resource use regulations in different areas of Indonesia **Teaching and Learning Rural Livelihoods** Sandeep Tambe, 2022-01-31 This book synthesizes the conceptual and applied aspects of rural livelihoods as a discipline and collates the analytical frameworks and approaches that have been designed applied and discussed over the last five decades These include the sustainable livelihoods approach with its vulnerability asset construct collective governance of common pool resources livelihood trajectories and poverty dynamics rights based approach and social justice graduation approach for the ultra poor and the resilience framework to address complex risks The book is divided into three parts namely introduction to rural livelihoods synthesis of the present state of knowledge and strengthening the knowledge action pathway At the end of each chapter a set of class exercises is provided to bring about a deeper understanding of these approaches and their application in real life situations The expected outputs from penning this textbook are threefold Firstly it assimilates the rural livelihood works of eminent academicians under one cover Secondly it positions itself as a one stop destination for educators by translating these concepts into a ready to teach applied format Thirdly it functions as a ready reckoner for young professionals by providing a step by step approach to apply these learnings in real life situations The purpose of this book is to provide a solid foundation to the teaching and learning of rural livelihoods in academia bridge the gap between the science policy and practice of rural livelihoods and finally shape a pool of better informed and equipped professionals in development Special thanks to Himanshu Rohira for his contributions and assistance

Non-farm Rural Livelihoods Ann Gordon, 1999-01-01 **Smallholders and the Non-Farm Transition in Latin America** I. Harbaugh, 2014-09-01 Smallholders and the Non Farm Transition in Latin America explores the drivers of agricultural displacement in Latin America and argues that government support is essential to help small farmers gain the skills financial capital and opportunities needed to transition to a profitable alternative in the non farm sector *Feeding India* Bill Pritchard, Anu Rammohan, Madhushree Sekher, S. Parasuraman, Chetan Choithani, 2013-08-15 Food security is one of the twenty first century s key global challenges and lessons learned from India have particular significance worldwide Not only does India account for approximately one quarter of the world s under nourished persons it also provides a worrying case of how rapid economic growth may not provide an assumed panacea to food security This book takes on this challenge It explains how India s chronic food security problem is a function of a distinctive interaction of economic political and environmental processes It contends that under nutrition and hunger are lagging components of human development in India precisely because the interfaces between these aspects of the food security problem have not been adequately understood in policy making communities Only through an integrative approach spanning the social and environmental sciences are the fuller dimensions of this problem revealed A well rounded appreciation of the problem is required informed by the FAO s conception of food security as encompassing availability production access distribution and utilisation nutritional content as well as by Amartya Sen s notions of entitlements and capabilities **Brazil** , 2003 This volume presents a set of policy notes

prepared by the World Bank's Brazil Team with partners during 2002

Living with Transition in Laos Jonathan Rigg, 2012-10-12 Laos the Lao People's Democratic Republic is one of the least understood and studied countries of Asia. Its development trajectory is also one of the most interesting as it moves from state or perhaps more appropriately subsistence to market. Based on extensive original research, this book assesses how economic transition and marketisation are being translated into progress or not at the local level and at the resulting impact on poverty, inequality and livelihoods. It concludes that the process of transition in fact contributes to the growth of poverty for some people and shows how people manage to cope in very unfavourable circumstances.

Quality of Life and Climate Change: Impacts, Sustainable Adaptation, and Social-Ecological Resilience Shukla, Kasturi, Patil, Yogesh B., Estoque, Ronald C., López de Haro, Pedro Antonio, 2024-03-07 Quality of Life and Climate Change Impacts Sustainable Adaptation and Social Ecological Resilience delves into the pressing concerns surrounding climate change and its profound impacts on the quality of life (QoL) experienced by individuals and communities worldwide. This book explores the intricate relationship between climate change variability and QoL in both rural and urban settings. It undertakes a detailed review of QoL assessments to examine the extent to which climatic changes and livability conditions are incorporated into existing evaluations. By shedding light on the critical need to consider climatic factors in measuring and comparing QoL, especially in the context of creating aging friendly and climate neutral cities, this publication addresses a significant research gap. This book presents prospective themes including sustainable solutions, mitigation strategies and models to enhance socio-ecological resilience. The chapters within the book cover a wide range of topics including climatic variations and future projections, technological advancements in climate change mitigation, implications for residential and non-residential areas, industrial solutions, SDG attainment, mitigation strategies, QoL measurement instruments and urban QoL models. By addressing these themes, the book provides a comprehensive analysis of the complex interactions between climate change, QoL and the pursuit of sustainable development. This book serves as a valuable resource for researchers, academicians, policymakers, civil society groups, think tanks, government and non-government organizations, international agencies and other interested parties seeking to deepen their knowledge and capacity in the field of climate change and its impacts on QoL and Sustainable Development Goals (SDGs) attainment.

Transnational Labour Migration, Livelihoods and Agrarian Change in Nepal Ramesh Sunam, 2020-04-15 Through the prism of a Nepali remittance village, this book critically examines poverty and livelihood dynamics remade through transnational labour migration and remittances and their interrelationships with land, rural labour and agriculture. The concept of The Remittance Village emphasises rural people's transnational mobilities as a key feature of contemporary dynamics in many parts of the Global South which are reconfiguring rural social, economic and ecological textures. Sunam challenges complacent linear narratives that assume new opportunities such as transnational migration and remittances provide better pathways for the rural poor to come out of poverty as well as narratives that understate the

importance of land and farming for the rural poor He demonstrates both that new opportunities are inaccessible for many poor people and that accessing these opportunities often engenders increased precarity and vulnerability In The Remittance Village he finds that even those accessing new opportunities are successful only when their household members are simultaneously engaged in in situ non agricultural activities This book is a valuable resource for scholars and students from a range of interdisciplinary backgrounds including human geography anthropology of development and sociology It is also recommended reading for policy makers international development agencies and NGOs working on rural development in the Global South Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license , Southeast Asia Transformed Chia Lin Sien,2003 Southeast Asia with a total population of 520 million remains a region characterized by fragmentation diversity and considerable internal conflict despite the unifying influence of the Association of Southeast Asian Nations ASEAN formed some thirty five years ago In the new millennium it has lost the distinction of being one of the world's faster growing group of economies since the 1997 financial crisis While it has benefited from the winds of globalization it has now to cope with the painful adjustments to problems that stem from the inadequacies of good governance and structural changes *Land Management and Food/Nutrition (In)Security In Mixed Farming Systems* Ermias Teferi Demessie,Karuturi Venkata Suryabhadgavan,Tibebu Kassawmar,Matebu Tadesse,Abebe Shiferaw Dakka,Gizaw Desta,Mirgissa Kaba,2025-03-21 The need to increase agricultural productivity due to the high demand of animal feeding and to provide food for growing global population has placed intense pressure on the agriculture landscape causing land degradation This issue has heavy consequences on smallholder farmers which constitute the majority of the global agricultural community making the access to sustainable nutrition ambitious for many communities Reducing land degradation understanding the process causes and effects and improving the management of natural resources became among the targets of Sustainable Development Goals Nowadays the implementation of context specific and innovative land management practices is a widely recognized solution to ending land degradation Hurni et al 2010 Despite this it has never been implemented as widely as intended and little is known about their effectiveness in terms of restoring landscapes and boosting food and nutrition security The lack of long term observations and actions contributed to the limited knowledge available about the role of land management practices in food security To this end assessing and documenting the role and effectiveness of land management practices in food security is a relevant and critical research issue that requires appropriate attention This Research Topic aims to collect articles to address i best land management practices in effectively transforming degraded landscapes to food producing landscapes and ii documenting success and failure stories of land management practices in addressing food and nutrition security **Farm Population and Rural Life Activities** ,1927 **The Social Aspects of Rural Life and Farm Tenantry in Cedar County, Iowa** ,1923 Elgar Encyclopedia of Corruption and Society Luís de Sousa,Susana
