**Music in Germany since 1968** Alastair Williams, 2013-07-18 Music in Germany since 1968 modifies the dominant historiography of music in post war Germany by shifting its axis from the years of reconstruction after 1945 to the era following the events of 1968 Arguing that the social transformations of 1968 led to a new phase of music in Germany Alastair Williams examines the key topics including responses to serialism music and politics and the re evaluation of tradition The book devotes central chapters to Helmut Lachenmann and Wolfgang Rihm as focal points for areas such as

postmodernism musical semiotics and action based gestures Further chapters widen the scope by considering the precursors and contemporaries of Rihm and Lachenmann especially in relation to the idea of historical inclusion Williams s study also assesses the development of the Darmstadt summer courses addresses the significance of German reunification and considers the role of Germany in a new stage of musical modernism      **Breaking the Silence** Yasuko I. Takezawa,1995 A unique interpretation of how wartime internment and the movement for redress affected Japanese Americans      **Riders of the Silences** Max Brand,1920 This is a pre 1923 historical reproduction that was curated for quality Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process Though we have made best efforts the books may have occasional errors that do not impede the reading experience We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide      *Ceilings and Dreams* Paul Emmons,Federica Goffi,Jodi La Coe,2019-07-08 Where is the space for dreaming in the twenty first century Lofty thoughts like dreams are born and live overhead just as they have been represented in Renaissance paintings and modern cartoons Ceilings are often repositories of stories events and otherwise invisible oneiric narratives Yet environments that inspire innovative thinking are dwindling as our world confronts enormous challenges and almost all of our thinking debating and decision making takes place under endless ceiling grids Quantitative research establishes that spaces with taller ceilings elicit broader more creative thoughts Today ceilings are usually squat conduits of technology they have become the blind spot of modern architecture The twenty essays in this book look across cultures places and ceilings over time to discover their potential to uplift the human spirit Not just one building element among many the ceiling is a key to unlock the architectural imagination *Ceilings and Dreams* aims to correct this blind spot and encourages architects and designers researchers and students to look up through writings organized into three expansive categories reveries suspensions and inversions The contributors contemplate the architecture of levity and the potential of the ceiling once again as a place for dreaming      **Riders of the Silences** John Frederick,1920      Contract Law: Text, Cases, and Materials Ewan McKendrick,2012-07-19 This is an account of the modern law of contract by a leading authority in the field Through this fresh approach to the subject students should obtain a firm understanding of the central doctrines and the controversies associated with them      Confronting Silence Toru Takemitsu,Yoshiko Kakudo,Glenn Glasow,Seiji Ozawa,1995-01-01 In these writings available here in English for the first time the distinguished Japanese composer Toru Takemitsu reflects on his contemporaries including John Cage Olivier Messiaen and Merce Cunningham on nature which has profoundly influenced his composition on film and painting on relationships between East and West on traditional Japanese music and on his own compositions      Sound Worlds from the Body to the City Ariane Wilson,2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of

environments in which sounds contribute to forming our sense of space and place The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological phenomenological and emotional importance of sound in relation to our construction of space As such it will appeal not only to architects town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This inter disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory's own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie *Dead Man* from the Rock and Roll Hall of Fame to Australia Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shamefu

**Beyond the Silence** Tracie Peterson, Kimberley Woodhouse, 2015-12-29 Powerhouse Team Pairs Up for Second Novel Lillian Porter has always wanted to fulfill her mother's dream of going west so when she hears about a nanny position in Angels Camp California she defies her grandfather and takes a chance on a new future But she quickly wonders if she made the right choice There are rumors in town that her new employer Woodward Colton caused the death of his wife This accusation doesn't match the man Lillian comes to know and Mrs Goodman Woody's long time housekeeper is decisively on

Woody's side but many in town stay far away from Lillian because of her association with the Colton family. Lillian's six-year-old charge Jimmy was there when his mother died and he hasn't spoken a word since. Gently Lillian tries to coax him out of his shell, hoping he'll one day feel safe enough to tell her the truth about what happened. But the Colton olive farm is no longer a safe place. Lillian encounters suspicious characters on their land and mysterious damage done to the farm. Will Mrs Goodman and Jimmy be able to speak what they know in time to save Lillian from tragedy?

*International Courts and Mass Atrocity* Ivor Sokolić, 2018-07-07 The extra legal effects of international and domestic war crimes trials continue to puzzle researchers and practitioners. In the former Yugoslav states the legacy of conflict and issues of transitional justice remains central in politics, society and culture. This book provides a new theoretical and methodological approach to one of these puzzles: why universal human rights norms become distorted or undermined when they reach local publics. It investigates the social and cultural contexts that transitional justice processes take place in by looking at how emotional everyday narratives can hamper the spread of norms in society. In Croatia these narratives define how the public understands the rule of law, history and minority rights.

*Sonic Encounters with Blanchot* Adam Potts, 2020-06-05 *Sonic Encounters with Blanchot* is the first book to explore the relationship of sound and music with the work of Maurice Blanchot. The volume brings together scholars from a range of disciplines who listen closely to the sounds and resonances emanating from within Blanchot's work and who consider their significance both within his work and beyond. The latent and explicit sonic content of Blanchot's writing is explored as is his treatment of music and the possibilities of thinking about contemporary music and sound art through his work. Although Blanchot is best known for his engagement with literature, an engagement that often relies on visual references and experiences, this collection takes a sonic route into one of the most exciting and demanding thinkers of the twentieth century. As an interdisciplinary exploration of sound and Blanchot's work, this book will be of interest to those studying sound in literature and music as well as students of Blanchot's work in general. This book was originally published as a special issue of *Angelaki*.

*The Future of Modern Music* James L. McHard, 2006 *Interculturologies: Moving Forward with Interculturality in Research and Education* Fred Dervin, 2024-08-23 This book showcases 100 terms related to the scientific, educational and political notion of interculturality. Each term is presented with its specific multilingual discussions, scientific origins, multifaceted content and short reviews of the global literature in English. Some myths, imaginaries and ideologies, interculturologies in the book that they have led to construct are also introduced. Questions at the end of each entry encourage readers to think further regarding the notion of interculturality in research and education. Based on the author's decades-long experience in researching and teaching in the interdisciplinary field of intercultural communication education in different parts of the world, his constant reflexive and critical engagement with the notion of interculturality and in-depth reviews of current research, the author has carefully selected recurrent concepts, notions and ideas to be deconstructed in order to challenge readers to think further with him, especially beyond Western and certain

static and resistant ideological positions These represent a complex body of concepts and notions but also involve myths and imaginaries that can prevent us from moving forward in our thinking and in acting interculturally in research and education This book serves as a reading guide for further interculturalities that the reader might identify in the future or as they engage with the book *The Auditory Culture Reader* Michael Bull, Les Back, 2020-05-31 The first edition of *The Auditory Culture Reader* offered an introduction to both classical and recent work on auditory culture laying the foundations for new academic research in sound studies Today interest and research on sound thrives across disciplines such as music anthropology geography sociology and cultural studies as well as within the new interdisciplinary sphere of sound studies itself This second edition reflects on the changes to the field since the first edition and offers a vast amount of new content a user friendly organization which highlights key themes and concepts and a methodologies section which addresses practical questions for students setting out on auditory explorations All essays are accessible to non experts and encompass scholarship from leading figures in the field discussing issues relating to sound and listening from the broadest set of interdisciplinary perspectives Inspiring students and researchers attentive to sound in their work newly commissioned and classical excerpts bring urban research and ethnography alive with sensory case studies that open up a world beyond the visual This book is core reading for all courses that cover the role of sound in culture within sound studies anthropology sociology cultural studies history media studies and urban geography *Silence and Absence in Literature and Music*, 2016-04-08 This volume focusses on the rarely discussed reverse side of traditional given objects of studies namely absence rather than presence of text and silence rather than sound It does so from the bifocal and interdisciplinary perspective which is a hallmark of the book series *Word and Music Studies* The twelve contributors to the main subject of this volume approach it from various systematic and historical angles and cover among others questions such as to what extent absence can become significant in the first place or iconic silent functions of musical scores as well as discussions of fields ranging from baroque opera to John Cage's 4 33 The volume is complemented by two contributions dedicated to further surveying the vast field of word and music studies The essays collected here were originally presented at the Ninth International Conference on Word and Music Studies held at London University in August 2013 and organised by the International Association for Word and Music Studies They are of relevance to scholars and students of literature music and intermediality studies as well as to readers generally interested in phenomena of absence and silence *Silence, Music, Silent Music* Nicky Losseff, 2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through

the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage's idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being Silence Music Silent Music will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy
